

MINIMUM QUALIFICATIONS FOR ENTRY INTO A MEDICAL PROGRAMME

A. The selection for admission to a medical programme implies selection for the medical profession.

A person who is qualified in Medicine from a medical programme recognized by the Malaysian Medical Council ("Council") is entitled to be provisionally registered by the Council (Section 12 Medical Act). The fitness to practise Medicine of the intended applicant shall have to be considered in the selection for entry into any medical programme.

B. The practice of Medicine requires the highest standards of professional and personal conduct as well as professional competence.

1. Although some students have attained the academic standards required, they will not be suitable to a career in Medicine. It is in the interest of the public and such students that they should not gain admission, rather than to have to leave the course or the profession subsequently.

2. It is the responsibility of the medical school to ensure that there are no particular circumstances that will impact upon an applicant's fitness to practise upon graduation.

3. All applicants shall declare if they have:

- been found guilty of any criminal offence(s);
- serious physical or mental illness; and/or
- serious communicable disease(s)

which may impact upon their future practice.

4. A person with any of the following shall be disqualified from entry into a medical programme:

- found guilty of offence(s) affecting the human body; and/or
- recent or serious dishonesty e.g. cheating at examinations, falsification of documents, plagiarism; and/or
- serious physical or mental illness; and/or
- serious communicable disease(s).

5. Any failure to declare information that has a material influence on a student's fitness to practise may lead to the termination of their medical course, as honesty, integrity and good health are essential attributes of a doctor and by extension, the medical student.

6. In the event of any doubt, the medical school shall seek clarification from the Council.

7. All decision makers of medical schools and aspiring applicants are advised to study the Council's document "The duties of a doctor" and other Council guidelines available at www.mmc.gov.my.

C. A high level of academic attainment is expected.

1. An understanding of science, in particular chemistry and biology, is central to the understanding of Medicine. However, the Council recognizes the diversity of subjects taken by applicants and the contributions of those who entered medical schools with other qualifications.

2. All applicants shall have attained a level of competence in English to enable them to complete the course successfully.

3. All applicants who enter a matriculation, foundation or pre-medical programme, except those with a degree qualification in the arts or humanities, shall have passed and attained a minimum of the following at School Certificate level or its equivalent:

Examinations	Requirements
<i>Sijil Pelajaran Malaysia (SPM)</i>	5 Bs each in <ul style="list-style-type: none"> • Biology and • Chemistry and • Physics and • Mathematics or Additional Mathematics and • another subject
