

# **STANDARDS FOR UNDERGRADUATE MEDICAL EDUCATION**

Prepared by:

**UNDERGRADUATE EDUCATION SUBCOMMITTEE,  
MEDICAL EDUCATION COMMITTEE, MALAYSIAN MEDICAL COUNCIL**

Adopted by The

**MALAYSIAN MEDICAL COUNCIL**

**28<sup>th</sup> May 2019**

**First Edition: 2019**

**Second Edition: 2022**

**Third Edition: 2026**

## STANDARDS FOR PROGRAMME ACCREDITATION OF UNDERGRADUATE MEDICAL PROGRAMMES

### CONTENTS

1.	<b>Foreword</b>		VI
2.	<b>Glossary</b>		VIII
3.	<b>Terminology</b>		XV
4.	<b>List of Tables</b>		XVII
5.	Section 1:	Introduction to Programme Accreditation	1
6.	Section 2:	Criteria and Standards for Programme Accreditation	5
7.	Section 3:	Data Submission for Programme Accreditation (MQA 02 –UG Medical Programme)	22
8.	Section 4:	Core Competencies	52
9.	Section 5:	Accreditation Procedure	169
10.	Section 6:	Data Submission for Curriculum Review (MMC CR-01 Curriculum Review Undergraduate Medical Programme)	175
11.	Section 7:	Guidelines for Preparing the Programme Accreditation Report	190
<b>Appendices</b>			
12.	Appendix 1	MQF 2 <sup>nd</sup> Edition: Domains / Clusters of Learning Outcomes	205
13.	Appendix 2	MQF 2 <sup>nd</sup> Edition: Descriptors for Level 6	209
14.	Appendix 3	Guideline on Credit Value and Student Learning Time (SLT)	210
15.	Appendix 4	Example Framework of Undergraduate Medical Curriculum	214

16.	Appendix 5	Minimum Qualifications for Entry into A Medical Programme	218
17.	Appendix 6	Transfer Student	226
18.	Appendix 7	Minimum Number of Academic Staff for each Discipline	227
19.	Appendix 8	Guide To Teaching-Learning Activities	228
20.	Appendix 9	Guideline to Calculate Full-time Equivalent (FTE)	230
21.	Appendix 10	Table 4 Evaluation Form	231
22.	Appendix 11	List of Participants Attended Various Workshops Conducted by MEC/MMC	232
23.	Appendix 12	Provisional Accreditation (PA) Report For Undergraduate Programme	237
24.	Appendix 13	Curriculum Review Report	256
25.	Appendix 14	Monitoring Visit Report	278

**List of Annotation**

1.1.4	The 2 <sup>nd</sup> Malaysian Qualification Framework (MQF) was published in April 2018 (Pekeliling MQA.100-1/7/1 Jilid (4)). Detail explanation of MQF learning domain in Appendix 1 and explanation of MQF level 6 descriptors in Appendix 2.
1.2.4	Refer to Section 4 for Core Competencies and provide detail course information in Table 4. Please use Appendix 3 as guide to calculate Students Learning Time and Credit Value. The total credit shall not be less than 200 for the whole programme.
1.3.4	For new medical programme, the medical student intake should not exceed 50 students per year. Subsequently, the school can apply to the Joint Technical Committee for an increase in the student intake.
2.2.1	A variety of methods and tools: Medical school must use a valid and reliable assessment tool to assess different learning domains. It is best shown by assessment blueprint.  External expertise: Content expert in a particular field who are external to the HEP
3.1.1	The medical school should adhere to prevailing guidelines issued by the MoH and Malaysian Medical Council on the requirements for pre-admission medical examinations and tests. Medical schools must ensure the ability of individuals to technically function as doctors. This calls for assessment of the observation, communication, motor function, intellectual and integrative abilities as well as behavioural and emotional attributes of the candidates. Each medical school must adhere to any additional national requirements for foreign students who may require specific clearance by the Immigration authority of Malaysia and Ministry of Higher Education.  Each medical school are required to ensure all prospective students declare all previous criminal convictions.
3.1.3	Requirement from Malaysian Medical Council: Pursuant to the Age of Majority Act 1971 (Act 21) and taking into cognisance of intimate issues and procedures, student should be at least 18 years old during admission (MMC 398 meeting dated 22 September 2020), no serious physical or mental illness; and/or serious communicable disease which may impact upon their future practice.
3.2.1	Students transfer involving credit transfer either vertical or horizontal must adhere to Dasar Pindah Kredit as stated in Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi.

4.1.1	<p>Appropriate balance between medical and non-medical staff with non-medical staff not exceeding 30%. Local (Malaysian) faculty should be AT LEAST 50% of the total number of staff.</p>
4.1.3	<p>Academic staff workload - Average teaching hours for each staff should not exceed 18 hours/week.</p>
4.1.4	<p>Adequate - In computing the ratio, the medical school must convert the part time to full time equivalent (FTE) using the normal full-time workload. The part-time academic staff should not be more than 40%.</p> <p>Qualified academic staff - The qualification must match the subject taught. For clinical teaching the medical practitioner must have valid registration with Malaysian Medical Council.</p>
5.1.1	<p>The number of students who can be enrolled will be based on the number of beds available for teaching purposes, at a ratio of <b>1 student to 5 beds</b>. Hence for a faculty that admits 150 students in one year, the total number of beds available for teaching must be at least 750.</p>
6.2.2	<p>The programme leader is the chief official of the medical school, must have ready access to the Vice Chancellor or President or other official in-charged with final responsibility for the school, and to other university officials as are necessary to fulfil the responsibilities of the programme leader. The programme leader usually holds the position of the Dean or Head of School.</p>

**PRESIDENT FOREWORD**

**MALAYSIAN MEDICAL COUNCIL**

**STANDARDS FOR UNDERGRADUATE MEDICAL EDUCATION**

Medical Education Committee for Primary Medical Qualifications (MEC 1) under Malaysian Medical Council (MMC) with Malaysian Qualifications Agency (MQA) facilitates quality through the development of quality assurance documents namely Standards for Undergraduate Medical Education. This standard is aligned with current Malaysian Qualifications Framework (MQF), Codes of Practice of Programme Accreditation (COPPA), and Guidelines to Good Practices all of which must be used as a reference point in the conduct of a programme of study in Malaysia.

After many rounds of discussions and stakeholders' engagement for feedback, the Standards for Undergraduate Medical Education 3<sup>rd</sup> Edition is now officially ready for publication. I must congratulate the Undergraduate Education Subcommittee of the MEC 1, Malaysian Medical Council for the job well done. A special thank you goes to Prof. Dato' Dr. Mafauzy bin Mohamed for dedication and exemplary leadership in heading the team to complete the daunting task.

Quality assurance is an ongoing process and it is the responsibility of all parties involved. Thus, it is of utmost importance for MEC 1, MMC to continuously review its quality assurance practices ensuring their relevancy, reliability, adaptability and effectiveness to address the ever-changing environment within which medical schools operates. The MEC 1, MMC hopes that this Standards for Undergraduate Medical Education 3<sup>rd</sup> Edition would assist institutions to enhance their quality provisions through the self-review and internal assessment processes as well as the external audit conducted by the MQA and MMC. This document serves as a guide for all medical schools in Malaysia in ensuring that their medical faculty is capable of offering quality medical education according to the standards sets. The standards listed are the minimum requirements that every medical school should provide to their medical graduates. The Ministry of Health will not compromise on the quality of the graduates produced because patient safety is its utmost priority. Therefore, medical schools are encouraged to offer more clinical exposure than what is listed in the standards. In the

spirit of shared responsibility and balancing the demands of autonomy, flexibility and accountability, the MEC 1, MMC looks forward to continuous collaboration with all stakeholders in enhancing the quality of medical education in Malaysia.

On behalf of the MMC, I wish to extend our sincere appreciation and gratitude to all those who have contributed towards the preparation of Standards for Undergraduate Medical Education 3<sup>rd</sup> Edition. It is our hope that this Standards will serve the purpose of our common endeavour to achieve medical education of the highest quality.

Datuk Dr. Mahathar bin Abd Wahab

President Malaysian Medical Council

**GLOSSARY**

Definition of terms use in the Standard for Medical Education

1.	Academic staff workload	Average teaching hours for each staff should not exceed 18 hours/week.
2.	Affirmations	Proposed improvements by the medical school on aspects of the programme, which the panel believes significant and which it welcomes.
3.	Appropriate student conduct	A written code of conduct.
4.	Aptitude test	An assessment to test a candidate's abilities through a variety of different <b>testing</b> formats. <b>Aptitude tests</b> will <b>test</b> candidate ability to perform tasks and react to situations at work. This includes problem-solving, prioritisation and numerical skills, amongst other things.
5.	Areas of concern	Aspect of the programmes that is below the standards and require improvement.
6.	Assessment blueprint	The assessment blueprint, also known as table of specifications, is a two-way grid outlining the major course content or the learning outcomes (which specify the learning domain and competency level) versus and tool of assessment.
7.	Assessment: Summative	Summative assessment is the assessment of learning, which summarises the progress of the learner at a particular time and is used to assign the learner a course grade.
8.	Assessment: Continuous	Continuous Assessment is data collection processes that are continuously done throughout the duration of a course/module or throughout the duration of a programme to gather evidences of learning for the purpose of improving learning, modifying teaching and adjusting the curriculum design. It also includes data gathering that are used to assess how well courses offered by the programme support attainment of the programme learning outcomes.

9.	Assessment: Formative	Formative Assessment is a form of low-stakes assessment for learning and is part of the instructional process. It is about continuously collecting data as learning is in progress. When incorporated into classroom practice, it provides the information needed to adjust teaching and learning while they are happening. In this sense, formative assessment informs both teachers and students about student understanding at a point when timely adjustments can be made. These adjustments help to ensure students achieve the targeted learning outcomes within a set time frame.
10.	Basic biomedical sciences	Include anatomy, biochemistry, biophysics, cell biology, genetics, immunology, microbiology (including bacteriology, parasitology and virology), molecular biology, pathology, pharmacology and physiology.
11.	Clinical sciences	The clinical sciences - include anaesthetics, dermatology, radiology, emergency medicine, general practice/family medicine, internal medicine, geriatrics, gynaecology & obstetrics, ophthalmology, orthopaedics surgery, otorhinolaryngology, paediatrics, palliative care, psychiatry, surgery.
12.	Commendation	Aspects of the provision of the programme that are considered worthy of praise.
13.	Competency	A student's knowledge, skills and abilities which enable the student to successfully and meaningfully complete a given task or role
14.	Condition	A mandatory requirement, which the medical school must comply within a stipulated time period
15.	Dean (Programme leader)	The chief official of the medical school, who usually holds the title 'Dean' must have ready access to the Vice Chancellor or President or other official in charged with final responsibility for the school, and to other university officials as are necessary to fulfil the responsibilities of the dean's office.

16.	Educational Expertise	Educational experts and specialists who are available, and, used to plan programmes such as designing and reviewing the curriculum, selecting relevant contents, developing teaching and learning methods, advising on the assessment modes, building staff capacity and conducting educational research and providing consultancy services.
17.	e-Learning	Learning facilitated and supported through the use of information and communications technology.
18.	Evidence-based medicine	Medicine founded on documentation, trials and accepted scientific results.
19.	Full-time Equivalent	A measure to convert part-time staff workload to full-time equivalent using a normal full-time staff workload. This is only used for the purpose of computing part-time to full-time academic staff whereby the part-time staff should not be more than 40%.
20.	Full-time Staff	Staff with permanent appointment or contract appointment (minimum one year) who works exclusively for a Higher Education Provider.
21.	Health sector	Health sector would include the health care delivery system, whether public or private, and medical research institutions.
22.	Higher Education Provider (HEP)	A higher education provider is a body corporate, organisation or other body of persons which conducts higher education or training programmes leading to the award of a higher education qualification.
23.	Institutional autonomy	Institutional autonomy would include appropriate independence from government and other counterparts (regional and local authorities, religious communities, private co- operations, the professions, unions and other interest groups) to be able to make decisions about key areas such as design of curriculum, assessments, students admission, staff recruitment/selection and employment conditions, research and resource allocation.

24.	Interprofessional Education (IPE)	The occurrence of two or more health or social professions learning interactively about, from and with each other, all with the common goal of enabling effective collaboration and improving patient health outcomes.
25.	Interprofessional Collaborative Practice (IPP)	Interprofessional practice in health-care occurs when multiple health workers from different professional backgrounds provide comprehensive services by working with patients, their families, caregivers and communities to deliver the highest quality of care across settings.
26.	Learning Outcomes	Learning outcomes are statements on what a learner should know, understand and can do upon the completion of a period of study.
27.	Malaysian Qualifications Framework (MQF)	The Malaysian Qualifications Framework is an instrument that classifies qualifications based on a set of criteria that are approved nationally and benchmarked against international best practices.
28.	Medical Ethics	Medical ethics deals with moral issues in medical practice such as values, rights and responsibilities related to physician behaviour and decision making.
29.	Medical Law	Medical law is the branch of law which concerns the prerogatives and responsibilities of medical professionals and the rights of the patient.
30.	Medical Research	Medical research encompasses scientific research in basic biomedical, clinical, behavioural and social sciences.

31.	Medical School	The educational organisation providing a basic (undergraduate) programme in medicine and is synonymous with medical faculty, medical college, medical academy or medical university. The medical school can be part of or affiliated to a university or can be an independent institution at equal level or can be HEP on its own right.
32.	Mission	The overarching frame to which all other aspects of the educational institution and its programme have to be related. Mission statement would include general and specific issues relevant to institutional, national, regional and global policy and needs. Mission in this document includes the institution's vision.
33.	MQF Level	MQF level, as described in the Malaysian Qualification Framework, is an award level described with generic learning outcomes and qualification descriptors which characterises a typical qualification.
34.	Postgraduate Medical Education	Postgraduate medical education would include post-registration education, which could be vocational / professional education, specialist / subspecialist education and other formalised education programmes for defined expert functions.
35.	Programme	A programme is an arrangement of modules that are structured for a specified duration and learning volume to achieve the stated learning outcomes, which usually leads to an award of a qualification.

36.	Programme Accreditation	<p>An assessment exercise to determine whether a programme has met the quality standards and is in compliance with the Malaysian Qualifications Framework. There are two stages of programme accreditation:</p> <p>Provisional Accreditation is an accreditation exercise to determine whether a proposed programme meets the minimum quality standards prior to its launch.</p> <p>Full Accreditation is an accreditation exercise to ascertain that the teaching, learning and all other related activities of a provisionally accredited programme meet the quality</p>
37.	Programme Aims	<p>Programme aims is an overarching statement on the purpose, philosophy and rationale in offering the programme.</p>
38.	Programme Objectives	<p>Broad statements that describe the career and professional accomplishments that the programme is preparing graduates to achieve after they graduated.</p>
39.	Programme Learning Outcomes	<p>Statements that describe the specific and general knowledge, skills, attitude and abilities that the programme graduates should demonstrate upon graduation.</p>
40.	Quality Assurance	<p>Quality assurance comprises planned and systematic actions (policies, strategies, attitudes, procedures and activities) to provide adequate demonstration that quality is being achieved, maintained and enhanced, and meets the specified standards of teaching, scholarship and research as well as student learning experience.</p>
41.	Quality Enhancement	<p>Quality enhancement is steps taken to bring about continual improvement in quality.</p>

42.	Self-Review Report (SRR)	Self-Review Report is a report submitted by a higher education provider that demonstrates whether it has achieved the quality standards for purposes of a full programme accreditation. (Incorporated in the Evaluation Instrument).
43.	Stakeholders	A person, group or organization that has interest or concern in an organization. This includes all parties that are directly affected by the success or failure of an educational system, as well as those indirectly affected
44.	Stakeholders: Principal Stakeholders	Include the dean, the faculty board / council, the curriculum committee, representatives of staff and students, alumni, the university leadership and administration, relevant governmental authorities and regulatory bodies.
45.	Stakeholders: Other Stakeholders	Include representatives of other health professions, patients, the community and public (e.g. users of the health care delivery systems, including patient organisations). Other stakeholders would also include other representatives of academic and administrative staff, education and health care authorities, professional organisations, medical scientific societies and postgraduate medical educators.

## TERMINOLOGY

### Full Time Academic staff

- Formally appointed by higher education institutions and are responsible for teaching, supervision, curriculum development, scholarly activities (research and publication), and mentorship.
- Possess recognized postgraduate qualifications relevant to their teaching area.
- The qualification needs to be from a HEP that is recognized by the Government or of any other equivalent qualification.
- For clinical teaching, academic staff must also be registered medical practitioner with recognized postgraduate qualifications with valid practicing certificate.
- Includes appointment such as lecturer, senior lecturer, assistant professor, associate professor and professor.

### Full-time equivalent academic staff

- is medical specialist with valid practicing certificate who are appointed for clinical teaching only.

**Only those who fulfil the definition of academic staff and FTE can be counted in calculating the staff: student ratio.**

An **instructor** is a staff member appointed to support the teaching and supervision of students in clinical or practical settings. The role corresponds to MQA's categories of *Instructor* or *Tutor* depending on qualifications, responsibilities, and institutional designation.

### Instructor:

- They focus on skills-based teaching, such as clinical procedures, patient interaction, and simulation-based learning.
- Typically holds a professional qualification or diploma in a relevant field, with substantial practical experience.
- Is not involved in the curriculum's design and review but contributes to hands-on training and competency development.

**Tutor:**

- They supports small-group teaching, tutorials, and clinical case discussions.
- Usually holds a Bachelor's degree in a relevant discipline and may be pursuing further qualifications.
- Contributes to student mentoring and formative assessment.

**LIST OF TABLES**

**SECTION 1**  
**INTRODUCTION TO**  
**PROGRAMME**  
**ACCREDITATION**

## **SECTION 1**

### **INTRODUCTION**

Malaysia is committed to the highest standards of professionalism in medical practice. Accreditation of its undergraduate medical education programme has been introduced as a quality assurance mechanism. This exercise will promote public confidence and provide assurance to society and to the medical profession that the quality of provision and standards of degree in Medicine are being safeguarded and enhanced.

The accreditation process assists medical schools in the attainment of standards of structures and function as well as the performance of graduates in compliance with national norms of preparation for practice and further medical training. All doctors wish to be licensed for medical practice in Malaysia must graduate from accredited medical schools. The accreditation of Medical programmes is under the purview of Malaysian Qualification Agency (MQA).

The standards and procedures for accreditation of medical programmes was first developed in 1998, then reviewed in year 2000 to align the standards with the World Federation of Medical Education (WFME) global standards in medical education. The standards was reviewed again in 2006 and 2010. In 2018, Malaysian Qualification Agency (MQA), the agency that is responsible in accreditation of all academic programmes in Malaysia published a new version of Code of Practice of Programme Accreditation (COPPA), which has led to the revision of the standards which adopted the COPPA 2<sup>nd</sup> edition. The objectives for this review were: 1) to ensure that the standards reflect current shift of learning strategies from traditional teacher-centred to students-centred and 2) students active learning, using the principles of outcome-based education. While the standards aims to safeguard the public in terms quality education and producing safe medical practitioners, it does not limit the institutions from being creative and innovative and expand the scope of medical knowledge. Instead this standards encourages and celebrates diversity in acquiring knowledge and clinical skills with appropriate attitude and high standard of professionalism.

This standards covers 7 areas namely: Area 1: Programme Development and Delivery, Area 2: Assessment of Student Learning, Area 3: Student Selection and Support Services, Area 4: Academic Staff, Area 5: Educational Resources, Area 6: Programme Management and Area 7: Programme Monitoring, Review and Continual Quality Improvement. In view of rapid development in the area of Medical education and in tandem with feedback from various stakeholders, the revised standard is now

ready to be published as the second edition.

This standards formed the basis for accreditation of undergraduate medical programmes. The undergraduate sub-committee of Malaysian Medical Council with support from Malaysian Qualification Agency developed an evaluation instrument that is aligned with the standards. The evaluation tool consists of 100 items is published online together with the standards. All institutions are required to self-evaluate and submit it together with institutional databases. This is an important step to encourage quality enhancement among the Higher Education Providers.

In order to facilitate HEP and panel accreditors in the evaluation process, other supporting documents were also produced which include guideline to Data Submission for Programme Accreditation and List of Core Competencies and their expected level that should be acquired upon graduation.

This document must be read together with other quality assurance documents and other policies by MQA and related agencies. These include but not limited to:

1. Malaysian Qualifications Framework (MQF). 2<sup>nd</sup> Edition
2. Code of Practice for Institutional Audit (COPIA)
3. Code of Practice for Programme Accreditation (COPPA). 2<sup>nd</sup> Edition- updated Nov 2018
4. Guidelines to Good Practices (GGP)
5. *Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi (2009-2020). Edisi ketiga*

**SECTION 2**  
**CRITERIA AND**  
**STANDARDS FOR**  
**PROGRAMME**  
**ACCREDITATION**

## SECTION 2: CRITERIA AND STANDARDS FOR PROGRAMME ACCREDITATION

### AREA 1: PROGRAMME DEVELOPMENT AND DELIVERY

#### 1.1. Statement of Educational Objectives of Academic Programme and Learning Outcomes

- 1.1.1. The medical school must:
- have its programme to be consistent with, and supportive of, the vision, mission and goals of the HEP.
  - In its mission, outline the aims and the educational strategy that result in a competent medical doctor.
  - have a mission that encompasses the health needs of the community, the needs of the health care delivery system and other aspects of social accountability.
- 1.1.2. A new medical programme shall be considered only after a needs assessment indicates that it should be offered.
- 1.1.3. The medical school must:
- state its programme educational objectives, programme learning outcomes, teaching and learning strategies, and assessment, and ensure constructive alignment among them.
  - define the programme learning outcomes that students should exhibit upon graduation in relation to their achievements regarding knowledge, skills, and attitudes; the appropriate foundation for a future career in any branch of medicine; their future roles in the health sector; their commitment to life-long learning; the health needs of the community and the needs of the health care delivery system.
- 1.1.4. The programme learning outcomes must correspond to the Malaysian Qualifications Framework (MQF) level descriptors at Level 6 and the five clusters of MQF learning outcomes:
1. Knowledge and understanding
  2. Cognitive skills
  3. Functional work skills with focus on:
    - a. Practical Skills
    - b. Interpersonal skills
    - c. Communication skills
    - d. Digital skills
    - e. Numeracy skills
    - f. Leadership, autonomy and responsibility

4. Personal and entrepreneurial skills.
5. Ethics and professionalism.

*Annotation 1: The 2<sup>nd</sup> Malaysian Qualifications Framework (MQF) was published in April 2018 (Pekeliling MQA.100-1/7/1 Jilid (4)). Appendix 1: Detailed explanation of MQF learning clusters and the descriptions. Appendix 2: MQF Level Descriptors (Level 6).*

- 1.1.5. Considering the stated learning outcomes, the programme must prepare graduates to be ready for housemanship and subsequent postgraduate medical education.

## 1.2. Programme Development: Process, Content, Structure and Teaching-Learning Methods

- 1.2.1. The medical school must have adequate **institutional autonomy** to formulate and implement policies for which its faculty/academic staff and administration are responsible, especially regarding the design of the curriculum and the use of the allocated resources necessary for its implementation.

- 1.2.2. The medical school must have an appropriate process for developing the curriculum, leading to approval by the highest academic authority in the HEP and the relevant regulatory bodies.

- 1.2.3. The medical school must consult stakeholders in developing the curriculum, including educational experts as appropriate.

- 1.2.4. The curriculum must:
  - apply the **principles of scientific method**, including analytical and critical thinking, medical research methods and evidence-based medicine.
  - identify and incorporate aspects of the **basic biomedical sciences** to create an understanding of scientific knowledge and concepts fundamental to acquiring and applying the clinical sciences.
  - identify and incorporate **aspects of the behavioural sciences, social sciences, medical ethics and medical laws** that are relevant to the practice of medicine.
  - embed values-based education (MQF 2024) that focuses on aspects of the **humanistic, societal, communal, professional skills and attitudes** to ensure that students:
    - acquire sufficient **clinical competency** to function effectively as medical house officers after graduation.
    - spend a reasonable part of the programme in **planned contact with patients** in relevant clinical settings.

- participate in **health promotion and preventive medicine** activities.

- specify the time spent in **training across the major clinical disciplines**.
- emphasise **healthcare economics** in the context of Malaysia, including funding frameworks, the cost of care, and clinical decisions.

*Annotation: Refer to Section 4 for Core Competencies and provide detailed course information in Table 4. Please use Appendix 3 as a guide to calculate students' learning time and credit value. For credit value, the total credit shall not be less than 200 for the whole programme.*

*Appendix 3: Guideline on Credit Value and Student learning time*

*Appendix 4: Framework of the medical curriculum and core contents*

- 1.2.5. The medical school must:
- have the appropriate learning and teaching methods relevant to the programme educational objectives and programme learning outcomes.
  - ensure that the content, extent and sequencing of courses and other curricular elements are relevant.

- 1.2.6. There must be co-curricular activities to enrich student experience, and to foster personal development and social responsibility.

### 1.3. Programme Delivery

- 1.3.1. The medical school must:
- have a curriculum committee responsible and authorized to plan, implement, and review the curriculum.
  - ensure representation of staff, students, and where possible, other relevant stakeholders in the curriculum committee.

- 1.3.2. Students must be provided with, and briefed on, current information about (among others) the objectives, structure, outline, schedule, credit value, learning outcomes, and methods of assessment of the programme at the commencement of their studies.

- 1.3.3. The medical school must have an appropriate programme leader such as the Dean, Head of School or any other suitable designation and a team of academic staff with adequate qualifications and **authority** for the effective delivery of the programme.

- 1.3.4. The medical school must design the curriculum in accordance with recent advances in medical education and the availability of educational resources.

*Annotation: For a new medical programme, the medical student intake should not exceed 50 students per year. Subsequently, the school can apply to the Ministry of Higher Education for an increase in the student intake.*

1.3.5. The medical school must encourage innovations in teaching, learning and assessment.

1.3.6. The medical school must obtain regular feedback from stakeholders to improve the delivery of the programme outcomes.

## AREA 2: ASSESSMENT OF STUDENT LEARNING

### 2.1. Relationship between Assessment and Learning Outcomes

2.1.1. The medical school must define the assessment principles, methods, and practices used for assessment of its students, and it must be aligned to the learning outcomes of the programme.

2.1.2. The alignment between the assessment and the learning outcomes in the programme must be systematically and regularly reviewed to ensure its effectiveness.

### 2.2. Assessment Methods

2.2.1. The medical school must ensure:

- that there is a variety of methods and tools appropriate for assessing learning outcomes and competencies.
- it assesses medical students against the learning outcomes at appropriate points and ensures they achieve all outcomes upon graduation.
- that students who graduate have demonstrated competence across all outcomes.
- that the assessments are open to external scrutiny using a structured format.

*Annotation: A variety of methods and tools: Medical schools must use a valid and reliable assessment tool to assess different learning domains. It is best shown by the assessment blueprint. Refer to Section 4 for Core Competencies when developing the clinical blueprint.*

*Annotation: External expertise: Content experts in a particular field who are external to HEP.*

2.2.2. There must be mechanisms to ensure, and to periodically review the assessment system, and establish the validity, reliability, integrity, currency and fairness of the assessment methods and tools.

2.2.3. The medical school must document and communicate to students the frequency, methods, and criteria of student assessment - including the grading system, the criteria for setting pass marks, grade boundaries, progression criteria, and the number of allowed retakes.

2.2.4. Changes to student assessment methods must follow established procedures and regulations and be communicated to students prior to their implementation.

### 2.3. Management of Student Assessment

2.3.1.	The medical school and its academic staff must have an adequate level of <b>autonomy</b> in the management of student assessment.
2.3.2.	There must be mechanisms to ensure the security of assessment documents and records.
2.3.3.	The assessment results must be communicated to students before the commencement of a new academic session.
2.3.4.	The HEP must have a policy or guidelines for students to appeal their results.
2.3.5.	The medical school must periodically review its student assessment system, act on the findings of the review and incorporate new assessment methods where appropriate.

## AREA 3: STUDENT SELECTION AND SUPPORT SERVICES

### 3.1. Student Selection

- 3.1.1. The programme must have clear criteria and processes for student selection (including that of transfer students) that are fair and equitable. These must comply with the prevailing minimum qualifications for entry issued by the relevant regulatory bodies.

*Appendix 5: Minimum qualifications for entry into a medical programme as approved by MoHE.*

- 3.1.2. The criteria and processes of student selection must be transparent, objective and comply with regulatory requirements.

- 3.1.3. Student enrolment must comply with the requirements of the relevant regulatory bodies and within the capacity of the medical school to effectively deliver the programme.

*Annotation: Requirement from Malaysian Medical Council: Pursuant to the Age of Majority Act 1971 (Act 21) and taking into cognisance of intimate issues and procedures, student should be at least 18 years old during admission (MPM 398 meeting dated 22 September 2020), no serious physical or mental illness ; and/or serious communicable disease which may impact upon their future practice.*

- 3.1.4. The medical school must:
- state the relationship between the selection of students and the mission of the school, the educational programme, and the desired qualities of graduates.
  - periodically review the admission policy.
  - have a system for appeal of admission decisions.

- 3.1.5. The medical school must offer support to assist students in need, including incoming transfer students.

### 3.2. Articulation and Transfer

- 3.2.1. The medical school must have well-defined policies and mechanisms to facilitate student mobility, which may include student transfer within and between institutions as well as cross-border.

*Annotation: Students' credit transfer, whether vertical or horizontal, must adhere to Dasar Pindah Kredit as stated in Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi 2009-2020 (Items 146 to 157) and Appendix 6 of Standards For Undergraduate Medical Education.*

*Appendix 6: Transfer students*

3.2.2. The medical school must ensure that the incoming transfer students have the capacity to follow the programme and comply with all relevant regulations successfully.

### **3.3. Student Support Services**

3.3.1. Students must have access to appropriate and adequate support services, such as physical, social, religious, financial, recreational and online facilities, academic and non-academic counselling and health services.

3.3.2. There must be a designated administrative unit, with a distinct organisational structure in the HEP, responsible for planning and implementing student support services and adequately staffed by individuals who have the appropriate experience.

3.3.3. An effective induction/orientation to the programme and HEP support services must be made available to new students, with appropriate support given to international students, students with special needs, and students requiring help.

3.3.4. Academic, non-academic and career counselling must be provided by adequate and qualified staff.

3.3.5. There must be mechanisms that actively identify and assist students who require academic and non-academic supports.

3.3.6. The medical school must have clearly defined and documented processes and procedures in handling student disciplinary cases in academic and non-academic settings.

3.3.7. The medical school must:

- have an effective mechanism for students to voice their grievances and seek counselling and resolution on academic and non-academic matters.
- ensure confidentiality in relation to counselling and support.

3.3.8. Student support services must be evaluated regularly to ensure their adequacy, effectiveness and safety.

### **3.4. Student Representation and Participation**

3.4.1. There must be well-disseminated policies/ guidelines and processes for active student engagement, especially in areas that affect their interest and welfare.

3.4.2. There must be student representation and organisation at the institutional and medical school levels.

3.4.3. Students must be facilitated to develop linkages with external stakeholders and to participate in activities to gain managerial, entrepreneurial and leadership skills in preparation for medical practice.

3.4.4. Student activities and organisations must be facilitated to **expose students to the global sustainability agenda**, encourage character building, inculcate a sense of belonging and social responsibility, **become** a change advocate, and promote active citizenship.

### 3.5. Alumni

3.5.1. The HEP / medical school must foster active linkages with alumni to develop, review, and continuously improve the programme.

**AREA 4: ACADEMIC STAFF****4.1. Recruitment and Management**

- 4.1.1. The medical school must have a clearly defined plan for its academic workforce needs consistent with institutional policies and programme requirements:
- which outlines the type, responsibilities, and the balance of academic staff/faculty numbers between the basic biomedical sciences and the clinical sciences to ensure the effective delivery of the programme. There must be a balance between medical and non-medical academic staff, especially in the basic sciences.
  - that address criteria for scientific, educational and clinical merit, including the balance between teaching, research and service functions.
  - which specify and monitor the responsibilities of its academic staff/faculty of the basic biomedical sciences and the clinical sciences.
  - Local (Malaysian) faculty should be AT LEAST 50% of the total number of staff

*Annotation: Appropriate balance between medical and non-medical staff, with non-medical staff not exceeding 30%.*

- 4.1.2. The medical school must have a clear and documented academic staff selection and recruitment policy where the criteria for selection are based primarily on academic merit and/or relevant experience and bona fide qualification.

- 4.1.3. The staff-student ratio for the programme must be appropriate to the teaching-learning methods and relevant to the various curricular components.

*Annotation: For academic staff, the average teaching hours per staff member should not exceed 18 hours/week.*

*The appropriate teacher-student ratio for teaching-learning activities is illustrated in Appendix 8 of the Standards for Undergraduate Medical Education.*

- 4.1.4. The medical school must have adequate and qualified academic staff responsible for implementing the programme.

*Annotation: Adequate - In computing the ratio, the medical school must convert the part-time to full-time equivalents (FTEs) using the normal full-time workload. The part-time academic staff should not exceed 40%.*

*Refer to Appendix 9: Guideline to calculate FTE and Appendix 7: Number of lecturers per discipline of Standards for Undergraduate Medical Education.*

*Annotation: Qualified academic staff - The qualification must match the subject taught. A medical practitioner teaching in hospitals/clinics must have a valid annual practicing certificate issued by the Malaysian Medical Council. Refer to the Guideline for Requirement of Annual Practicing Certificate endorsed in the MMC meeting dated 23<sup>rd</sup> July 2024.*

- 4.1.5. The medical school must have a policy or document that reflects an equitable distribution of responsibilities and workload among the academic staff in terms of teaching, research, service, and management roles.
- 4.1.6. The recruitment policy or document for the medical programme must seek diversity among the academic staff in terms of qualification, experience and background.
- 4.1.7. The medical school must have a clear and transparent policy for the recognition of staff performance through promotion, salary increment, or other incentives. These procedures and criteria are based on merit and must be communicated to staff.
- 4.1.8. The medical school must have national and international linkages for exchange of ideas, experience and best practices to enhance teaching and learning in the programme.

## **4.2. Service and Development**

- 4.2.1. The medical school must have policies or documents addressing matters related to professional development of the academic staff which allow a balance of capacity between teaching, research, and service functions.
- 4.2.2. The medical school must provide opportunities for academic staff to focus on their respective areas of expertise.
- 4.2.3. The medical school must have clear policies on conflict of interest and professional conduct, including procedures for handling disciplinary cases among academic staff. For registered medical practitioners, the Malaysian Medical Council's Code of Professional Conduct shall apply accordingly.
- 4.2.4. The medical school must have mechanisms and processes for regular student evaluation of the academic staff for quality improvement.
- 4.2.5. The medical school must have a continuous professional development programme for its staff including new academic staff.

- 4.2.6. The medical school must provide opportunities for academic staff to participate in professional, academic, and other relevant activities, at national and international levels to obtain professional qualifications to enhance teaching-learning experience.
- 4.2.7. The medical school must encourage and facilitate its academic staff to play an active role in community engagement activities.

**AREA 5: EDUCATIONAL RESOURCES****5.1. Physical Facilities**

5.1.1. The medical school must have sufficient and appropriate physical facilities and educational resources to ensure that the curriculum can be delivered effectively. This shall include facilities for teaching and learning activities, as well as for practical and clinical training.

*\*Refer to Table 6.1, Table 6.2, Table 6.3, Appendix 7 and Appendix 8 for the maximum number of student intake.*

5.1.2. The physical facilities must comply with the relevant laws and regulations and ensure a teaching-learning environment that is safe for staff, students, patients, and their relatives.

5.1.3. The library or resource centre must have adequate and up-to-date reference materials and qualified staff that meet the needs of the programme and research amongst academic staff and students.

5.1.4. The educational resources, services, and facilities must be maintained and periodically reviewed to improve their quality and appropriateness.

5.1.5. The medical school must:

- have a clear policy or document on the ethical use of information and communication technology.
- ensure adequate access to web-based or other electronic media.

**5.2. Research and Development**

5.2.1. The medical school must have a research policy or document with adequate facilities and resources to sustain them.

5.2.2. The interaction between research and learning must be reflected in the curriculum, influence current teaching, and encourage and prepare students for engagement in research and scholarly activities.

5.2.3. The medical school must periodically review its research resources and facilities, take appropriate action to enhance its research capabilities and promote a conducive research environment.

**5.3. Financial Resources**

5.3.1. The HEP must demonstrate financial viability and sustainability for the programme.

5.3.2. HEP must have a clear line of responsibility and authority for budgeting and resource allocation that takes into account the specific needs of the Medical School.

5.3.3. The medical school must have clear procedures to ensure that its financial resources are sufficient and managed efficiently.

**5.4. Educational Expertise**

- 5.4.1. The medical school must:
- have access to educational expertise.
  - have a clear policy or document on the use of educational expertise in curriculum review, curriculum development and the development of methods in teaching-learning and assessment.
  - demonstrate evidence of the use of in-house or external educational expertise in faculty development initiatives.
  - have a designated person to oversee the medical education matters.

## AREA 6: PROGRAMME MANAGEMENT

<b>6.1.</b>	<b>Programme Management</b>
6.1.1.	The medical school must clarify its management <b>structure and function</b> , including its relationship within the HEP, and ensure the transparency of its governance.
6.1.2.	The medical school must provide accurate, relevant and timely information about the programme which is easily and publicly accessible, especially to prospective students.
6.1.3.	The medical school must have policies, procedures, and mechanisms for regular review and updating of its management structures, functions, strategies and core activities to ensure continuous quality improvement.
6.1.4.	The medical school must have an effective decision-making committee/board with an adequate degree of autonomy in implementing the curriculum.
6.1.5.	For programmes conducted in different campuses or with partner institutions, mechanisms must be established to ensure functional integration and comparability of the educational quality.  <i>*If applicable</i>
6.1.6.	The medical school must: <ul style="list-style-type: none"> <li>▪ have constructive interaction with the health and health-related sectors of society and government.</li> <li>▪ conduct internal and external consultations, market needs (for new programme), and graduate employability analysis</li> </ul>
<b>6.2.</b>	<b>Programme Leadership</b>
6.2.1.	The medical school/HEP must clearly state the process for the appointment and the responsibilities of the programme leader.
6.2.2.	The programme leader, must be a medical practitioner, qualified by education and experience to provide leadership in medical education, in scholarly activity and in research and development.  <i>Annotation: The programme leader is the chief official of the medical school, must have ready access to the Vice Chancellor, President, or other official in charge with final responsibility for the school, and to other university officials as are necessary to fulfil the duties of the programme leader. The programme leader usually holds the position of the Dean or Head of School.</i>

- 6.2.3. There must be mechanisms and processes for communication between the programme leader, medical school and HEP on matters such as staff recruitment and training, student admission, allocation of resources and decision-making processes.

### 6.3. Administrative Staff

- 6.3.1. The medical school must have a sufficient number of qualified staff\* to support the implementation of the programme and related activities and to ensure sound management and resource deployment.

*\*Staff: non-academic*

- 6.3.2. The HEP/ medical school must conduct regular performance reviews of the administrative staff of the programme.

- 6.3.3. The HEP/ medical school must have an appropriate training scheme for the advancement of the staff as well as to fulfil the specific needs of the programme.

### 6.4. Academic Records

- 6.4.1. The HEP/medical school must have appropriate policies and practices concerning the nature, content, and security of student, academic staff, and other academic records.

- 6.4.2. The HEP / medical school must maintain student records relating to their admission, performance, completion and graduation in such form as is practical and preserve these records for future reference.

- 6.4.3. The HEP must implement policies on the rights of individual privacy and the confidentiality of records and comply with the relevant laws of Malaysia.

- 6.4.4. The HEP/ medical school must continually review policies on the security and confidentiality of records, including the increased use of electronic technologies and safety systems.

## AREA 7: PROGRAMME MONITORING, REVIEW AND CONTINUAL QUALITY IMPROVEMENT

<b>7.1.</b>	<b>Mechanisms for Programme Monitoring, Review and Continual Quality Improvement</b>
7.1.1.	The HEP/medical school must have clear policies and appropriate mechanisms for regular programme monitoring and review.
7.1.2.	The medical school must have a Quality Assurance (QA) unit for internal quality assurance of the medical school to work hand-in-hand with the QA unit of the HEP.
7.1.3.	The medical school must: <ul style="list-style-type: none"> <li>▪ have a designated head responsible for continual review of the programme to ensure it remains current and relevant.</li> <li>▪ have procedures for regularly reviewing and updating the programme's process, structure, content, outcomes/competencies, assessment, and learning environment.</li> </ul>
7.1.4.	The medical school's review system must systematically seek, analyse, and respond to teacher, student, alumni, and other stakeholders' feedback in relation to the mission and intended educational outcomes, curriculum, and provision of resources.
7.1.5.	The medical school must communicate the programme review report to relevant stakeholders.
7.1.6.	The medical school must: <ul style="list-style-type: none"> <li>▪ Implement continual quality improvement based on analyses of various aspects of student performance, progression, attrition, graduation, and employment.</li> <li>▪ adapt the student admissions policy, selection methods and student intake to changing expectations and circumstances, institutional resources, and the requirements of the educational programme.</li> </ul>
7.1.7.	In collaborative arrangements, the partners involved must share the responsibilities of programme monitoring and review.
7.1.8.	The findings of a programme review must be presented to the HEP for its attention and further action.
7.1.9.	There must be an integral link between the medical school quality assurance processes and the achievement of the institutional purpose.

**SECTION 3  
DATA SUBMISSION  
FOR PROGRAMME  
ACCREDITATION  
(MQA 02-UG  
MEDICAL  
PROGRAMME)**

**SECTION 3****MQA-02 2020 (FULL ACCREDITATION) Medical Programme****PART B: PROGRAMME DESCRIPTION**

Part B of the MQA-02 (2017) requires the HEP to furnish information on the programme. The information required includes the name of the programme, the Malaysian Qualifications Framework (MQF) level, the graduating credits, the duration of study, entry requirement, mode of delivery and the awarding body.

1. Name of the Higher Education Provider (HEP):
2. Name of the programme (as in the scroll to be awarded):
3. MQF level:
4. Graduating credit: (as stated in the license)
5. Has this programme been accredited by MQA for other premises? If yes, please provide the following details:

No.	Name and Location of the Premises (main campus / branch campuses / regional centre)	Mode of Delivery	Accreditation Status	
			Provisional	Full
1.				
2.				
3.				

6. Type of award (e.g., single major, double major, etc.):
7. Field of study and National Education Code (NEC 2020):
8. Language of instruction:
9. Type of programme (e.g., own, collaboration, external, joint award/joint degree, etc.):
10. Mode of study (e.g., full-time/part-time):
11. Mode of offer (please (/) where appropriate):

Undergraduate Programme		Postgraduate Programme	
Coursework		Coursework	
Industry Mode (2u2i)		Mixed mode	
		Research	

12. Method of learning and teaching (e.g. lecture/tutorial/lab/field work/studio/blended learning/e-learning, etc.):

13. Mode of delivery (please (/) as appropriate):

Conventional (traditional, online and blended learning)	
Open and Distance learning (ODL)	

14. Duration of study:

	Full-time		Part-time	
	Long Semester	Short Semester	Long Semester	Short Semester
No. of Weeks				
No. of Semesters				
No. of Years				

Note: Number of weeks should include study and exam week.

15. Entry requirements:

16. Estimated date of first intake: month/year

17. Projected intake and enrolment: (applicable for provisional accreditation)

Year	Intake	Enrolment
Year 1	e.g.: 100	e.g.: 100
Year 2	e.g.: 100	e.g.: 200
Year 3	e.g.: 100	e.g.: 300
Total		

18. Total enrolment of student (applicable for full accreditation):

Year	Intake	Enrolment
Year 1	e.g.: 60	e.g.: 60
Year 2	e.g.: 70	e.g.: 130
Year 3	e.g.: 90	e.g.: 220
Year 4		
Year 5		
Total		

19. Estimated date of first graduation: month/year
20. Types of job/position for graduate:
21. Awarding body:
- Own
  - Others (Please name)  
(Please attach the relevant documents, where applicable)
    - i. Proof of collaboration between HEP and the collaborative partner such as copy of the Validation Report\* of the collaborative partner\*\* and the Memorandum of Agreement (MoA)
    - ii. Approval letter from the Higher Education Department (*Jabatan Pendidikan Tinggi*, JPT) of the Ministry of Higher Education for programmes in collaboration with Malaysian public universities
    - iii. Proof of approval and supporting letter to conduct the programme from certification bodies/awarding bodies/examination bodies
    - iv. A copy of the programme specification as conducted by the collaborative partner (eg. Handbook)
    - v. Proof of collaboration with Quality Partners\* for the programme, where applicable
    - vi. For programmes which require clinical training, please attach proof of approval from the relevant authority
    - vii. Any other document where necessary
22. A sample of scroll to be awarded should be attached.
23. Address(s) of the location where the programme is/to be conducted:
24. Contact person for the submission:
- i. Name and Title:
  - ii. Designation:
  - iii. Tel.:
  - iv. Fax:
  - v. Email:

Note:

\* Validation report is an evaluation by the collaborative partner on the readiness and capability of the institution to offer the programme.

\*\* Collaborative partner is the institution who owned the curriculum of the programme and conferred the award (franchisor), while the programme delivery is conducted by another institution (franchisee).

\*\*\* Quality partners are usually better-established universities which attest to the quality of a programme through the involvement or oversight of curriculum design, teaching and learning, or assessment.

**PART C: PROGRAMME STANDARDS**

Part C of the MQA-02 requires the HEP to furnish information on all the standards in the seven areas of evaluation for quality assurance on the programme to be accredited. The following pages provide a series of questions and statements that guide the HEP in furnishing such information.

In Area 1 (Programme Development and Delivery), there are 25 questions and statements related to the 17 standards.

In Area 2 (Assessment of Student Learning), there are 20 questions and statements related to the 11 standards.

In Area 3 (Student Selection and Support Services), there are 29 questions and statements related to the 20 standards.

In Area 4 (Academic Staff), there are 22 questions and statements related to the 15 standards.

In Area 5 (Educational Resources), there are 25 questions and statements related to the 12 standards.

In Area 6 (Programme Management), there are 23 questions and statements related to the 16 standards.

In Area 7 (Programme Monitoring, Review and Continual Quality Improvement), there are 12 questions and statements related to the 9 standards.

**HEPs are required to use Evaluation Instrument of Undergraduate Medical Programme (Excel) to conduct self-review for each Area which should include the following:**

- i. Strengths of the programme in meeting its goals;**
- ii. Steps taken in maintaining and enhancing the strengths/practices of the programme;**
- iii. Areas of concern that need to be addressed; and**
- iv. Steps taken to address the problem areas.**

**(Refer to Section 4.1 in COPPA for complete requirement of a Programme Self-Review).**

**INFORMATION ON AREA 1: PROGRAMME DEVELOPMENT AND DELIVERY****1.1 Statement of Educational Objectives of Academic Programme and Programme Learning Outcomes**

- 1.1.1 Explain how the programme is aligned with, and supportive of, the vision, mission and goals of the HEP.
- 1.1.2 Provide evidence of the market survey and explain how the school has considered market and societal demands (**NEW PROGRAMME ONLY**) for the programme. What are the unique features of this programme compared to the other existing medical programmes?
- 1.1.3 a) State the programme educational objectives, programme learning outcomes, teaching and learning strategies, and assessment of the programme.
- b) Map the programme learning outcomes against the programme educational objectives. (Provide information in Table 1).

**Table 1:** Matrix of Programme Learning Outcomes (PLO) against the Programme Educational Objective (PEO).

Programme Learning Outcomes (PLO)	Programme Educational Objectives (PEO)			
	PEO1	PEO2	PEO3	PEO4
PLO 1				
PLO 2				
PLO 3				
PLO 4				
PLO 5				

\*Add rows as necessary

- c) Describe the strategies for the attainment of PLOs in term of teaching and learning strategies, and assessment.
- 1.1.4 Map the programme learning outcomes to MQF level descriptors and the five cluster of MQF learning outcomes domains.

**Table 1.1: Matrix of Programme Learning Outcomes (PLO) against Malaysian Qualification learning domain (MQF).**

Programme Learning Outcomes (PLO)	Malaysian Qualification Framework (MQF) learning outcomes										
	1. Knowledge & understanding	2. Cognitive Skills	3. Functional Work Skills:						4. a) Personal Skills	4. b) Entrepreneurial Skills	5. Ethics & Professionalism
			a) Practical Skills	b) Interpersonal Skills	c) Communication Skills	d) Digital Skills	e) Numeracy Skills	f) Leadership, Autonomy & Responsibility			
PLO 1											
PLO 2											
PLO 3											
PLO 4											
PLO 5											

\*Add rows as necessary

- 1.1.5
- a) How are the programme learning outcomes related to students' preparedness for housemanship and future career options in medicine upon completion of the programme?
  - b) Do the learning outcomes relate to the existing and emergent needs of the healthcare industry and the community? How was this established?

## 1.2 Programme Development: Process, Content, Structure and Teaching-Learning Methods

- 1.2.1 Describe the provisions and practices that indicate the autonomy of the medical school in the design of the curriculum, and its utilisation of the allocated resources.
- 1.2.2 Describe the processes to develop and approve the curriculum by the highest academic authority of the HEP and the relevant regulatory bodies.
- 1.2.3 a) Who and how are the stakeholders consulted in the development of the curriculum?
- b) Explain the involvement of education experts in this curriculum development. Involvement of a medical educationist is highly recommended.
- 1.2.4 a) Describe how the curriculum fulfils the requirements the programme standards and best practices in the medical education.
- b) Provide the necessary information, where applicable, in Table 2:

**Table 2:** Components of the programme and its credit value

Minimum Graduating Credit: 200

	<b>Course Classification</b>		<b>Minimum Credit Value</b>	<b>HEP Credit Value</b>
1.	<i>Compulsory courses/modules*</i>		10	
2.	<b>Core Courses</b>	• <b>Basic Sciences</b>	60	
		• <b>Clinical training</b> • <b>Projects Dissertation</b>	110	
3.	<i>Optional/Elective courses**</i>		2	
4.	<i>Others (specify)</i>			

**Note:**

\* Compulsory courses/modules refers to *Mata Pelajaran Umum* (MPU) and other courses required by the HEP.

\*\* Optional/elective courses refer to courses where students can exercise choice. Elective course: 1 credit= 80 notional hours

- c) Provide a brief description for each course offered in the programme. Please arrange the courses by year and semester as in Table 3.

**Table 3:** Brief description of courses offered in the programme

No.	Semester/ Year Offered	Name and Code of Course	Classification (Compulsory / Elective)	Credit Value	Programme Learning Outcomes (PLO)					Prerequisite/ co-requisite	Name(s) of Academic Staff
					PLO1	PLO2	PLO3	PLO4	PLO5		
1.											
2.											
3.											
4.											
5.											
6.											
7.											
8.											
9.											
10											

- d) Provide information for each course, where applicable in Table 4.

**Table 4: Course information (a template in Excel format is provided separately for HEP to fill in. Please download the latest version from MQA website)**

**Please tick the Effective Learning Time in Item 10 of Table 4 for Clinical Elective posting (1 credit = 80 notional hours)**

1.	Name and Code of Course:
2.	Synopsis:
3.	Name(s) of academic staff:
4.	Semester and year offered:
5.	Credit value:
6.	Prerequisite/co-requisite (if any):
7.	Course learning outcomes (CLO): CLO 1 - .... CLO 2 - .... CLO 3 - .... CLO 4 - .... CLO 5 - ....

## 8. Mapping of the Course Learning Outcomes to the Programme Learning Outcomes, Teaching Methods and Assessment Methods:

Course Learning Outcomes (CLO)	Programme Learning Outcomes (PLO)									Teaching Methods	Assessment Methods
	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7	PLO8	PLO9		
CLO 1											
CLO 2											
CLO 3											
CLO 4											
CLO 5											
Mapping with MQF Cluster of Learning Outcomes											

Indicate the primary causal link between the CLO and PLO by ticking “✓” the appropriate box.

(This description must be read together with Standards 2.1.2, 2.2.1 and 2.2.2 in Area 2.)

## 9. Transferable Skills (if applicable):

(Skills learned in the course of study which can be useful and utilised in other settings.)

## 10. Distribution of Student Learning Time (SLT):

Course Content Outline and Subtopic	CLO*	Teaching and Learning Activities								Total SLT
		Face-to-Face (F2F)				NF2F Independent Learning (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
3										
4										
SUB-TOTAL SLT										
Continuous Assessment	%	F2F				NF2F Independent Learning for Assessment (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
SUB-TOTAL SLT										
Final Assessment	%	F2F				NF2F Independent Learning for Assessment (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
SUB-TOTAL SLT										
SLT for Assessment										
GRAND TOTAL SLT										
A	% SLT for F2F Physical Component									
B	% SLT for Online & Independent Learning Component									
C	% SLT for All Practical Component									
C1	% SLT for F2F Physical Practical Component									
C2	% SLT for F2F Online Practical Component									

Please ✓ if this course is using 50% of effective learning time (ELT) for example Clinical Elective Course.

L = Lecture, T = Tutorial, P = Practical, include Clinical learning, O = Others, F2F = Face to Face, NF2F = Non Face to Face

\*Indicate the CLO based on the CLO's numbering in Item 8.

11.	Identify special requirement or resources to deliver the course (e.g., software, nursery, computer lab, simulation room):
12.	References (include required and further readings, and should be the most current):
13.	Other additional information:

1.2.5 Explain the appropriateness of teaching and learning methods applied to achieve the programme educational objectives and programme learning outcomes of the programme. (This is to be read together with information in 1.1.3.)

1.2.6 What are the co-curricular activities available to the students of this programme? How do these activities enrich student learning experience, and foster personal development and responsibility?

### 1.3 Programme Delivery

1.3.1 Provide evidence on how the curriculum committee has responsibility and authority for planning, implementing and reviewing the curriculum with representation of relevant stakeholders.

1.3.2 Show evidence (including those available in the learning management system) that the students are provided with, and briefed on, the current information about the programme, for example, Student Study Guide, Student Handbook and Student Project Handbook.

1.3.3 a) Provide details of the leadership and the management structure of the programme, including members of the team responsible for the programme (example Dean, head of the departments, coordinators etc). State the manner in which the academic team manages the programme. What are their qualifications, authority and responsibility?

b) Does the programme team have access to adequate resources? Provide evidence.

1.3.4 Describe how the medical school ensure that their curriculum is designed based on recent advances in medical education and the availability of their educational resources.

1.3.5 Describe the medical school's initiatives to encourage innovations in teaching, learning and assessment.

1.3.6 State how the medical school obtains feedback and uses it to improve the delivery of the programme outcomes. Provide evidence.

**INFORMATION ON AREA 2: ASSESSMENT OF STUDENT LEARNING****2.1 Relationship between Assessment and Learning Outcomes**

- 2.1.1 Explain how assessment principles, methods and practices are aligned to the attainment of learning outcomes of the programme consistent with MQF level 6.

Add Table as below:

PLO	Teaching Learning Method	Assessment Method

- 2.1.2 Describe how the alignment between assessment and learning outcomes are regularly reviewed to ensure its effectiveness (please provide policy on the review, if any). Provide evidence of the review.

**2.2 Assessment Methods**

- 2.2.1
- a) Describe how a variety of assessment methods are valid to measure the learning outcomes and competencies.
  - b) Provide the assessment blueprint.
  - c) Describe the process of calculating PLO attainment (not applicable for first FA).
  - d) Describe the utilisation of both summative and formative assessment methods within the programme.
  - e) Describe what action has been taken by the medical school based on the external review of assessment practices. Provide evidence.

*(The information given for this standard must be consistent with that of 1.2.4 in Area 1.)*

- 2.2.2
- a) Explain how the medical school ensures the validity, reliability, integrity, currency and fairness of student assessment over time and across sites (if applicable).
  - b) Indicate the authority and processes for verification and moderation of summative assessments.
  - c) What guidelines and mechanisms are in place to address assessment misconduct among students (plagiarism, cheating etc)?

- d) Are the assessment methods reviewed periodically? Describe the review of the assessment methods in the programme conducted (e.g., the existence of a permanent review committee on assessment and consultation with external assessors and examiners, students, alumni and other relevant stakeholders).

- 2.2.3
  - a) Describe the student assessment methods in terms of its duration, diversity, weightage, progression criteria and coverage. Describe the grading system used. How are these documented and communicated to the students?
  - b) Explain how the department provides feedback to the students on their academic performance to ensure that they have sufficient time to undertake remedial measures.
  - c) How are results made available to the students for purposes of feedback on performance, review and corrective measures?
  - d) Describe the progression criteria.

- 2.2.4 Explain the processes in making changes to the assessment method. How are the changes made known to the students?

## **2.3 Management of Student Assessment**

- 2.3.1 Explain the roles, rights and autonomy of the medical school and the academic staff in the management of student assessment.
- 2.3.2 Describe the procedures used to guarantee the security and confidentiality of student assessment and academic records.
- 2.3.3 Explain how and when continuous and final assessments results are made available to students.
- 2.3.4 Provide information on the appeal procedure. What are the policy or guidelines on students' appeal against assessment results?
- 2.3.5 Explain how the medical school periodically reviews the management of student assessment and measures it take to address the issues highlighted by the review.

**INFORMATION ON AREA 3: STUDENT SELECTION AND SUPPORT SERVICES****3.1 Student Selection**

- 3.1.1 a) State the criteria and the mechanisms for student selection including that of transfer students and any other additional requirements.
- b) Provide evidence that the students selected fulfil the admission policies that are consistent with applicable requirements.
- c) Describe the admission mechanisms and criteria for students with other equivalent qualifications (where applicable). Provide entry criteria approved by regulatory bodies.
- 3.1.2 a) Explain how the selection criteria are accessible to the public.
- b) If other additional selection criteria are utilised, describe them.
- c) Show evidence that the admission policy and mechanisms are free from unfair discrimination and bias.
- 3.1.3 a) Provide information on student intake for each session since commencement and the ratio of the applicants to intake.
- b) Describe how the size of student intake is determined in relation to the capacity of the medical school and explain the mechanisms for adjustments, taking into account the admission of visiting, elective, exchange and transfer students.
- c) Provide evidence of relevant medical checkup for serious physical or mental illness; and/or serious communicable disease which may impact upon their future practice.
- 3.1.4 a) Describe how the selection of students align with the mission of the school, the educational programme and desired qualities of graduates.
- b) Describe the policies, mechanisms and practices for appeal on student selection, if applicable.

- 3.1.5 State the support provided for students in need, including incoming transfer students.

### **3.2 Articulation and Transfer**

- 3.2.1 Describe how the medical school facilitates student mobility, exchanges and transfers, nationally and/or internationally.
- 3.2.2 Describe how students accepted for transfer, demonstrate comparable achievements in their previous programme of study (Evidence can be in the form of mapping of learning outcomes and assessment of competencies of the transferring medical school).

### **3.3 Student Support Services**

- 3.3.1 Describe the support services that are available to students.
- 3.3.2 a) Describe the qualifications and experience, roles and responsibilities of staff in-charge of student support services.
- b) Describe the organisation and management of the student support services
- 3.3.3 Describe the induction process, focusing on orientation programmes for international students, student with special needs, and students requiring help.
- 3.3.4 a) Describe the provision of the academic, non-academic and career counselling services to students.
- b) How are the effectiveness of the academic, non-academic and career counselling services measured, and the progress of those who seek its services monitored? What plans are there to improve the services, including that of enhancing the skills and professionalism of the counsellors?
- 3.3.5 Describe the mechanisms that exist to identify and assist students who are in need of academic and non-academic support.
- 3.3.6 Describe the processes and procedures in handling student's disciplinary cases in academic and non-academic settings.
- 3.3.7 Describe available mechanism for students to complain, voice grievances, seek counselling and resolution on academic and non-academic matters in a confidential manner.
- 3.3.8 Describe the evaluation process of the student support services to ensure their

adequacy, effectiveness and safety.

### **3.4 Student Representation and Participation**

- 3.4.1 Describe the communication of policy/ guideline and processes in place for active student engagement in areas that affect their interest and welfare?
- 3.4.2 Explain and show evidence of student representation and organisation at the institutional and medical school levels.
- 3.4.3
  - a) Describe the medical school facilitation for students to develop linkages with external stakeholders?
  - b) Explain on how the medical school facilitate students to gain managerial, entrepreneurial and leadership skills in preparation for the workplace?
- 3.4.4 Explain on how the medical school facilitate student activities and organisations that encourage character building, inculcate a sense of belonging and social responsibility, as a change advocate and promote active citizenship?

### **3.5 Alumni**

- 3.5.1
  - a) Describe the linkages established by the HEP / Medical School with the alumni.
  - b) Describe the role of the alumni in development, review and continuous improvement of the programme. (To read together with Area 7 item 7.1.4).

**INFORMATION ON AREA 4: ACADEMIC STAFF****4.1 Recruitment and Management**

- 4.1.1 a) Describe how the medical school academic manpower planning is consistent with HEP's policies and programme requirements.
- b) Explain how the balance between the basic biomedical sciences, and the clinical sciences ensures appropriate balance between teaching, research and service functions.
- 4.1.2 a) State the policy, criteria, procedures, terms and conditions of service for the recruitment of academic staff.
- b) Explain the due diligence exercised by the medical school in ensuring that the qualifications of academic staff are from *bona fide* institutions.
- 4.1.3 Provide data on the staff–student ratio appropriate to the teaching-learning methods and consistent with the programme requirements.
- 4.1.4 a) Provide summary information on every academic staff involved in conducting the programme in Table 5.

**Table 5:** Summary information on academic staff involved in the programme

No.	Name and designation of academic staff	Appointment status (full-time, part-time, contract, etc.)	Nationality	Courses taught in this programme	Courses taught in other programmes	Academic qualifications		Research focus areas (Bachelor and above)	Past work experience		
						Qualifications, Field of Specialisation, Year of Award	Name of Awarding Institution and country		Positions held	Employer	Years of Service (Start and End)
1.											
2.											
3.											
4.											

- b) Provide Curriculum Vitae of each academic staff teaching in this programme containing the following:

- i. Name
  - ii. Academic Qualifications
  - iii. Full Registration number and APC
  - iv. Registration with National Specialist Registry: Yes / No (if yes, provide NSR No.)
  - v. Current Professional Membership
  - vi. Current Teaching and Administrative responsibilities
  - vii. Previous Employment
  - viii. Conferences and Training
  - ix. Research and Publications
  - x. Consultancy
  - xi. Community Service
  - xii. Other Relevant Information
- c) Provide information on turnover of academic staff for the programme (for Full Accreditation only).
- 4.1.5 Describe how the medical school ensures equitable distribution of duties and responsibilities among the academic staff.
- 4.1.6 Describe how the recruitment policy or document for the medical programme seeks diversity among the academic staff.
- 4.1.7 a) Explain the policies, procedures and criteria (including involvement in professional, academic and other relevant activities, at national and international levels) for appraisal, recognition, promotion, salary increment or other remuneration for academic staff.
- b) How are the above information made known to the academic staff?
- 4.1.8 Describe the nature and extent of the national and international linkages to enhance teaching and learning in the programme.

## 4.2 Service and Development

- 4.2.1 Provide information on the medical school policy on service (if applicable), staff development, teaching, research and appraisal of the academic staff.
- 4.2.2 How does the medical school ensure that the academic staff are given opportunities to focus on their respective areas of expertise such as curriculum development, curriculum delivery, academic supervision of students, research and writing, scholarly and consultancy activities, community engagement and academically-related administrative duties?
- 4.2.3 a) State the HEP policies on conflict of interest and professional conduct of

academic staff.

- b) State the HEP procedures for handling disciplinary cases including non-compliance to Code of Professional Conduct.

4.2.4 Describe the mechanisms and processes for periodic student evaluation of the academic staff. Indicate the frequency of this evaluation exercise. Show how this evaluation is taken into account for quality improvement.

4.2.5 a) State the policies or document for training, professional development and career advancement (e.g., study leave, sabbatical, advanced training, specialised courses, re-tooling, etc.) of the academic staff.

- b) Describe the mentoring system or formative guidance for new academic staff.

4.2.6 Describe the opportunities available to academic staff to obtain professional qualifications and to participate in professional, academic and other relevant activities at national and international levels. How does this participation enhance the teaching-learning experience?

4.2.7 Describe how the medical school encourages and facilitates academic staff in community and industry engagement activities. Describe how such activities are rewarded.

**INFORMATION ON AREA 5: EDUCATIONAL RESOURCES****5.1 Physical Facilities**

5.1.1 a) List the physical facilities required for the programme in Table 6. 1

**Table 6.1** : List of physical facilities required for the programme

No.	Facilities required	Provisional Accreditation						Full Accreditation	
		Available for Year 1		To be provided				No.	Capacity
				In Year 2		In Year 3			
		No.	Capacity	No.	Capacity	No.	Capacity		
1	Lecture Halls								
2	Tutorial / Discussion Rooms								
3	Laboratories								
	IT Space and WIFI								
	Clinical or Simulation laboratories								
	Research Laboratories								
4	Library and Information Centres or Learning Support Centres								
5	Student Social and recreational spaces								
6	Other Facilities								

- b) Describe and assess the adequacy of the physical facilities and equipment (e.g., clinical skill lab and laboratories) as well as human resources (e.g., laboratory professionals and technicians).
- c) Provide information on the clinical and practical facilities for programmes which require such facilities. State the location and provide agreements (Memorandum of Agreement) if facilities are provided by other parties.

- d) Provide information on the arrangement for clinical training if the hospitals are used by more than one medical schools. Describe detailed summary of the clinical facility in relation to student placement in Table 6.2 and Table 6.3.

**Table 6.2**

Name of clinical facility	A/O	CC	Total no. Of beds	Total number of students per year	No of other institutions currently using the same hospital

\*Please add rows as necessary

**O: Owned A: Affiliated CC: Clinical Clerkship**

Table 6.3

Disciplines	Year of study	Number of students posted at any one point in time	Name of clinical facility (Name of hospital, KK etc)	Number of beds allocated for teaching purposes	Duration of posting	Name of other institutions currently using the same facility (clinics, OT, wards etc)	Actual number of beds available to each institution using the same facility
Internal medicine							
Paediatrics							
General surgery							
Orthopaedic surgery							
Obstetrics & Gynaecology							
Rehabilitation medicine							
Psychiatry							
Critical care							
Emergency medicine							
ENT							
Ophthalmology							
Anesthesiology							
Radiology							
Forensic medicine							
Public health & community medicine							
Family medicine							
<b>Total No. of Beds Available</b>							
<b>No. of Students Enrolment Each Year</b>							

\*Please add rows as necessary

Annotation:

1. The number of students who can be enrolled will be based on the number of beds available for teaching purposes, at a ratio of 1 student to 5 beds. Hence for a faculty that admits 150 students in one year, the total number of beds available for teaching must be at least 750.
2. If there are 3 universities using the same facility that have 750 beds, then the student intake is 150 subdivided by 3, equals to 50 students per university.
3. If there are more than 1 university are using the same clinical facility, the number of beds is subdivided by the number of universities to ensure adequate hands-on, quality & skill of student as well as not to disrupt patient care services at hospital facilities which are already congested with patients, plus with too many students. Universities are encouraged to get other additional hospital facilities which are NOT being used /

not being heavily used by other universities. Proof of MoA / MoU or at least an official holding reply letter from relevant hospital facilities is to be provided.

- e) How are these physical facilities user friendly to those with special needs? Provide a copy of any technical standards that have been deployed for students with special needs.

5.1.2 Show that the physical facilities comply with the relevant laws and regulations including issues of licensing.

5.1.3 a) Explain the database system used in the library and resource centre.

- b) State the number of staff in the library and resource centre and their qualifications.

- c) Describe resource sharing and access mechanisms that are available to extend the library's capabilities. Comment on the extent of use of these facilities by academic staff and students. Comment on the adequacy of the library to support the programme.

- d) State the number of reference materials related to the programme in Table 7.

**Table 7:** Reference materials supporting the programme

Resources supporting the programme		Journals		State other facilities such as electronic reference material
Number of Titles	Number of Collections	Number of Titles	Number of Collections	
Books:	e.g: ClinicalKey Amboss, Lecturio		e.g: WoS, Scopus, MyCite etc	

5.1.4 a) Describe how the HEP maintains, reviews and improves the adequacy, currency and quality of its educational resources and the role of the medical

school in these processes.

- b) Provide the information on, and provision for, the maintenance of the physical and teaching-learning facilities.

**5.1.5** a) Describe the policy or document on ethical use of information and communication technology including social media.

- b) Provide information on the availability and accessibility of web-based or other electronic media to students and staff.

## **5.2 Research and Development**

*(Please note that the standards on Research and Development are largely directed to universities and university colleges)*

5.2.1 a) Describe the policies or documents, facilities and budget allocation available to support research.

- b) Describe the research activities of the Medical School and the academic staff involved in them.

5.2.2 a) Describe how the HEP encourages interaction between research and learning. Show the link between the HEP's policy on research and the teaching-learning activities in the Medical School.

- b) State any initiatives taken by the Medical School to engage students in research.

5.2.3 Describe the processes by which the Medical School review its research resources and facilities and the steps taken to enhance its research capabilities and environment.

## **5.3 Financial Resources**

5.3.1 Provide audited financial statements **or** certified supporting documents for the last three consecutive years. Explain the financial viability and sustainability based on the provided statements/documents.

5.3.2 a) Indicate the responsibilities and lines of authority in terms of budgeting and resource allocation in the HEP with respect to the specific needs of the medical

school.

- b) Describe the HEP's financial planning for the programme (strategic planning for the medical school)

5.3.3 Demonstrate that the medical school has clear procedures to ensure that its financial resources are sufficient and managed efficiently.

#### **5.4 Educational Expertise**

- 5.4.1
  - a) Describe the clear policy or document on the use of educational expertise in curriculum development and development of teaching-learning and assessment methods.
  - b) Provide evidence on the use of in-house or external educational expertise in staff development.

**INFORMATION ON AREA 6: PROGRAMME MANAGEMENT****6.1 Programme Management**

- 6.1.1 a) Describe the management structure and functions, and the main decision-making components of the Medical school as well as the relationships between them.
- b) How are these relationships made known to all parties involved?
- c) Indicate the major committees, TOR and frequency of meetings.
- 6.1.2 Describe the policies and procedures that ensure accurate, relevant and timely information about the programme which are easily and publicly accessible, especially to prospective students.
- 6.1.3 a) Describe the policies, procedures and mechanisms for regular review and updating of the department's structures, functions, strategies and core activities to ensure continuous quality improvement.
- b) Identify person(s) responsible for continuous quality improvement within the Medical school.
- c) Highlight any substantial improvements resulting from these policies, procedures and mechanisms.
- 6.1.4 Show evidence (such as terms of reference, minutes of meeting) that the academic board of the Medical School is an effective decision-making body with adequate autonomy in implementing the curriculum.
- 6.1.5 Describe the arrangements agreed upon by the HEP and its different campuses or partner institutions - to assure functional integration and comparability of educational quality.
- 6.1.6 a) Describe the interaction with the health and health related sectors of the society and government. Provide evidence of interaction e.g. minutes of meetings.
- b) Show evidence of internal and external consultations.
- c) For a new programme, show evidence of market needs.

## 6.2 Program Leadership

- 6.2.1 Explain the process for the appointment and job description of the programme leader.
- 6.2.2 Indicate the programme leader of this programme. Describe the qualifications, experiences, tenure and responsibilities of the programme leader.
- 6.2.3 Describe the relationship between the programme leader, medical school and HEP on matters such as staff recruitment and training, student admission, allocation of resources and decision-making processes.

## 6.3 Administrative Staff

- 6.3.1 a) Describe the structure of the staff which supports the programme.
- b) Describe the recruitment processes and procedures.
- c) State (in Table 8) the numbers that are available, job category and minimum qualification for administrative staff of the programme.

**Table 8:** Administrative staff for the programme

No.	Job Category	Minimum qualification	Current number

- 6.3.2 State the mechanisms and procedures for monitoring and appraising the performance of the staff of the programme.
- 6.3.3 Describe the training scheme for the advancement of the staff and show how this scheme fulfils the current and future needs of the programme.

## 6.4 Academic Records

- 6.4.1 a) State the policies and practices on the nature, content and security of student, academic staff and other academic records at the medical school level and show that these policies and practices are in line with those of the HEP.
- 6.4.1 b) Explain the policies and practices on retention, preservation and disposal of student, academic staff and other academic records.
- 6.4.2 Explain how the HEP / medical school maintains student records relating to their admission, performance, completion and graduation.
- 6.4.3 Describe how the HEP ensures the rights of individual privacy and the confidentiality of records.
- 6.4.4 Describe the HEP / medical school's review policies on security of records and safety systems and its plans for improvements.

## INFORMATION ON AREA 7: PROGRAMME MONITORING, REVIEW AND CONTINUAL QUALITY IMPROVEMENT

### 7.1 Mechanisms for Programme Monitoring, Review and Continual Quality Improvement

- 7.1.1 Describe the policies and mechanisms for regular monitoring and review of the programme.
- 7.1.2 Describe the roles and the responsibilities of the Quality Assurance unit responsible for internal quality assurance of the medical school.
- 7.1.3
  - a) Describe the structure and the procedures of the internal programme monitoring and review committee.
  - b) Describe the frequency and mechanisms for monitoring and reviewing the programme.
  - c) Describe how the medical school utilises the feedback from a programme monitoring and review exercise to further improve the programme.
  - d) Explain how the monitoring and review processes help ensure that the programme keeps abreast with scientific, technological and knowledge development of the discipline, and with the needs of society.
- 7.1.4 Which stakeholders are involved in a programme review? Describe their involvement and show how their views are taken into consideration.
- 7.1.5 Explain how the medical school informs the stakeholders the result of a programme assessment and how their feedbacks on the report are taken into consideration for the future development of the programme.
- 7.1.6 Explain how student performance, progression, attrition, graduation and employment are analysed for the purpose of continual quality improvement?
- 7.1.7 Describe the responsibilities of the partners involved in collaborative arrangements in programme monitoring and review (to append relevant Memorandum of Agreement).
- 7.1.8 Describe how the findings of the review are presented to the HEP and its further action.
- 7.1.9 Explain the integral link between the medical school quality assurance processes and the achievement of the institutional purpose.

**SECTION 4**  
**CORE**  
**COMPETENCIES**

## **SECTION 4: Core Competencies**

[Approved by Council on 19<sup>th</sup> August 2025 and 25<sup>th</sup> November 2025]

### **TABLE OF CONTENTS:**

<b>No</b>	<b>Discipline</b>	<b>Page</b>
1.	Internal Medicine	53
2.	Paediatrics	65
3.	Psychiatry	79
4.	Public Health	83
5.	Primary Care	90
6.	Radiology	96
7.	Anaesthesiology	99
8.	Emergency Medicine	102
9.	Principle of Surgical Practices	113
10.	General Surgery	116
11.	Obstetrics and Gynaecology	126
12.	Orthopaedic/Traumatology	135
13.	ENT	143
14.	Ophthalmology	148
15.	Forensic Medicine	153
16.	Medical Ethics & Law	158
17.	Professionalism	162
18.	Interpersonal and Communication Skills	167

**DISCIPLINE: INTERNAL MEDICINE****Clinical Problems and Diseases: Level Descriptors**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the condition based on literature at the level of overview
2	Able to make provisional diagnosis based on Physical examination and basic investigations. Refer to the relevant specialist
3	Able to make provisional diagnosis based on Physical examination and basic investigations. Initiate initial treatment Refer to the relevant specialist
4	Able to make diagnosis based on Physical examination and basic investigations. Manage and solve the problem

**1. List of Problems/Presentation**

System: Respiratory

<b>No</b>	<b>Problem (Respiratory)</b>	<b>Level</b>
1	Haemoptysis	3
2	Cough	3
3	Stridor	3
4	Breathlessness	3

System: Gastroenterology

<b>No</b>	<b>Problem (Gastroenterology)</b>	<b>Level</b>
1	Anorexia	2
2	Vomiting	3

3	Diarrhoea	3
4	Dysphagia	3
5	Constipation	3
6	Abdominal pain	3
7	Abdominal distension	3
8	Hematemesis	3
9	Melaena	3
10	Weight loss	3
11	Jaundice	3

## System: Rheumatology

No	Problem (Rheumatology)	Level
1	Joint complaint (pain, swelling and stiffness)	3
2	Muscle pain	2

## System: Neurology

No	Problem (Neurology)	Level
1	Headache	3
2	Vertigo	2
3	Weakness	2
4	Loss of sensation	2
5	Incoordination	2
6	Speech disorders	2
7	Seizures	3
8	Acute confusion	3
9	Syncope/Loss of consciousness	3
10	Cognitive impairment	2

## System: Skin

No	Problem (Skin)	Level
1	Blisters	2
2	Skin redness	2
3	Lump	2
4	Dry skin	3
5	Keloid	2
6	Hair loss	2
7	Oral ulcers	2

## System: Immunology/Haematology

No	Problem (Haematology)	Level
1	Spontaneous bleeding	3
2	Pallor	3

## System: Cardiology

No	Problem (Cardiology)	Level
1	Chest pain	3
2	Breathlessness	3
3	Palpitation	3

## System: Endocrine

No	Problem (Endocrine)	Level
1	Polyuria, polydipsia, increased urinary frequency	3
2	Neck swelling	3

## System: Nephrology

No	Problem (Nephrology)	Level
1	Frothy urine	2

2	Reduced urine volume	3
3	Haematuria	3
4	Dysuria	3

System: Infectious Disease

No	Diagnosis	Level
1	Fever	3
2	Needlestick Injuries	3

System: Palliative Care

No	Diagnosis	Level
1	Pain Management	3
2	End of Life Care	2
3	Palliative Care Needs Assessment	1

System: Geriatrics

No	Diagnosis	Level
1	Falls	2

## 2. List of Diagnosis

System: Infectious Disease

No	Diagnosis	Level
1	Dengue Fever	3
2	Leptospirosis	3
3	Malaria	3
4	Influenza/Influenza Like Illness	3
5	Melioidosis	2
6	HIV Infection	2

7	Sexually Transmitted Disease	2
8	Typhus	2
9	Typhoid	2
10	Covid 19	2
11	Sepsis and rational use of antibiotics	3

## System: Emergency Medicine

No	Diagnosis	Level
1	Hypotension/Shock	3
2	Hypertensive Emergency/Urgency	3

## System: Respiratory

No	Diagnosis	Level
1	Bronchial Asthma	3
2	Bronchiectasis	2
3	Lung Carcinoma	2
4	Pneumonia	3
5	Pulmonary Tuberculosis	3
6	Pneumothorax	3
7	Pleural Effusion	3
8	COPD (including Acute Exacerbation)	3
9	Pulmonary Embolism	3
10	Obstructive Sleep Apnoea	2
11	CXR interpretation	3
12	ABG interpretation	3

## System: Gastroenterology

No	Diagnosis (Gastroenterology)	Level
1	Acute gastroenteritis	3

2	Food poisoning	3
3	Irritable bowel syndrome	2
4	Inflammatory Bowel disease	2
5	Gastrointestinal bleeding	3
6	Peptic ulcer disease	3
7	Acute hepatitis	3
8	Chronic Liver Disease	3
9	Hepatitis B	2
10	Hepatitis C	2
11	Acute Pancreatitis	2
12	Liver abscess	2
13	Food Allergy/Intolerance	2

## System: Rheumatology

No	Diagnosis	Level
1	Osteoarthritis	3
2	Rheumatoid arthritis	2
3	Gout	3
4	Spondyloarthropathy	2
5	Septic arthritis	2
6	Systemic lupus erythematosus	2

## System: Neurology

No	Diagnosis	Level
1	Stroke	3
2	Transient Ischemic attack	3
3	Epilepsy	3
4	Migraine headache	3
5	Alzheimer's disease	2

6	Parkinson's disease	2
7	Guillain-Barre syndrome	2
8	Myasthenia gravis	2
9	Meningitis	3
10	Encephalitis	3
11	Bell's palsy	3

## System: Skin

No	Diagnosis	Level
1	Herpes zoster	3
2	Herpes simplex	3
3	Impetigo	3
4	Superficial Folliculitis	3
5	Scabies	3
6	Contact/Atopic Dermatitis	3
7	Psoriasis vulgaris	2
8	Acne vulgaris	2
9	Toxic Epidermal Necrolysis	2
10	Stevens-Johnson syndrome	2
11	Acute Urticaria	3
12	Skin Malignancy	2

## System: Immunology/Haematology

No	Diagnosis	Level
1	Iron Deficiency Anaemia	3
2	Haemolytic Anaemia	3
3	Hemoglobinopathy	2
4	ITP	2
5	DIC	2

6	Blood Group Incompatibility	3
7	Lymphoma	2
8	Leukaemia	2
9	Multiple Myeloma	2
10	Anaphylactic Reaction	4

## System: Cardiology

No	Diagnosis	Level
1	Acute coronary syndrome	3
2	Heart failure	3
3	Hypertension	3
4	Arrhythmias	3
5	Infective endocarditis	2
6	Valvular heart disease	2
7	Cardiogenic shock	3
8	Pulmonary oedema	3
9	ECG interpretation	3

## System: Nephrology

No	Diagnosis	Level
1	Acute kidney injury	3
2	Chronic kidney disease	3
3	Urinary tract infection	4
4	Nephrotic syndrome	2
5	Glomerulonephritis	2
6	ESRF/RRT	2
7	Catheter-related blood stream infection	2

## System: Endocrinology and Metabolism

No	Diagnosis	Level
1	Diabetes mellitus	3
2	Diabetic ketoacidosis	3
3	Hyperosmolar hyperglycemic state	3
4	Hypoglycemia	3
5	Thyrotoxicosis	3
6	Hypothyroidism	3
7	Thyroid crisis	3
8	Obesity	3
9	Dyslipidemia	3
10	Fluid and electrolytes disorders	3

## System: Geriatrics

No	Diagnosis	Level
1	Fall	3

**3. Clinical skills**

1. Physical examination: general and organ specific
2. Investigations
3. Procedures: diagnostics, therapeutics

**Clinical Skills Levels Descriptors:**

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision

4	Able to relate the theory and principles and indications of the specific task  Able to perform the task
---	---

## Physical examination: General

No	Physical examination: General	Level
1	General appearance	4
2	Glasgow coma scale	4
3	Mental state examination	4
4	Vital sign	4
5	Capillary blood glucose monitoring	4
6	Peak flow monitoring	4
7	Skills for inhaler technique	4
8	Pallor	4
9	Jaundice	4
10	Skin rashes	3
11	Oral cavity	3
12	Muscle wasting	4
13	Tremors	4
14	Neck Inspection and palpation (e.g. Submandibular, parotid glands, Lymph node, Thyroid)	4
15	Neck stiffness	4
16	Nail inspection (e.g. Clubbing, Leukonychia)	4
17	Gynecomastia	4
18	Hair loss	4

## Physical examination: Organ specific

No	Physical examination: Organ specific	Level
1	Respiratory system examination (e.g. Chest	4

	inspection, Chest palpation, Chest percussion, Chest auscultation)	
2	Abdominal examination (e.g. Liver, Spleen, Kidneys, Ascites)	4
3	PR examination	4
4	Peripheral joint examination	4
5	Spine examination	4
6	Neurology examination (e.g. Gait, Cranial nerves, Motor system, Cerebellar system, Sensory system, Speech and language)	4
7	Skin examination (e.g. Skin inspection, Membrane mucosa inspection, Perianal area inspection, Nail inspection, Hair and Scalp inspection, Skin palpation)	4
8	Wound inspection	4
9	Describe skin lesion (primary/secondary changes, size, distribution, spread and configuration)	4
10	Cardiovascular examination (e.g. Heart sound, assessment of JVP)	4
11	Thyroid examination (e.g. Signs of hyperthyroidism and hypothyroidism)	4

#### Investigations and Procedures

No	Investigations	Level
1	Blood culture	4
2	ECG – perform	4
No	Procedures	Level
1	Venepuncture	4
2	Inserting an IV cannula	4
3	Insertion of urinary catheter (male and female)	3
4	Insertion of Ryles tube	3
5	Cardiopulmonary Resuscitation (bag mask, chest compression, intubation, defibrillation)	4
6	Long line insertion	2
7	Central line insertion (jugular or subclavian and femoral)	2
8	Echocardiogram	2

9	Dialysis catheter insertion	2
10	Lumbar puncture	2
11	Joint aspiration	2
12	Joint injection	2
13	Abdominal paracentesis	2
14	Thoracocentesis	2
15	Chest tube insertion	2
16	Perform ABG	3
17	Blood smears (thick and thin film)	2

**DISCIPLINE: PAEDIATRICS****Clinical Problems and Diseases: Level Descriptors**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the condition based on literature at the level of overview
2	Able to make provisional diagnosis based on history taking, physical examination and basic investigations. Refer to the relevant specialist
3	Able to make provisional diagnosis based on history taking, physical examination and basic investigations. Initiate initial treatment, identify priorities in treatment Refer to the relevant specialist
4	Able to make diagnosis based on history taking, physical examination and basic investigations. Manage and solve the problem

**1. List of Problems**

General:

<b>No</b>	<b>Problem</b>	<b>Level</b>
1	Normal growth and development in children	2
2	Secondary sexual characteristics	2
3	Breastfeeding	2
4	Childhood immunization	2
5	Fever	3
6	Weight loss and failure thrive	2
7	Poor feeding	2
8	Rash	3
9	Features of child abuse and neglect	2

10	Common poisoning and bites	2
11	Unexplained infant/cot death	2
12	Pyrexia of unknown origin	2
13	Emergencies	
	- obstructed airway	3
	- laboured breathing	3
	- a child with shock	3
	- near-drowning	1
	- status epilepticus	3
	- unconcious child	3

## System: Respiratory

No	Problem	Level
1	Cough- acute	2
2	Cough- chronic	2
3	Breathlessness	3
4	Stridor	3
5	Wheeze	3
6	Sore throat	2
7	Hoarseness of voice	2
8	Chest tightness	2
9	Rhinorrhoea	2
10	Ear ache/discharge	2

## System: Cardiovascular

No	Problem	Level
1	Cyanosis	3
2	Breathlessness	3
3	Feeding difficulties	2
4	Oedema	2
5	Failure to thrive	2

6	A child with fever, rash and joint pain	2
7	Palpitation	2
8	Syncopal attack	2
9	Hypertension	2

## System: Gastrointestinal

No	Problem	Level
1	Vomiting and regurgitation	2
2	Diarrhoea	3
3	Abdominal distension	2
4	Abdominal pain	2
5	Melaena and per rectal bleed	2
6	Haematemesis	2
7	Constipation	2
8	Jaundice	2
9	Difficulty swallowing	2

## System: Genitourinary

No	Problem	Level
1	Dysuria	2
2	Haematuria/discoloured urine	2
3	Oliguria	2
4	Oedema	2
5	Enuresis	2
6	Poor urinary stream	2

## System: Haematological and Oncological

No	Problem	Level
1	Pallor	2

2	Bruise and petechiae	2
3	Mucosal bleed	2
4	Joint bleed	2
5	Jaundice	2
6	Abdominal distension	2
7	Lymphadenopathy	2

## System: Neurological

No	Problem	Level
1	Seizure	3
2	Altered consciousness/behaviour and blank stare	2
3	Weakness of the limbs	2
4	Headache	2
5	Vomiting	2
6	Visual disturbance/Squint	2

## System: Developmental issues

No	Problem	Level
1	Developmental delay	2
2	Learning disabilities	2
3	Specific speech delay	2
4	Behavioural issues including temper tantrum, sleep problems	2
5	Attention deficit and hyperactivity	2

## System: Endocrine, metabolic and nutrition

No	Problem	Level
1	Polyuria	2
2	Polydipsia	2

3	Short stature	2
4	Failure to thrive/poor growth	2
5	Overweight and obesity	2

## System: Neonatology

No	Problem	Level
1	Respiratory distress	2
2	Neonatal jaundice	3
3	Prolonged neonatal jaundice	2
4	Neonatal seizures	2
5	Infant of diabetic mother	2
6	Prematurity and low birth weight	2

## System: Genetics/metabolic

No	Problem	Level
1	A child with dysmorphic features	2

## System: Infection, Immunology/autoimmune disease/immune-mediated disease, musculoskeletal and rheumatology

No	Problem	Level
1	A child with joint pain	2
2	A child with fever and rash	2
3	Failure to thrive and recurrent infections (thrush and abscesses)	2

## System: Dermatology

No	Problem	Level
1	Common rash manifestations: bullous, maculopapular, urticarial, petechial	2
2	Birth mark	2

3	Neurocutaneous stigmata	2
4	Cutaneous vascular manifestation	2

## **2. List of Diagnosis**

### General

No	Diagnosis	Level
1	Non-accidental injury	2
2	Shock	3
3	Dehydration	
	A: Hyponatraemic dehydration	2
	B: Hypernatraemic dehydration	2
	C: Normonatremic dehydration	3
4	Drug poisoning	2
5	Animal and insect bites	2
6	SIDS	2

### System: Respiratory

No	Diagnosis	Level
1	Acute tonsillitis	2
2	Laryngotracheobronchitis	3
3	Acute epiglottitis	3
4	Acute bronchiolitis	3
5	Chronic stridor (including laryngomalacia)	2
6	Recurrent viral-induced/multi-trigger wheeze	2
7	Bronchial asthma	3
8	Pneumonia	3
9	Tuberculosis	2

10	Foreign body inhalation	2
11	Pertussis	2
12	Otitis media	2

## System: Cardiovascular

No	Diagnosis	Level
1	Congenital cyanotic heart diseases	2
2	Congenital acyanotic heart disease	2
3	Rheumatic heart disease	2
4	Bacterial endocarditis	2
5	Heart failure	2
6	Hypertension	2

## System: Gastrointestinal

No	Diagnosis	Level
1	Acute gastroenteritis	3
2	Dysentery	2
3	Acute abdomen and structural GI disorders, e.g. Hirschsprung's, duodenal atresia, pyloric stenosis (Paediatric Surgery)	2
4	Functional GI disorders (constipation)	2
5	Gastroesophageal reflux	2
6	Infantile colic	2

## System: Genitourinary

No	Diagnosis	Level
1	Urinary tract infection	2
2	Nephrotic syndrome	2
3	Nephritic syndrome	2
4	Enuresis	2

## System: Haematological and Oncological

No	Diagnosis	Level
1	Anaemia:	
	A: Iron deficiency anaemia	3
	B: Acute haemolytic anaemia	2
	C: Chronic haemolytic anaemia and haemoglobinopathy	2
2	Haemophilia	2
3	Immune thrombocytopaenic purpura	2
4	Leukaemia and lymphoma	2
5	G6PD deficiency	2

## System: Neurological

No	Diagnosis	Level
1	Afebrile seizures	2
2	Febrile seizures	2
3	Meningitis and encephalitis	2
4	Acute flaccid paralysis including Guillain-Barré	2
5	Cerebral palsy	2
6	Hydrocephalus	2
7	Spina Bifida	2

## System: Developmental issues

No	Diagnosis	Level
1	Autistic spectrum disorder	2
2	Attention deficit hyperactivity disorder	2
3	General and Specific Developmental Delay	2

## System: Endocrine, metabolic and nutrition

No	Diagnosis	Level
1	Diabetes mellitus	2
2	Hypothyroidism	2
3	Short stature	2
4	Overweight and obesity	2
5	Failure to thrive	2
6	Protein-energy malnutrition (Kwashiorkor, Marasmus)	2

## System: Neonatology

No	Diagnosis	Level
1	Respiratory distress syndrome	2
2	Meconium aspiration syndrome	2
3	Neonatal jaundice	3
4	Prolonged jaundice	2
5	Neonatal sepsis	2
6	Neonatal encephalopathies	2
7	Infant of diabetic mother	2
8	Prematurity and low birth weight	2
9	Neonatal seizures	2
10	Birth injuries	2
11	Neonatal skin conditions	2

## System: Genetics/metabolic

No	Diagnosis	Level
1	Down syndrome	2
2	Turner syndrome	2
3	Edward and Patau Syndrome	1

4	Inborn errors of metabolism	1
---	-----------------------------	---

System: Immunology/allergy/autoimmune disease or immune-mediated diseases

No	Diagnosis	Level
1	Kawasaki disease	2
2	Henoch-Schönlein Purpura	2
3	Anaphylaxis and hypersensitivity reaction	3
4	Cow's milk protein allergy (CMPA)	2
5	Juvenile idiopathic arthritis (JIA)	2
6	Systemic lupus erythematosus (SLE)	2
7	Primary immunodeficiencies	1

System: Infection

No	Diagnosis	Level
1	Vaccine-preventable diseases: measles, mumps, rubella, diphtheria, pertussis, hepatitis, H. influenza diseases	2
2	Scarlet fever	2
3	Meningococcaemia	2
4	Human Immunodeficiency Virus (HIV)	1
5	Intrauterine infections	2
6	Varicella zoster	3
7	Dengue	3
8	Typhoid	2
9	Helminthic infestation	2
10	Malaria	2
11	Leptospirosis	2
12	Hand foot mouth disease	3
13	COVID-19 & MISC	2

System: Dermatology

No	Diagnosis	Level
1	Impetigo	2
2	Scabies	2
3	Eczema	2
4	Seborrheic dermatitis	2
5	Haemangiomas	2
6	Urticaria	2
7	Nappy rash	2
8	Neurocutaneous disorders	2

### 3. Clinical skills

1. History and Physical examination
2. Investigations
3. Procedures- diagnostics, therapeutics.

#### Clinical Skills Levels Descriptors:

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision
4	Able to relate the theory and principles and indications of the specific task Able to perform the task

Physical examination: General

No	Physical examination	Level
	<b>General</b>	

1	General appearance	4
2	Anthropometric measurement and centile chart	4
3	Vital signs	
	A: Pulse examination (rate, rhythm, volume)	4
	B: Blood pressure	4
	C: Respiratory rate	4
	D: SpO <sub>2</sub>	4
4	Nutritional assessment	3
5	Hydration status assessment	4
6	General inspection for anaemia and jaundice	4
7	General inspection for cyanosis (peripheral and central)	4
8	Inspection of the nails: clubbing, leukonychia	4
9	Able to describe common dysmorphic features	3
10	Skin features: rash, bruises, marks	4
11	Examination of the ear, nose and throat	4
12	Examination of the neck: cervical lymph node and other masses	4
13	Examination of the spine and back: webbed neck, spina bifida, neurocutaneous stigmata	3

## Physical examination: Organ system

No	Physical examination	Level
1	Complete cardiovascular system examination *	4
2	Complete respiratory system examination *	4
3	Complete gastrointestinal examination *	4
4	Central nervous system examination (higher mental function, cranial nerves, upper and lower limb examination)	4
5	Musculoskeletal system examination	4

6	Developmental assessment	4
7	New-born screening	4

\* Follows the standard systemic examination which includes inspection, palpation, percussion and auscultation, whenever appropriate

#### Procedures: General

No	Procedures General	Level
1	Measurements of weight, height and head circumference	4
2	Preparation and administration of oral rehydration solution	4
3	Application of pulse oximeter	4
4	Peak flow measurement	4
5	Delivery of bronchodilator devices	4
6	Administering oxygen using different delivery devices	3
7	Venepuncture (children)	2
8	Intravenous cannulation (children)	2
9	Venepuncture (neonates)	2
10	Intravenous cannulation (neonates)	2
11	Nasogastric tube insertion	2
12	Heel prick	2
13	ECG – record and interpretation	3
14	Resuscitation of children	2
15	Blood culture	2
16	Lumbar puncture	2
17	Bladder catheterization	2
18	Suprapubic aspiration and catheterization	1
19	Neonatal resuscitation	2

20	Intraosseous line insertion	1
21	Umbilical venous catheterisation	1
22	Exchange transfusion	1
23	Arterial blood sampling	1
24	Chest tube insertion	1

No	Investigations (includes interpretation)	Level
1	FBC	3
2	FBP	3
3	RP	3
4	LFT	3
5	Blood gas (ABG/VBG)	3
6	UFEME	3
7	CSF analysis	3

**DISCIPLINE: PSYCHIATRY****Clinical problems and diseases level descriptors**

1	Aware of the condition based on literature at level of overview, and refer to the relevant specialist when necessary
2	Able to make provisional diagnosis based on history taking, mental state examination, physical examination and basic investigations. Refer to the relevant specialist.
3	Able to make provisional diagnosis based on history taking, mental state examination, physical examination and basic investigations. Initiate treatment, and refer to relevant psychiatrist
4	Able to make provisional diagnosis based on history taking, mental state examination, physical examinations and basic investigations. Manage and solve the problem.

**1. List of Problems/ Presentation**

General:

No	Problem	Level
1	Changes in mood (including depression and elation)	3
2	Anxiety	3
3	Stress (including acute and chronic)	3
4	Psychosis	3
5	Cognitive impairment	2
6	Changes in appetite	3
7	Sleep disturbances	3
8	Aggression	3
9	Suicidal risk	3
10	Self-harm	3
11	Learning disability and developmental delay	2
12	Behavioural problems in children	2

13	Impairment in psychosocial function (eg: low work performance, absenteeism etc)	2
14	Sociological issues in psychiatry (ethics, law and human's rights, life events, stigma, spirituality)	2
15	Sexual dysfunction	2
16	Gender dysphoria	1

## 2. List of Diagnosis and theoretical knowledge

No	Diagnosis	Level
1	Simple classification of psychiatric disorders (DSM and ICD)	3
2	Anxiety disorders	3
3	Mood disorders	3
4	Psychosis and specifically schizophrenia	3
5	Substance related disorders especially alcohol and drugs (acute and chronic effects)	3
6	Neurocognitive disorders (dementia)	2
7	Acute reactions to stress and PTSD	2
8	Eating disorders	2
9	Disorders of personality	2
10	Psychiatric condition due to general medical condition (including delirium)	3
11	Deliberate self-harm	3
12	Major disorders in childhood and differences in assessment	2
13	Differences in presentation in older people	2
14	Problems of those with learning disability	2
15	Psychosomatic disorders and comorbidity (mental with physical illnesses)	2
16	Obsessive compulsive disorder and related disorder	2

17	Dissociative disorder	1
18	Psychiatric emergencies (eg: Neuroleptic Malignant Syndrome, Serotonin Syndrome, Delirium Tremens, acute dystonia, Lithium toxicity, serious side effect of clozapine)	3
19	Promoting recovery in persons with mental illness	2

### 3. List of Clinical skills

#### Clinical Skills level descriptors

	Clinical skills
1	Able to describe task
2	Able to apply principles or theory of specific task. May have seen task being performed
3	Have experience performing task or perform under supervision
4	Able to relate theory and principles and indications of specific task. Able to perform task.

No	Skills	Level
1	History taking	
	a. Interview techniques	4
	b. Case formulation (making diagnosis and problem list)	4
2	Mental state examination	4
3	Physical examination	4
4	Differentiate between mental disorder and normal psychological responds to life stressors	4
5	Summarize and present a psychiatric case	4
6	Investigations (biological & psychosocial)	4
7	Basic management	
	a. Pharmacological	3

	b. Psychological	3
	c. Social	2
8	Procedures	
	a. ECT	1
	b. Psychoeducation	3
	c. Supportive psychotherapy	3
	d. Counselling	3
	e. De-escalation & restraining	2
	f. Suicidal risk assessment and initial management	3
	g. Dealing with persons with psychological distress	3
	h. Mental health promotion	2

**DISCIPLINE: PUBLIC HEALTH****Level of Descriptors of Public Health**

<b>Level</b>	<b>Descriptor</b>
1	Have a basic knowledge and able to describe programmes / activities
2	Able to do situational analysis based on available information / data.
3	Able to do situational analysis based on available information / data.  Propose recommendations.
4	Able to do situational analysis based on available information / data.  Manage and solve the public health problem.  Dissemination of information.

**List of Topics under Public Health**

<b>No</b>	<b>Topics</b>
1.	Epidemiology
2.	Medical Statistics
3.	Maternal and Child Health
4.	Occupational Safety and Health
5.	Environmental Health and Sanitation
6.	Nutrition
7.	Health Promotion
8.	Health Management
9.	International Health
10.	Public Health Policy and Legislation

11.	Health Information Management
12.	Healthcare of the Elderly and Special Needs
13.	Adolescent, Woman & Men Health
14.	Evidence Based Practice

### List of Public Health Core Competencies

No	Monitoring and Analysis of Health Situation	Level
1	Epidemiologic Principles  Dynamics of Disease Transmission Spectrum of Disease Levels of Disease Prevention Prevention Strategies and Evaluation of Screening Measures of morbidity and mortality International Classification of Diseases	2
2	Population demography  Health data Vital statistics Death certification Population pyramid	2
3	Issues in Maternal & Perinatal Health  Risk assessment – i.e. colour coding Maternal mortality ratio (MMR) Perinatal mortality Prevention of maternal & perinatal problems – ie safe motherhood programme	3

4	<p>Issues in Child Health</p> <p>Neonatal screening</p> <p>Immunization</p> <p>Child growth and developmental assessment</p> <p>Screening for Children with special needs</p> <p>Child Neglect &amp; Maltreatment</p> <p>Adolescent Health</p> <p>Nutrition problems – undernourished / obesity / stunting</p> <p>Under-5 mortality</p>	3
5	<p>Occupational Safety and Health</p> <p>Occupational diseases &amp; Injuries</p> <p>Risk Assessment &amp; level of prevention</p>	2
6	<p>Environmental Health and Sanitation</p> <p>Pollution – Air, Water, Land pollution</p> <p>Sanitation &amp; waste management</p> <p>Safe water supply</p> <p>Food safety &amp; quality</p>	1
7	<p>International Health</p> <p>International Health Regulation</p> <p>Migration and Travelling health</p> <p>Global health</p>	1
8	<p>Community Nutrition</p> <p>Nutritional assessment</p>	2

	Nutritional intervention – i.e. food basket programme, supplementation of iodide salt etc. Breastfeeding initiatives	
--	---	--

No	Epidemiologic Surveillance, Prevention and Control of Disease/Problem in Public Health	Level
1	Levels of Disease Prevention	3
2	Surveillance	2
3	Epidemiologic Investigation – outbreak investigation	2
4	Screening programme	2
5	Prevention and control of Communicable diseases  Airborne diseases Vector borne diseases Food and Waterborne diseases Zoonotic diseases Vaccine preventable disease Sexually transmitted diseases Emerging & Re-emerging diseases	3
6	Prevention and control of non-communicable diseases  Cardiovascular diseases Cerebrovascular diseases Cancers Substance Abuse Motor-vehicle injuries Mental health Community empowerment & community mobilization	3

No	Policy and Implementation of Public Health Laws	Level
1	Legislations & enforcement related to:  Communicable diseases Non-communicable diseases Food Safety and Quality Environmental health Occupational Safety and Health International Health	1
2	Available policy related to health ie. <i>Dasar kesehatan warga emas negara</i>	1

No	Awareness of Strategic Planning and Administration in Health System including Human Resource Management	Level
1	Health Care Services Management	1
2	Health Information System	1
3	Managing a healthcare team	1
4.	Maintaining quality of health services i.e. health indicators	1

No	Health Promotion and Social Involvement	Level
1	Planning and Implementation of Health Promotion activities	4
2	Community empowerment & mobilization	3
3	Lifestyle diseases and wellness promotion	3
4	Disaster Preparedness plan	1

No	Community Health Research, Epidemiologic Research, Statistics and Analysis of Data	Level
----	--	-------

1	<p>Epidemiological Studies</p> <p>Cross-sectional study design</p> <p>Case-Control study design</p> <p>Cohort study design</p> <p>Intervention studies</p> <p>Measures of association &amp; causation</p> <p>Sampling method &amp; sample size calculation</p>	3

1. Physical examination
2. Investigations
3. Procedures- diagnostics, therapeutics.

### Clinical Skills Levels Descriptors:

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision

4	Able to relate the theory and principles and indications of the specific task Able to perform the task independently.
---	--

## 2.1 Physical examination: General

No	Physical examination	Level
	<b>General</b>	
1	General appearance	4
2	Blood pressure, pulse measurement and perfusion	4
3	Height measurement	4
4	Weight measurement	4
5	Waist circumference measurement	4
6	Head circumference measurement	4
7	Temperature measurement	4
8	Mental status examination	4
9	Respiratory Rate	4
10	Pain Score	4

## 2.2 Physical examination: Organ system

No	Physical examination	Level
1	Respiratory examination	4
2	Cardiovascular examination	4
3	Abdominal examination	4
4	Musculoskeletal examination	4
5	Neurological examination	4
6	Antenatal examination including the usage of handheld foetal doppler monitor	4
7	Eye examination including direct ophthalmoscopy	4
8	Ear examination	4
9	Per rectal examination	4

10	Foot examination	4
11	Development Assessment	4
12	Assessment of Activity of Daily Living	4
13	Breast Examination	4

### 2.3 Investigations

No	Investigations	Level
	Interpretation of the following blood investigations <ul style="list-style-type: none"> <li>• Full blood count</li> <li>• Glucose/glucose tolerance</li> <li>• Renal profile with eGFR</li> <li>• Lipid profile</li> <li>• Liver function test</li> <li>• HbA1c</li> <li>• Urate/uric acid</li> <li>• Thyroid function</li> <li>• Hepatitis serology</li> <li>• HIV investigations</li> <li>• Total serum bilirubin</li> </ul>	3
2	Interpretation of urine pregnancy test	4
3	Interpretation of urine test (urine analysis, dipstix test)	3
4	Interpretation of sexual transmitted disease investigation results	3
5	Interpretation of Tuberculosis investigation results (radiological investigations, microbiology tests, sputum investigations, Mantoux test and others)	3
6	Basic Obstetric ultrasound	1
7	Chest X-ray interpretation	3
8	Electrocardiogram	4
9	Spirometry	1
10	Interpret commonly used point of care testing <ul style="list-style-type: none"> <li>i. HIV Rapid Test</li> <li>ii. Dengue Combo test</li> </ul>	3
11	Fundus photo interpretation	2

## 2.4 Procedure

No	Procedure	Level
1	Venepuncture	3
2	Pap smear	3
3	Toilet & suturing	2
4	Incision and drainage	2
5	Delivery of bronchodilators – MDI & Nebulizer	4
6	Eye irrigation	2
7	Insulin injection technique	4
8	Urethral swab and smear	3
9	Throat swab	2
10	Perform Directly Observed Therapy (DOTS)	3
11	Performing referral (written or verbal)	3
12	IUCD counselling, insertion / removal	2
13	Mantoux test	2
14	Vaccination	3
15	Wound care	3
16	High Vaginal Swab	3
17	Proctoscopy	3
18	Peak flow meter (new)	3

**DISCIPLINE: RADIOLOGY**

<b>Level</b>	<b>Descriptors</b>
1	Able to describe the imaging investigation
2	Identify the clinical indication(s) of the investigation
3	Able to justify the optimal imaging modality required for that particular clinical scenario under guidance.
4	Able to interpret the investigation under guidance.

## 1. Principles of Radiological Techniques and Radiation Safety

<b>No</b>	<b>Task</b>	<b>Level</b>
1.	Communicate the procedure of common radiological methods to the patient	2
2.	Request for appropriate investigations and have knowledge of the respective indications	3
3.	Understand the basics of radiation, MRI and basic contrast medium safety	3

## Systems:

## 1. Chest

<b>No</b>	<b>Task</b>	<b>Level</b>
1.	Basic normal radiological anatomy of heart and lungs	3
2.	Basic understanding of main imaging techniques (radiography, CT and MRI) in thoracic imaging	2
3.	Pneumothorax	4
4.	Pleural effusion	4
5.	Lung/lobar collapse	3
6.	Lung consolidation	3
7.	Heart failure	3

## 2. Abdomen

No	Task	Level
1.	Basic normal radiological anatomy of abdomen	3
2.	Basic understanding of main imaging techniques (radiography, ultrasound and CT) in abdominal imaging	2
3.	Pneumoperitoneum	4
4.	Acute abdomen - traumatic or non-traumatic	3
5.	Bowel obstruction - mechanical and paralytic ileus	3
6.	Common causes of abdominal calcification	3
7.	Foreign body	3

## 3. Musculoskeletal

No	Task	Level
1.	Basic normal radiological anatomy of musculoskeletal system	3
2.	Basic understanding of main imaging techniques (radiography, CT and MRI) in musculoskeletal imaging	2
3.	Skeletal and spinal fractures	3
4.	Skeletal joint dislocation / spinal dislocation	3
5.	Bone and soft tissue infection	2
6.	Bone and soft tissue tumour	2

## 4. CNS

No	Task	Level
1.	Basic normal radiological anatomy of CNS	3
2.	Basic understanding of main imaging techniques (radiography, CT and MRI) in CNS imaging	2
3.	Infarct	3
4.	Intracranial bleed / Trauma	4
5.	Infection and tumour	2

## 5. Paediatrics

No		Level
1.	Basic normal understanding of main imaging techniques (radiography, CT and MRI) in paediatric imaging	2
2.	Non-accidental trauma	2
3.	Basic imaging features of the most common disorders of the brain, spine, chest, abdomen, and musculoskeletal system in neonates, infants, children and adolescents	1

## 6. Breast imaging

No		Level
1.	Basic normal understanding of main imaging techniques (mammogram and ultrasound) in breast imaging	2

## 7. Genitourinary Imaging

No		Level
1.	Basic normal radiological anatomy of genitourinary system	3
2.	Basic understanding of main imaging techniques (radiography, ultrasound, CT and MRI) in genitourinary imaging	2

## 8. Head and Neck Imaging

No		Level
1.	Basic understanding of main imaging techniques (radiography, ultrasound, CT and MRI) in head and neck imaging	2

**DISCIPLINE: ANAESTHESIA****Clinical Skills Levels Descriptors:**

<b>Level</b>	<b>Descriptors</b>
1	Able to describe the task
2	Able to apply the principles or theory of the specific task May have seen the task being perform
3	Have experience performing the task or perform under supervision or perform in simulated environment
4	Able to relate the theory and principles and indications of the specific task Able to perform the task

**1. List of Problems (Clinical Skills)**

General:

<b>No</b>	<b>Items</b>	<b>Level</b>
1	Airway management (ETT intubation /LMA insertion)	2
2	Airway management (Bag mask ventilation, Oropharyngeal airway)	3
3	Oxygen therapy	3
4	Induction of anaesthesia	2
5	Post op anaesthetic care (recovery room)	2
6	Patient safety (SafeSurgerySavesLives checklist)	2
7	Pain Score assessment	3
8	Peripheral IV access	3
9	Central IV access	1
10	Perioperative fluid management and resuscitation	2
11	Arterial Blood Gas	2

12	Preparation of IV drugs	2
13	Endotracheal tube suctioning	2
14	Intra hospital transport of the critically ill patient.	1
15	Local anaesthetic administration	2
16	Discharge from recovery room (checklist)	2

### Theory Levels Descriptors:

Level	Theory : Descriptors
1	Recognise and recall facts
2	Discuss/explain what the facts mean
3	Apply concepts
4	Analyse components

## 2. Theory (Clinical Problems and Diseases)

System:

No	Item	Level
1	General anaesthesia ( induction, maintenance and reversal)	2
2	Regional anaesthesia	2
3	Local anaesthesia toxicity	2
4	Airway management	2
5	Introduction to Anaesthesia workstation	1
6	ICU invasive & non-invasive ventilation	1

## 3. Clinical skills

1. History
2. Physical examination
3. Investigations
4. Procedures- diagnostics, therapeutics.

**Clinical Problems and Diseases: Level Descriptors**

Level	Descriptors
1	Aware of condition
2	Able to make provisional diagnosis
3	Able to initiate initial treatment
4	Able to manage and solve problem

**Preanaesthetic History: General (Clinical Problems and Diseases)**

No	Items	Level
1	Previous anaesthetic history	1
2	Allergy	1
3	Comorbid	1
4	Medical/Surgical history (e.g. respiratory tract infections, previous op)	1
5	History of difficult intubation/airway	1
6	History of ICU/HDW admissions	1
7	ASA classification	1

**Investigations/Procedures- diagnostics, therapeutics. (Clinical Problems and Diseases)**

No	Items	Level
1	Airway assessment	1
2	Basic monitoring (patient vitals)	2
3	General, CVS, Respiratory, BMI status	2

**DISCIPLINE: EMERGENCY MEDICINE****Clinical Problems and Diseases: Level Descriptors**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the condition based on literature at the level of overview
2	Able to make provisional diagnosis based on Physical examination and basic investigations. Refer/consult to the superior (medical officer/specialist)
3	Able to make provisional diagnosis based on Physical examination and basic investigations. Initiate initial treatment Refer/consult to the superior (medical officer/specialist)
4	Able to make diagnosis based on Physical examination and basic investigations. Manage and solve the problem

**1. List of Problems**

General Emergency Medicine:

<b>No</b>	<b>Problem</b>	<b>Level</b>
1	Physiology of Resuscitation	2
2	Cardiopulmonary resuscitation	3
3	Trauma resuscitation	2
4	Resuscitation Special population: Paediatrics	1
5	Resuscitation Special population: Obstetrics & Gynaecology	1
6	Triage	2
7	Disaster management	2
8	Patient transfer	1

## General:

No	Problem	Level
1	Fever	1
2	Weight and appetite lost	1
3	Oedema	1
4	Jaundice	1
5	Rash	1
6	Altered mental status	2
7	Chills and rigors	1
8	Joint pain and swelling	1
9	General weakness and lethargy	1
10	Palpitations	1
11	Myalgia and arthralgia	1
12	Pallor	1
13	Breathlessness	2
14	Shock	2

## System: Cardiovascular

No	Problem	Level
1	Chest pain/discomfort	2
2	Breathlessness	2
3	Shock (peripheral hypoperfusion, hypotension, diaphoresis)	2
4	Oedema	1
5	Palpitations	1
6	Syncope and giddiness	1
7	Limb pain/cyanosis/pale	1

## System: Respiratory

No	Problem	Level
1	Breathlessness	2
2	Noisy breathing	2
3	Cough	1
4	Cyanosis	1
5	Sore throat	1
6	Epistaxis	1
7	Haemoptysis	1

## System: Neurology

No	Problem	Level
1	Syncope	1
2	Seizures	2
3	Altered mental status	2
4	Dizziness and vertigo	1
5	Coordination	1
6	Focal neurological deficits	1
7	Headache	1

## System: Genitourinary

No	Problem	Level
1	Acute urinary retention	1
2	Oedema	1
3	Haematuria	1
4	Loin pain	1
5	Sallow	1
6	Dysuria	1
7	Oliguria/anuria	1

## System: Gastroenterology and hepatobiliary

No	Problem	Level
1	Abdominal pain/discomfort	1
2	Jaundice	1
3	Nausea and vomiting	1
4	Altered bowel habits	1
5	Oedema	1
6	Haematemesis	1
7	Melaena/haematochezia	1
8	Abdominal distention	1
9	Dysphagia	1

## System: Haematology

No	Problem	Level
1	Bruises and bleeding tendency	1
2	Pallor	1
3	Lumps and bumps	1
4	Abdominal mass	1
5	Rashes	1
6	Painful calf	1
7	Bone pain	1

## System: Trauma

No	Problem	Level
1	Head and neck injury	2
2	Chest injury	2
3	Abdominal injury	2
4	Musculoskeletal injury	1
5	Spine injury	1

6	Wound	1
7	Burns	2

System: Eye, ENT and maxillofacial

No	Problem	Level
1	Tinnitus and vertigo	1
2	Ear discharge and pain	1
4	Foreign body	1
5	Red eye	1
6	Eye pain	1
7	Vision loss	1
8	Toothache	1
9	Lock jaw	1

System: Obstetrics and gynaecology

No	Problem	Level
1	Lower abdominal pain	1
2	Antepartum haemorrhage	1
3	Postpartum haemorrhage	1
4	Seizures in pregnancy	1
5	Hypertension in pregnancy	1
6	Fever in pregnancy	1
7	Breathlessness and palpitations in pregnancy	1
8	Severe vomiting in pregnancy	1

## 2. List of Diagnosis

System: Cardiovascular

No	Diagnosis	Level
1	Acute coronary syndrome	2
2	Heart failure and pulmonary oedema	2
3	Hypertension emergencies	2
4	Tachycardia and brady arrhythmias	2
5	Aortic dissection and aneurysm	2
6	Cardiac arrest	4

System: Respiratory

No	Diagnosis	Level
1	Upper respiratory tract infection	1
2	Pneumonia (Community/Hospital/Healthcare associated)	2
3	Bronchial asthma	2
4	Chronic Obstructive Airway Disease (COAD)	2
5	Airway obstruction	3
6	Pneumothorax	2
7	Haemothorax and pleural effusion	2
8	Acute respiratory distress syndrome	1
9	Pulmonary embolism	2

System: Gastrointestinal and genitourinary

No	Diagnosis	Level
1	Lower gastrointestinal bleed	1
2	Upper gastrointestinal bleed	1
3	Acute kidney injury	1
4	Testicular torsion and infection	1

## System: Neurology

No	Diagnosis	Level
1	Stroke and transient ischaemic attack	1
2	Status epilepticus	2
3	Intracranial haemorrhage	1
4	Meningitis and encephalitis	1

## System: Endocrine

No	Diagnosis	Level
1	Diabetic emergencies	1
2	Adrenal crisis	1
3	Thyroid emergencies	1

## System: Haematology

No	Diagnosis	Level
1	Deep vein thrombosis	1
2	Over-warfarinisation/Anti-coagulant related bleeding	1

## System: Medical Toxicology, Clinical Toxinology and Environmental Medicine

No	Diagnosis	Level
1	Drug overdose	2
2	Poisoning	2
3	Biohazard exposure	2
4	Envenomation	2
5	Animal bites	2
6	Heat stroke	2
7	Thermal and chemical injuries	2

## System: Infectious disease

No	Diagnosis	Level
1	Sepsis	1
2	Disease Outbreaks	1
3	Dengue	1
4	Malaria	1
5	Leptospirosis	1

## System: Obstetrics and gynaecology

No	Diagnosis	Level
1	Eclampsia and pre-eclampsia	1
2	Postpartum haemorrhage	1
3	Ectopic pregnancy	1

## System: Trauma

No	Diagnosis	Level
1	Traumatic head injury	2
2	Eye, ear and maxillofacial trauma	1
3	Chest trauma	2
4	Intraabdominal injury	2
5	Pelvic and genitourinary injury	2
6	Fractures and dislocation	1
7	Wound	1
8	Compartment syndrome	1

## System: skin, soft tissue and musculoskeletal

No	Diagnosis	Level
1	Steven Johnson Syndrome	1
2	Toxic Epidermal Necrosis	1

3	Allergy and anaphylaxis	1
---	-------------------------	---

System: Miscellaneous

No	Diagnosis	Level
1	Psychiatric emergencies	1
2	Child abuse	1
3	Sexual abuse	1
4	Domestic violence	1

### 3. Clinical skills

#### Clinical Skills Levels Descriptors:

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision
4	Able to relate the theory and principles and indications of the specific task Able to perform the task

General

No	Skills	Level
1	Triage	2
2	History taking	4
3	Physical examination	4

Airway management

No	Skills	Level
1	Airway manoeuvres	4

2	Airway adjunct	3
3	Oxygen supplementation	4
4	Bag-valve-mask	3
5	Rapid sequence intubation	2
6	Surgical airway	1

## Breathing and ventilation

No	Skills	Level
1	Non-invasive ventilation	2
2	Invasive ventilation	2

## Circulation

No	Skills	Level
1	Cardiopulmonary resuscitation	4
2	Defibrillation and synchronized cardioversion	2
3	Transcutaneous pacing	1
4	Haemodynamic monitoring	3
5	Peripheral intravenous cannulation	3
6	Central venous cannulation	1
7	Arterial puncture	2
8	Setting up intravenous drip	3
9	Blood transfusion procedure	2
10	Intraosseous cannulation	2
11	Haemorrhage control	3

## Trauma

No	Skills	Level
1	Primary survey	3
2	Secondary survey	2

3	Cervical immobilisation	3
4	First aid	4
5	Tetanus immunisation	2
6	Fracture immobilisation	3
7	Closed manual reduction of dislocated fractures and joints	2
8	Needle thoracocentesis	2
9	Chest tube insertion	2
10	Focused assessment with sonography in trauma (FAST)	2

## Miscellaneous

No	Skills	Level
1	Intramuscular/subcutaneous injections	2
2	Venepuncture	3

**PRINCIPLE OF SURGICAL PRACTICES**  
**(GENERAL SURGERY/ORTHOPAEDIC/OBGYN/ORL/OPHTHALMOLOGY)**

**Clinical Problems and Diseases: Level Descriptors**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the condition based on literature at the level of overview
2	Able to make provisional diagnosis based on Physical examination and basic investigations. Refer to the relevant specialist
3	Able to make provisional diagnosis based on Physical examination and basic investigations. Initiate initial treatment Refer to the relevant specialist
4	Able to make diagnosis based on Physical examination and basic investigations. Manage and solve the problem

1. Clinical Problems and Diseases

<b>No</b>	<b>Problem</b>	<b>Level</b>
1	Fluid and electrolyte	3
2	Trauma	2
3	Use of antibiotics	3

1	Thyroid swelling	3
2	Adrenal tumour	2
3	Parathyroid	2
4	Pituitary	2

## 2. List of Diagnosis

System: Gastrointestinal

No	Diagnosis	Level
1	Oesophageal Cancer	3
2	Achalasia	2
3	Hiatus Hernia	2
4	Oesophageal Stricture	2
5	Oesophageal Varices	3
6	Foreign Body	3
7	Gastric Ulcer	3
8	Duodenal Ulcer	3

9	Gastric Cancer	3
10	Erosive gastritis	3
11	GERD	3
12	Gastric Polyp	2
13	Gastric volvulus	2
14	Perforated Peptic Ulcer	3
15	Acute appendicitis	3
16	Acute cholecystitis	3
17	Acute pancreatitis	3
18	Liver abscess	3
19	Hepatocellular Cancer	3
20	Liver cyst	2
21	Gallstone	3
22	CBD stone	3
23	Pancreatic Cancer	3
24	Chronic Pancreatitis	3
25	Empyema Gallbladder	3
26	Cholangitis	3
27	Pancreatic Cyst	2
28	Meckel's Diverticulum	2
29	Small bowel volvulus	2
30	Intussusception	2
31	GIST tumour	2
32	Small bowel obstruction	3
33	Caecal tumour	3
34	TB caecum	2
35	Carcinoid tumour	2
36	Diverticular disease	3
37	Colon cancer	3

38	Angiodysplasia	2
39	Crohn's disease	2
40	Ulcerative colitis	2
41	Pseudomembranous colitis	2
42	Rectal cancer	3
43	Fistula-in-ano	3
44	Perianal abscess	3
45	Haemorrhoids	3
46	Anal fissure	3
47	Anal warts	2
48	Large bowel volvulus	3
49	Abdominal wall hernias	3
50	Inguinal hernia	3
51	Lumbar hernia	2
52	Polyposis Coli	2
53	Amoebic colitis	2

## System: Genitourinary

No	Diagnosis	Level
1	Renal tumour	2
2	Hydronephrosis	3
3	Pyonephrosis	3
4	Pyelonephritis	3
5	Perinephric abscess	3
6	Renal calculi	3
7	Renal cyst	2
8	Ureteric stricture	2
9	Ureteric calculi	3
10	Urinary bladder calculi	3

11	Bladder Cancer	2
12	Vesico-ureteric reflux	2
13	Bladder diverticulum	2
14	Cystitis	3
15	Prostatitis	2
16	Benign prostatic hyperplasia	3
17	Prostatic cancer	3

## 6. Child death

No	Problem	Level
1	Death due to natural causes	1
2	Death due to unnatural causes	1

## 7. Maternal death

No	Problem	Level
1	Pregnancy-related death	1

## 8. Fire, Electrocution &amp; lightning injuries --&gt; Death due to unnatural causes

No	Problem	Level
1	Death due to fire, electrocution and lightning	1
2	Transportation related death	1
3	Death due to asphyxia and drowning	1
4	Firearm related death	1

## 9. Toxicology

No	Problem	Level
1	Ethyl alcohol and drug-related death	1
2	Carbon monoxide poisoning	1

## 10. Court Procedures

No	Problem	Level
1	Legal systems in Malaysia	1
2	Court procedures	1
3	Court subpoena	1
4	Responsibility of a doctor as an Expert witness	1
5	Examination-in-chief	1
6	Cross examination	1
7	Re-examination	1

## Clinical skills

**Clinical Skills Levels Descriptors:**

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision
4	Able to relate the theory and principles and indications of the specific task Able to perform the task

No	Skills	Level
1	History taking from the police	1
2	History taking from the family members	1
3	Documentation of post-mortem findings	1

4	External body examination	1
5	Internal body examination	1
6	Organ dissection	1
7	Procedure of blood and body fluid collection	1
8	Blood for culture and sensitivity	1
9	Urine collection	1
10	Gunshot residue collection	1
11	Collection of trace evidence (head-hair, fingernails and clothing for DNA fingerprinting)	1
12	Specimen collection in sexual offenses	1
13	Anal swab	1
14	Oral swab	1
15	Body fluid and tissue for toxicological analysis	1
16	Specimen handling and chain of custody	1
17	Relevant laboratory request form	1
18	Final report writing	1

**DISCIPLINE: MEDICAL ETHICS & LAW****Knowledge Level Descriptors**

<b>Level</b>	<b>Descriptors</b>
1	<b>Aware</b> of the principle, theory or law related to the specific situation at the level of overview.
2	Able to <b>identify</b> the relevant principle, theory or law related to the specific situation.
3	Able to <b>apply</b> the relevant principle, theory or law related to the specific situation.
4	Able to <b>analyse</b> the specific situation using the relevant principle, theory or law.

## 1. Ethics

<b>No</b>	<b>Topic</b>	<b>Level</b>
1	Principles of Biomedical Ethics -Respect for Autonomy -Beneficence -Non-maleficence -Justice	3
2	Good Medical Practice	3
3	Code of Professional Conduct	3
4	Consent -Types of Consent -Competent Patient -Incompetent Patient -Children (Gillick competence)	3
5	Confidentiality -Principles -Breaches	3

6	Research Ethics	1
7	Clinical Ethics	2
8	Ethical Issues at the End of Life -Withdrawing & Withholding Treatment -Euthanasia	2
9	Ethical Issues in Paediatrics -Best Interest Principle	2
10	Ethical Issues in O&G -Assisted Reproduction -Termination of Pregnancy	2
11	Ethical Issues in Organ Donation -Brain Death -Organ Allocation	1
12	MMC Ethical Guidelines	2

## 2. Law

No	Topic	Level
1	Introduction to Malaysian Legal System	1
2	Medical Negligence	2
3	Medical Records & Medical Reports	2
4	Patients Grievance Mechanism	1
5	Healthcare-related Legislations	1

## 3. Specific Legislations

No	Topic	Level
1	Medical Act 1971 & Medical Regulations 2017	2
2	Private Healthcare Facilities & Services Act 1998 (Act 586)	1
3	Prevention & Control of Infectious Diseases Act 1988	1

4	Child Act 2001	1
5	Sexual Offences Against Children Act 2017	1
6	Mental Health Act 2001	1
7	Penal Code	1
8	Human Tissue Act 1974	1
9	Public Authority Protection Act 1948	1
10	Occupational Safety and Health 1994 (Amendment 2022)	1

### Practical Skills

#### Practical Skills Level Descriptor

Level	Descriptors
1	Able to describe the task
2	Able to apply the principles or theory of the specific task. May have seen the task being perform
3	Have experience performing the task or perform under supervision
4	Able to relate the theory and principles and indications of the specific task Able to perform the task independently

No	Topic	Level
1	Taking verbal consent	4
2	Taking a written informed consent	2
3	Discharges against medical advice (DAMA/AOR)	2
4	Documentation of Patient Care	4
5	Filling in Forms	4
6	Writing a prescription	4

7	Issuing Medical Certificates	2
8	Maintaining Confidentiality	4

**COMPETENCY AREA: PROFESSIONALISM****Practical Skills Level Descriptor**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the competency required to the specific situation
2	Able to apply the competency required to the specific situation
3	Able to demonstrate the competency required to the specific situation when prompted
4	Able to demonstrate the competency required to the specific situation proficiently

## 1 Respect

<b>No</b>	<b>Topic</b>	<b>Level</b>
1	<p><b>Demonstrate respect by exhibiting behaviours such as:</b></p> <ol style="list-style-type: none"> <li>1. Defending patients' dignity by using the patient's proper form of address and by paying attention to the patient's comfort, modesty and dignity in every encounter</li> <li>2. Choosing to appropriately groom and dress oneself whenever working in a professional environment</li> <li>3. Identifying individuals' choices (patients, family/guardian and other healthcare providers)</li> </ol>	4

## 2 Responsibility &amp; Accountability

<b>No</b>	<b>Topic</b>	<b>Level</b>
1	<p><b>Demonstrate responsibility and accountability by exhibiting behaviours such as:</b></p>	4

	<ol style="list-style-type: none"> <li>1. Managing emotions in order to maintain personal control amidst adverse and trying circumstances.</li> <li>2. Recognizing unprofessional behaviours and reporting them appropriately (Intervening on behalf of patients by confronting all unprofessional behaviours that may compromise patient safety and cause harm to patient)</li> <li>3. Attending and being punctual at all required educational sessions.</li> <li>4. Takes proper responsibility, does not neglect duty and responds when call.</li> <li>5. Develop and maintain a sustainable personal health, work and learning habits.</li> </ol>	
--	--	--

### 3 Excellence and Scholarship

No	Topic	Level
1	<p><b>Demonstrate Excellence and Scholarship by exhibiting behaviors such as:</b></p> <ol style="list-style-type: none"> <li>1. To be thorough in all assignments, (including reading about patients' problems)</li> <li>2. Recognizing and managing uncertainty</li> <li>3. Practicing self-reflection as a tool for life-long learning.</li> </ol>	4

## 4 Honour and Integrity

No	Topic	Level
1	<p><b>Demonstrate honour and integrity by exhibiting behaviours such as:</b></p> <ol style="list-style-type: none"> <li>1. Honest about status as students in all encounters with patients, colleagues and other health professionals.</li> <li>2. Recognizing and respecting personal, emotional, and physical boundaries with patients, teachers, and peers.</li> <li>3. Accurately reporting only data that has been personally verified</li> <li>4. Making appropriate attribution to sources of ideas and data.</li> <li>5. Admitting mistakes and errors i.e. practising veracity (truth telling)</li> <li>6. Evaluating own performance and being honest about shortcomings.</li> </ol>	4

## 5 Altruism

No	Topic	Level
1	<p><b>Demonstrate altruism by exhibiting behaviours such as:</b></p> <ol style="list-style-type: none"> <li>1. Putting patients' interest above student's own interest.</li> <li>2. Advocating for the individual patient's needs when they arise</li> <li>3. Recognizing the social issues that impact the health of patients</li> <li>4. Know the importance of patient advocacy</li> </ol>	4

## 6 Leadership and Team work

No	Topic	Level
1	<p><b>Demonstrate leadership by exhibiting behaviours such as:</b></p> <ol style="list-style-type: none"> <li>1. Sharing responsibility for group learning, feedback, and discussion.</li> <li>2. Supporting colleagues by creating a collegial learning environment: respect the role of others workers including students from other health professionals.</li> <li>3. recognising the role of each team members in managing patients and allowing them to demonstrate excellence appropriately.</li> </ol>	4

## 7 Cultural Competency and Managing Diversity

No	Topic	Level
1	<p><b>Demonstrates cultural competency and managing diversity through:</b></p> <ol style="list-style-type: none"> <li>1. the ability to adapt communication style to patient's and team members language and cultural background.</li> <li>2. the ability to recognize and respond to culturally-based challenges during the clinical encounter.</li> </ol>	4

## 8 Compassion and Empathy

No	Topic	Level
1	<b>Demonstrates empathy by exhibiting behaviours such as:</b>  1. Expressing sensitivity to others' circumstances (such as emotional state, care expectations and socioeconomic perspective) by appropriate verbal and non-verbal communication skills.  2. Recognizing when to listen, when to talk, and when to be silently present.	4

## 9 Confidentiality

No	Topic	Level
1	<b>Demonstrates confidentiality by exhibiting behaviours such as:</b>  Maintain patient confidentiality and privacy at all times and recognise circumstances that leads to breach of confidentiality.	4

2. Digital Logbook, Ministry of Health Malaysia, 2024
3. Code of Professional Conduct 2019

**COMPETENCY AREA: INTERPERSONAL AND COMMUNICATION SKILLS**

Effective information exchange and collaborate with patients, their families, and other health professional

**Practical Skills Level Descriptor**

<b>Level</b>	<b>Descriptors</b>
1	Aware of the competency required to the specific situation
2	Able to apply the competency required to the specific situation
3	Able to demonstrate the competency required to the specific situation when prompted
4	Able to demonstrate the competency required to the specific situation proficiently

No.	Topic	Level
1.	Explains role appropriately to patient and/or care givers/family members.	4
2.	Communicate effectively and respectfully with patients, families, and the public	4
3.	Communicate effectively and respectfully with other health professionals, and non-health professionals.	4
4.	Uses effective listening skills to elicit information.	4
5.	Facilitates team communication and provides constructive verbal and written feedback to other team members when act as a team leader. Practice open communication to optimise patient care	3
6.	Provides effective patient/caregiver/family education in verbal and written form.	3
7.	Conducts Serious Illness Conversations encompassing Goals of Care discussions, breaking bad news, and addressing issues related to death and dying, while demonstrating empathy, ethical sensitivity, and professionalism.	3

**SECTION 5**  
**ACCREDITATION**  
**PROCEDURE**

## **SECTION 5**

### **THE ACCREDITATION PROCEDURE**

This section describes the procedures involved in the accreditation process of the undergraduate medical programme, Panel of Assessors (POA), and their roles and responsibilities in conducting the accreditation exercise. The accreditation of the undergraduate medical programme is under the jurisdiction of MQA, while the recognition of medical programmes is by the Malaysian Medical Council. The whole accreditation process, from the submission of documents by HEP to the information on the accreditation result, is handled by MQA, with close collaboration with MMC. The Panel of assessors is recommended by the Medical Education Committee MMC and submitted to MQA. Appointment of POA by MQA will be done upon receipt of MQA-02 from HEP. Following that, MQA will distribute the MQA-02 and the Evaluation Instrument to the POA.

HEP is advised to submit the documents approximately 6 months before the programme's accreditation expires.

HEP is required to submit MQA-02, which contains the relevant documents and supporting evidence, as well as the Evaluation Instrument to MQA for accreditation. HEP must **ensure that all write-ups in MQA-02 are supported with relevant evidence**. This is crucial, as the evaluation is conducted before the accreditation visit. The accreditation process, which includes visits to learning resources and facilities, as well as interviews, is primarily to verify the information in the databases.

Only the POA and observers should be present at any official briefing or discussion with the institution, its staff, or its students. No other persons are to be present unless they have a specific function, e.g., interpreter.

The MQA-02 has 3 parts:

Part A: General Information on The Higher Education Provider

Part B: Programme Description

Part C: Programme Standards

According to MQA's circular 9/2019 dated 26th December 2019, information on Part A must now be uploaded by the HEP into the *e-Semakan Program* (eSP) portal. It does not have to be submitted in soft

copy together with Part B and Part C. All uploaded information has a validity period of 1 year. The HEP is required to keep the information updated when there are changes.

### **PANEL OF ASSESSOR**

The POA consist of

- A chairperson
- Three members of POA
- Not more than two observers
- MQA and MMC Secretariat

### **TASKS AND RESPONSIBILITIES OF THE POA**

The database and evaluation instrument will be given to the POA upon acceptance of the official appointment. The POAs are expected to be well-versed in all guidelines related to

- i) criteria and standards (Section 2)
- ii) conduct of accreditation visit (Section 5)

In evaluating the programme, the POA will

1. assess the programme for compliance with the Malaysian Qualifications Framework (MQF), Standards for Undergraduate Medical Education (Section 2), Code of Practice for Programme Accreditation (COPPA), Guidelines for Preparing the Programme Accreditation Report (Section 7)
2. verify and assess all the information about the programme submitted by the HEP, and the proposed improvement plans
3. arrive at generally objective conclusions based on Standards for Undergraduate Medical Education (Section 2), Guidelines for Preparing the Programme Accreditation Report (Section 7) and rational consideration

In addition, the Chair of the POA is also responsible in

1. leading the team throughout the accreditation process
2. ensuring all documentation remain confidential
3. submitting a written report at the end of the accreditation process

## **THE OBSERVERS**

Not more than two observers may be permitted to accompany and observe the workings of the Accreditation Team. Such observers will need to be cleared by the MEC before the coordination meeting. The observers will usually not actively participate in the Accreditation process, but may be invited to do so by the Chairperson of the POA. The observers must have attended an Accreditation Training Course and at least two accreditation visits as official observers before being appointed as POA (subject to evaluation by the Chairperson). All expenses for observers (traveling, accommodation, etc.) will be borne by their respective institutions or employers.

## **DECORUM OF POA**

To ensure impartiality, transparency, and professionalism, the POA is expected to maintain decorum. All POA shall declare any potential conflict of interest, and if so, shall recuse themselves. The POA shall maintain a professional and cordial relationship with the academic staff and officers of the Medical School being surveyed. The POA shall also refrain from being openly critical or from passing derogatory remarks during the survey, and from expecting or accepting lavish hospitality or gifts from the Medical School. The POA shall not take advantage of the privileges of confidentiality accorded to them, such as gathering staff/student information, canvassing for lecturers for their institutions, or obtaining financial data for their benefit. Unless otherwise arranged, all communication between the HEP/Medical School and Panel members must be via the MQA.

## **THE EXIT REPORT**

The chair of the POA gives the HEP an exit report at the end of the visit. The report must be based on the Guidelines for Preparing the Programme Accreditation Report (Section 7) and generated from the Evaluation Instrument. The presentation serves as immediate feedback to the Medical School. Following that, the POA and the secretariat will print and sign the accreditation report from the evaluation instrument. The HEP then signed and acknowledged the receipt of the report.

## **PROCEDURES AFTER THE ACCREDITATION VISIT**

Upon receiving the draft accreditation report at the end of the accreditation visit, HEP may provide

feedback on any **factual errors** within 10 working days. If no feedback is received from HEP within the stipulated time, it is considered that HEP agrees with the report. The full report consists of the final report and the Table 4 evaluation form.

MQA will submit the full report to MMC, then MMC will bring it to *Jawatankuasa Teknikal Bersama* (JTB). The report will be approved at MMC and finally endorsed by MQA. The result will be broadcasted on the MQA website within 3 days after MJA (*Mesyuarat Jawatankuasa Akreditasi*). MQA will notify the Vice-Chancellor or President of the institution.

Note: The report must be kept confidential and not released to anyone without JTB's authorisation. **The POA report does not necessarily represent the final report from the JTB.**

### Summary of accreditation procedure:

#### 1. Major Steps in Accreditation Process

##### a) PROCEDURES AFTER THE PROVISIONAL ACCREDITATION VISIT

###### Major Steps in Accreditation Process

- i. Survey Visit Post MOHE approval (MQA-01) (Six months after course commencement);
- ii. Survey Visit - Six months BEFORE commencement of clinical phase (MQA-01)
- iii. Full Accreditation - Six months BEFORE graduation of the first batch (MQA-02)

##### b) PROCEDURES FOR FULL ACCREDITATION VISIT

###### Major Steps in Accreditation Process

- i. Full Accreditation application at least 6 months BEFORE expiry of present accreditation (reaccreditation) (MQA-02)
- ii. Full Accreditation visit 4 months BEFORE expiry of present accreditation
- iii. \*Compliance Assessment following specific requirement for full accreditation

\*Compliance Assessment is an exercise to monitor any area of concerns from previous accreditation exercise. During the exercise, panel may also look into any update on the opportunity for improvement. In principle, the monitoring is carried out based on documents submitted by HEP, visit is only if indicated (**to be implemented after 1<sup>st</sup> January 2026**).

## 2. Accreditation process and timeline

Weeks before the expiration of accreditation status	Activities and Responsibilities	PIC
24	<p><b>Submission of Application</b></p> <p>HEP submits a complete Full Accreditation application to MQA</p>	HEP
23	<p><b>Registration Process</b></p> <ul style="list-style-type: none"> <li>records the application</li> <li>assigns the application to the relevant officer</li> <li>checks whether the information submitted is complete</li> <li>notifies the HEP that the evaluation process will commence</li> <li>forwards the application to the Malaysian Medical Council (MMC)</li> </ul>	MQA

**SECTION 6  
DATA SUBMISSION  
FOR CURRICULUM  
REVIEW (MMC CR-  
01  
CURRICULUM  
REVIEW  
UNDERGRADUATE  
MEDICAL  
PROGRAMME)**

**SECTION 6**
**MMC CR-01**  
**(Curriculum Review Undergraduate Medical Programme)**
**Requirement to submit MMC CR-01:**

Medical school is required to submit a database using the MMC CR-01 form when the curriculum review involves major changes as shown below:

Criteria for Major and Minor Curriculum Review:

Item	Minor	Major
<b>Change in Visions, Missions, and Objectives</b>		
Change in Higher Education Provider's Visions, Missions and Objectives		✓
<b>Change in PEOs, PLOs and CLOs</b>		
Editorial change in Programme Educational Objectives (PEO)	✓	
Change in the number or learning domains of Programme Educational Objectives (PEO)		✓
Editorial change in Programme Learning Outcomes (PLO)	✓	
Change in the number or learning domains of Programme Learning Outcomes (PLO)		✓
Editorial change in Course Learning Outcomes (CLO) (core subjects)	✓	
Change in the number or learning domains of Course Learning Outcomes (CLO) for core subjects of more than 30% from the total CLO		✓
<b>Change in Curriculum Structure</b>		
Change in curriculum structure (e.g from traditional curriculum to integrated curriculum, PBL-based, etc.)		✓

Change in the number of years of study (e.g from 6 to 5 years)		✓
Change in the total number of graduating credits involving program courses		✓
Change in the total number of graduating credits involving the University compulsory courses	✓	
Change in the sequence of core subjects offered without any change in credit hours e.g. changing the course offered in Year 1 to Year 2	✓	
Change of programme content (core subject) >30%		✓
Change in Teaching and Learning Activity		
Changing from face-to-face to online delivery (theory component) is limited to not more than 50%.	✓	
Changing from face-to-face to online delivery (clinical component)		✓
Change in Assessment Strategy		
Change in preclinical assessment method without any change of credit hours (core subjects)	✓	
Change in clinical assessment without any change in credit hours (core subjects) (e.g. from long case and short case to OSCE) **Must adhere strictly to the current guidelines issued by the Malaysian Medical Council	✓	
Adding or Removing the number of major examinations  <i>A major examination is an examination that determines a student's progression to the next year of study.</i>		✓

Please submit the completed documents to MQA. The documents should include but not be limited to:

1. Table of Contents;
2. List of appendices (if relevant);

3. Summary of major changes and their rationale
4. Answers to all questions in Area 1 and Area 2. For each question, highlight changes made to the proposed new curriculum and its justifications.;
5. Table 3.1 should include differences in learning outcomes, curricular contents and assessment of students' learning where relevant.;
6. Existing and proposed Table 4;
7. Feedback from stakeholders - Summarise the findings and relate the input from stakeholders that were taken into account in the development of the proposed new curriculum.;
8. Verification by the HEP Quality Unit; and
9. Approval by the University Senate

#### **PART B: PROGRAMME DESCRIPTION**

1. Name of the programme (as in the scroll to be awarded):
2. MQF level:
3. Graduating credit: (as stated in the licence and new graduating credit)
4. Has this programme been accredited by MQA for other premises? If yes, please provide the following details:

No.	Name and Location of the Premises (main campus/branch campuses / regional centre)	Mode of Delivery	Accreditation Status
			Full
1.			
2.			
3.			

5. Type of award (e.g., single major, double major, etc.):
6. Field of study and National Education Code (NEC):
7. Language of instruction:
8. i) Type of programme (e.g., own, collaboration, external, joint award / joint degree, etc.)
  - ii) Mode of study:
  - iii) Frequency of curriculum review:
  - iv) Date of last review:
  - v) Briefly summarise the major changes in the previous curriculum review

## iii) Duration of study:

	Full-time	
	Long Semester	Short Semester
No. of Weeks		
No. of Semesters		
No. of Years		

*Note: The Number of weeks should include the study and exam week.*

## iv) Entry requirements (as approved by the Ministry of Higher Education Malaysia):

## PART C: Data Submission

HEP is required to submit

1. Part C of Area 1 and Area 2. Answer all questions. For each question, highlight the changes made to the proposed new curriculum and their justification.
2. Submit all Tables Comparison of the learning outcomes, curricular content of the existing curriculum, and the newly proposed curriculum.
3. Comparison of the new assessment method/format of the existing curriculum and the newly proposed curriculum
4. Feedback from stakeholders- Summarise the findings and relate the input from stakeholders that were taken into account in the development of the proposed new curriculum
5. **Any other relevant information** to support the institution's ability to implement the revised curriculum, such as the process of student selection, staff training, infrastructure, equipment, etc.

### INFORMATION ON AREA 1: PROGRAMME DEVELOPMENT AND DELIVERY

#### 1.1. Statement of Educational Objectives of Academic Programme and Learning Outcomes

- 1.1.1. Explain how the programme is in line with, and supportive of, the vision, mission and goals of the HEP.

(Please highlight the changes made with the provision of evidence)

- 1.1.2. Provide evidence of the market survey and explain how the school has considered market and societal demand (**NEW PROGRAMME ONLY**) for the programme. In what way is this proposed programme an enhancement of the other medical programmes?

1.1.3.

- a) State the programme educational objectives, programme learning outcomes, teaching and learning strategies, and assessment of the programme.
- b) Map the programme learning outcomes against the programme educational objectives. (Provide information in Table 1)

**Table 1:** Matrix of Programme Learning Outcomes (PLO) against the Programme Educational Objective (PEO).

Programme Learning Outcomes (PLO)	Programme Educational Objectives (PEO)			
	PEO1	PEO2	PEO3	PEO4
PLO 1				
PLO 2				
PLO 3				
PLO 4				
PLO 5				

\*Add rows as necessary

- c) Describe the strategies for the attainment of PLOs in terms of teaching and learning strategies, and assessment.

1.1.4. Map the programme learning outcomes to MQF level descriptors and the five clusters of MQF learning outcomes domains.

**Table 1.1:** Matrix of Programme Learning Outcomes (PLO) against Malaysian Qualification learning domain (MQF).

Programme Learning Outcomes (PLO)	Malaysian Qualification Framework (MQF) learning outcomes										
	1. Knowledge & understanding	2. Cognitive Skills	3. Functional Work Skills:						4. a) Personal Skills	4. b) Entrepreneurial Skills	5. Ethics & Professionalism
			a) Practical Skills	b) Interpersonal Skills	c) Communication Skills	d) Digital Skills	e) Numeracy Skills	f) Leadership, Autonomy, & Responsibility			
PLO 1											
PLO 2											
PLO 3											
PLO 4											
PLO 5											

\*Add rows as necessary

1.1.5.

- a) How are the programme learning outcomes related to students' preparedness for housemanship and postgraduate medical education options upon completion of the programme?
- b) Do the learning outcomes relate to the existing and emergent needs of the healthcare industry and the community? How was this established?

## 1.2. Programme Development: Process, Content, Structure and Teaching-Learning Methods

- 1.2.1. Describe the provisions and practices that indicate the autonomy of the medical school in the design of the curriculum, and its utilisation of the allocated resources.
- 1.2.2. Describe the processes to develop and approve the curriculum by the highest academic authority of the HEP and the relevant regulatory bodies.
- 1.2.3.
- Who and how are stakeholders consulted in the development of the curriculum?
  - Explain the involvement of educational experts (medical educationists) in this curriculum development.
- 1.2.4.
- Describe how the curriculum fulfils the requirements of the programme standards and best practices in medical education.
  - Provide the necessary information, where applicable, in Table 2:

**Table 2:** Components of the programme and its credit value

Minimum Graduating Credit: 200

	<b>Course Classification</b>	<b>Minimum Credit Value</b>	<b>Existing Credit Value</b>	<b>Propose Credit Value</b>
1.	<i>Compulsory courses/modules*</i>	10		
2.	<b>7 Basic Sciences</b>	60		
	<b>8 Clinical training 9 Projects Dissertation</b>	110		
3.	<i>Optional/Elective courses**</i>	2		
4.	<i>Others (specify)</i>			

**Note:**

\* Compulsory courses/modules refer to *Mata Pelajaran Umum* (MPU) and other courses required by the HEP.

\*\* Optional/elective courses refer to courses where students can exercise choice. Elective course: 1 credit= 80 notional hours

- c) Provide a brief description for each course offered in the programme. Please arrange the courses by year and semester in Table 3.

**Table 3:** Brief description of courses offered in the programme

No.	Semester/ Year Offered	Name and Code of Course	Classification (Compulsory Major/Minor/ Elective)	Credit Value	Programme Learning Outcomes (PLO)					Prerequis ite/co- requisite	Name(s) of Academi c Staff
					PLO1	PLO2	PLO3	PLO4	PLO5		
1.											
2.											
3.											
4.											
5.											
6.											
7.											

- d) Indicate new courses introduced in the revised curriculum as well as courses in the existing curriculum that have been removed.

**Table 3.1:** Comparison between the existing curriculum and the proposed revised curriculum

	Existing Curriculum	Proposed (New) Curriculum	Justification for the changes
1.			
2.			
4.			
5.			

- e) Provide the information for each course in the proposed Table 4.

**Table 4:** Course information (a template in Excel format is provided separately for HEP to fill in. Please download the latest version from the MQA website)

Please tick the Effective Learning Time in Item 10 of Table 4 for Elective posting (1 credit= 80 notional hours)

1.	Name and Code of Course:
2.	Synopsis:
3.	Name(s) of academic staff:
4.	Semester and year offered:
5.	Credit value:
6.	Prerequisite/co-requisite (if any):
7.	Course learning outcomes (CLO): CLO 1 - .... CLO 2 - .... CLO 3 - .... CLO4-..... CLO5-...

## 8. Mapping of the Course Learning Outcomes to the Programme Learning Outcomes, Teaching Methods and Assessment Methods:

Course Learning Outcomes (CLO)	Programme Learning Outcomes (PLO)									Teaching Methods	Assessment Methods
	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7	PLO8	PLO9		
CLO 1											
CLO 2											
CLO 3											
CLO 4											
CLO 5											
Mapping with MQF Cluster of Learning Outcomes											

Indicate the primary causal link between the CLO and PLO by ticking “✓” in the appropriate box.

(This description must be read together with Standards 2.1.2, 2.2.1 and 2.2.2 in Area 2.)

## 9. Transferable Skills (if applicable):

(Skills learned in the course of study which can be useful and utilised in other settings.)

## 10. Distribution of Student Learning Time (SLT):

Course Content Outline and Subtopic	CLO*	Teaching and Learning Activities								Total SLT
		Face-to-Face (F2F)				NF2F Independent Learning (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
3										
4										
SUB-TOTAL SLT										
Continuous Assessment	%	F2F				NF2F Independent Learning for Assessment (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
SUB-TOTAL SLT										
Final Assessment	%	F2F				NF2F Independent Learning for Assessment (Asynchronous)				
		Physical				Online / Technology-mediated (Synchronous)				
		L	T	P	O	L	T	P	O	
1										
2										
SUB-TOTAL SLT										
SLT for Assessment										
GRAND TOTAL SLT										
A	% SLT for F2F Physical Component									
B	% SLT for Online & Independent Learning Component									
C	% SLT for All Practical Component									
C1	% SLT for F2F Physical Practical Component									
C2	% SLT for F2F Online Practical Component									

Please ( ✓ ) if this course using 50% of effective learning time (ELT), for example Clinical Elective Course.

L = Lecture, T = Tutorial, P = Practical include Clinical learning, O = Others, F2F = Face to Face, NF2F = Non Face to Face

\*Indicate the CLO based on the CLO's numbering in Item 8.

11.	Identify special requirements or resources to deliver the course (e.g., software, nursery, computer lab, simulation room):
12.	References (include required and further readings, and should be the most current):
13.	Other additional information:

- 1.2.5. What are the co-curricular activities available to the students of this programme?  
How do these activities enrich student learning experience, and foster personal development and responsibility?

### 1.3. Programme Delivery

- 1.3.1. Provide evidence on how the medical school ensures the effectiveness of curriculum delivery in supporting the achievement of course and programme learning outcomes.
- 1.3.2. Show evidence (including those available in the learning management system) that the students are provided with, and briefed on, the current information about the programme, for example, the Student Study Guide, Student Handbook and Student Project Handbook.
- 1.3.3.
- Provide details of the programme's leadership and management structure, including the team members responsible for the programme (e.g., Dean, department heads, coordinators, etc.). State the manner in which the academic team manages the programme. What are their qualifications, authority, and responsibility?
  - Does the programme team have access to adequate resources? Provide evidence.
- 1.3.4. Show how the medical school provides a conducive learning environment for effective teaching and learning, aligned with best practices in medical education.
- 1.3.5. Describe the medical school's initiatives to encourage innovations in teaching, learning and assessment.
- 1.3.6. State how the medical school obtains feedback from relevant stakeholders (example employers, students, alumni, etc) and uses it to improve the delivery of the programme outcomes. Provide evidence.

**INFORMATION ON AREA 2: ASSESSMENT OF STUDENT LEARNING****2.1. Relationship between Assessment and Learning Outcomes**

- 2.1.1. Explain how assessment principles, methods and practices contributed to the achievement of programme learning outcomes at MQF level 6. Show evidence of constructive alignment.
- 2.1.2. Describe how the alignment between assessment and learning outcomes is regularly reviewed to ensure its effectiveness (please provide policy on the review, if any). Provide evidence.

**2.2. Assessment Methods**

- 2.2.1.
  - a) Describe how a variety of assessment methods and tools are used in assessing learning outcomes and competencies.
  - b) Show the utilisation of both summative and formative assessment methods within the programme. Highlight the new assessment introduced in the revised curriculum (if applicable).
  - c) Provide the proposed assessment blueprint.
- 2.2.2.
  - a) Explain how the medical school ensures the validity, reliability, integrity, currency and fairness of student assessment over time and across sites (if applicable).
  - b) Indicate the authority and processes for verifying and moderating summative assessments.
  - c) What guidelines and mechanisms are in place to address assessment misconduct among students?
- 2.2.3.
  - a) Describe the student assessment methods in terms of their duration, diversity, weight, criteria and coverage. Describe the grading system used. How are these documented and communicated to the students?

- b) Explain how the department plans to provide feedback to the students on their academic performance to ensure that they have sufficient time to undertake remedial measures.
- c) How are results made available to the students for purposes of feedback on performance, review and corrective measures?
- d) Explain the mechanism to review and implement new methods of assessment. Explain the processes involved in changing the assessment method.

2.2.4. How are students notified of changes in assessment?

### **2.3. Management of Student Assessment**

- 2.3.1. Explain the roles, rights, and autonomy of the medical school and the academic staff in the management of student assessment.
- 2.3.2. Describe the procedures used to guarantee the security and confidentiality of student assessment and academic records.
- 2.3.3. Explain how and when continuous and final assessment results are made available to students.
- 2.3.4. Provide information on the appeal policy. What are the standard operating procedures and guidelines on students' appeals against assessment results?
- 2.3.5. Explain how the medical school periodically reviews the management of student assessment and measures it takes to address the issues highlighted by the review.

**ANY OTHER RELEVANT INFORMATION RELATES TO THE REVISED CURRICULUM (Example- staff development programme, benchmarking visit to other institution etc)**

**SECTION 7**  
**GUIDELINES FOR**  
**PREPARING THE**  
**PROGRAMME**  
**ACCREDITATION**  
**REPORT**

## **SECTION 7**

### **GUIDELINES FOR PREPARING THE PROGRAMME ACCREDITATION REPORT**

#### **AREA 1 - PROGRAMME DEVELOPMENT AND DELIVERY**

##### **1.1. Statement of Educational Objectives of Academic Programme and Learning Outcomes**

- 1.1.1. How does the programme relate to, and is consistent with, the larger institutional goals of the HEP?
- 1.1.2. What is the evidence that shows the demand for this programme? How was the programme's needs assessment conducted?
- 1.1.3. Comment on the relevance, clarity and specificity of the programme educational objectives, programme learning outcomes, teaching and learning strategies, and assessment, and the constructive alignment between them.
- 1.1.4. Comment on the alignment of the programme learning outcomes to the MQF level descriptors and the five clusters of MQF learning outcomes.
- 1.1.5. Evaluate the link between the student's competencies expected at the end of the programme and those required by the Ministry of Health as well as for purposes of higher studies.

##### **1.2. Programme Development: Process, Content, Structure and Teaching-Learning Methods**

- 1.2.1. Evaluate the level of autonomy given to the department in the design of the curriculum and in the utilisation of the allocated resources available to the department. How does the above vary with collaborative programmes and joint programmes? (if applicable)
- 1.2.2. Comment on the appropriateness of the processes, procedures, and mechanisms by which the curriculum is developed and approved.
- 1.2.3.
  - (a) Evaluate stakeholders' involvement in curriculum development.
  - (b) Evaluate the effectiveness of the involvement of educational experts (medical educationists) in the development of the curriculum.

## 1.2.4.

- (a) Does the curriculum fulfil the requirements of an undergraduate medical programme in line with good practices in the field?
- (b) Evaluate the overall content of the curriculum as presented in Table 4. using the Table Evaluation Form (Appendix 10). Comment on the alignment of the course learning outcomes to the programme learning outcomes, as well as to the teaching and assessment methods, as presented in Table 4: Item 8.
- (c) At the macro level, are the programme's content, approach and teaching-learning methods appropriate and consistent, and do they support the achievement of the programme's learning outcomes?
- (d) Evaluate the diverse teaching-learning methods that help to achieve the learning outcomes and ensure that students take responsibility for their own learning.

1.2.5. Evaluate the appropriateness of teaching and learning methods applied to achieve the objectives and learning outcomes of the programme. (*This is to be read together with information in 1.1.3.*)

1.2.6. Comment on the co-curricular activities available for the students to enrich their experience, and to foster personal development and responsibility.

### 1.3. Programme Delivery

1.3.1. Evaluate the methods and approaches used by the medical school to ensure the effectiveness of delivery in supporting the achievement of course and programme learning outcomes.

1.3.2. Evaluate their currency and appropriateness. Comment on how students are informed about the key elements of the programme.

## 1.3.3.

- (a) Comment on how the programme is managed. Who is responsible for the planning, implementation, and improvement of the programme? Is he/she appropriate for the responsibility? How effective is the academic team in managing the programme?
- (b) Evaluate the adequacy of the resources provided to the programme team to implement teaching-learning activities, and to conduct programme evaluation for quality improvement.

1.3.4. Does the medical school provide students with favourable conditions for teaching and learning? Explain how?

1.3.5. Comment on the innovative efforts made by the medical school to improve teaching, learning and assessment.

1.3.6. Comment on how the medical school obtains feedback and uses it to improve the delivery of the programme outcomes.

## AREA 2: ASSESSMENT OF STUDENT LEARNING

### 2.1. Relationship between Assessment and Learning Outcomes

- 2.1.1. Comment on the alignment between assessment, learning outcomes, and MQF level.
- 2.1.2. Comment on the policy (if any) and the effectiveness of regular reviews in aligning assessment and learning outcomes.

### 2.2. Assessment Methods

- 2.2.1. Evaluate the effectiveness of the various methods and tools in assessing learning outcomes and competencies - evidence of formative and summative assessment.
- 2.2.2.
  - (a) Evaluate how the medical school ensures the validity, reliability, integrity, currency, and fairness of the assessment methods.
  - (b) Comment on the guidelines and mechanisms to address academic plagiarism among students.
  - (c) How and how often is the method of assessment reviewed?
- 2.2.3.
  - (a) How frequently and at what point are the assessment methods and appeal policies documented and communicated to students?
  - (b) Are the grading and assessment practices publicised? If so, comment on the evidence provided in the publications. How widely is this carried out?
  - (c) How does the medical school ensure due process as well as opportunities for fair and impartial hearings?
  - (d) Are the grading, assessment and appeal policies published consistent with the actual practices?
- 2.2.4. How are changes to the student assessment methods made? How are they communicated to the students?

### 2.3. Management of Student Assessment

- 2.3.1. Comment on the roles, rights and power of the department and the academic staff in the management of student assessment.
- 2.3.2. Comment on the mechanisms to ensure the security of assessment documents and records.

- 2.3.3. How promptly do students receive feedback on their performance? Are the final results released before the commencement of a new semester?
- 2.3.4. Evaluate the guidelines and mechanisms for students' appeals against course results.
- 2.3.5. Evaluate the periodical review on the management of student assessment undertaken by the medical school and actions taken to address the issues highlighted by the review.

### AREA 3: STUDENT SELECTION AND SUPPORT SERVICES

#### 3.1. Student Selection

##### 3.1.1.

- (a) Comment on the clarity and appropriateness of the HEP's policies on student selection and student transfer, including those in relation to students with special needs?
- (b) How does the HEP ensure that the selected students have the capabilities and fulfill the admission policies that are consistent with applicable requirements?

##### 3.1.2.

- (a) Comment on the public dissemination of the selection criteria and mechanisms for student selection.
- (b) When additional selection criteria are utilised, examine their structure, objectivity and fairness.
- (c) How does the department ensure that the student selection process is free from unfair discrimination and bias?

##### 3.1.3.

- (a) Comment on the information of the past, present, and forecasted (refer to Item 16, Part B) student intake in relation to the medical school's capacity to effectively deliver the programme. Comment also on the proportion of applicants to intake.
- (b) How does the HEP ensure the availability of adequate resources to admit "non-conventional", i.e., visiting, elective, exchange, and transfer students?

3.1.4. Comment on the policies and practices (if applicable) for appeal on student selection.

3.1.5. Evaluate the developmental and remedial support available to the students who need it.

#### 3.2. Articulation and Transfer

3.2.1. Comment on how the medical school facilitates national and transnational student mobility.

3.2.2. Comment on the procedures to determine the comparability of achievement of incoming transfer students.

### 3.3. Student Support Services

3.3.1.

(a) Evaluate the adequacy and quality of student support services listed. How do they contribute to the quality of student life?

(b) If programmes are conducted across campuses that are geographically separated, how is student support provided at the branch campuses? How well do these mechanisms work?

3.3.2.

(a) Comment on the unit responsible for planning and implementing student support services? How does it fit into the overall structure of the organisation in terms of hierarchy and authority? How qualified is the staff of this unit? Who does the head of this unit report to?

(b) How prominent are the student support services compared to other major administrative areas within the HEP?

3.3.3. Appraise the orientation of incoming students.

3.3.4.

(a) Comment on the adequacy and qualifications of the academic, non-academic, and career counsellors.

(b) Evaluate the effectiveness of student counselling and support programmes, including plans for improvements in counselling staff and services.

3.3.5. Evaluate the mechanisms that exist to identify and assist students who require academic, spiritual, psychological and social support.

3.3.6. Comment on the processes and procedures in handling disciplinary cases involving the students.

3.3.7. Appraise the mechanisms for complaints and appeals on academic and non-academic matters.

3.3.8. Comment on the effectiveness of the evaluation of student support services.

### 3.4. Student Representation and Participation

- 3.4.1. Evaluate the policy and processes that are in place for active student engagement especially in areas that affect their interest and welfare.
- 3.4.2. Evaluate the adequacy of student representation and organisation at the institutional and medical school levels.
- 3.4.3.
  - (a) Comment on students' linkages with external stakeholders.
  - (b) Evaluate the medical school's role in facilitating students to gain managerial, entrepreneurial and leadership skills in preparation for the workplace.
- 3.4.4. Evaluate how the medical school facilitates student activities and organisations that encourage character building, inculcate a sense of belonging and responsibility, and promote active citizenship.

### 3.5. Alumni

- 3.5.1.
  - (a) Evaluate the department's linkages with alumni.
  - (b) Evaluate the involvement of the alumni in programme development, review, and continuous improvement.

**AREA 4: ACADEMIC STAFF****4.1. Recruitment and Management**

- 4.1.1. Evaluate the consistency of the medical school's academic staff plan with HEP's policies and programme requirements.
- 4.1.2.
- (a) Appraise the academic staff selection policy, criteria, procedures, terms and conditions of service in terms of getting adequately qualified and/or experienced staff.
  - (b) Comment on the due diligence exercised by the medical school in ensuring that the qualifications of academic staff are from *bona fide* institutions.
- 4.1.3. Assess the appropriateness of the staff–student ratio to the programme and the teaching methods used.
- 4.1.4.
- (a) Assess whether the medical school has adequate, qualified academic staff, including part-time staffs, to implement the programme.
  - (b) Comment on the turnover of the academic staff for the programme (for Full Accreditation only).
- 4.1.5. Assess the policies and procedures on work distribution. Is the workload equitably distributed? (Refer to Table 5 for information on workload distribution.)
- 4.1.6. How does the medical school ensure diversity among the academic staff in terms of experience, approaches, and backgrounds?
- 4.1.7.
- (a) How does appraisal of academic staff take into account their involvement in professional, academic, and other relevant activities, at national and international levels?
  - (b) Are the policies, procedures, and criteria for recognition through promotion, salary increment, or other remuneration of the academic staff clear, transparent, and merit-based?
- 4.1.8. Evaluate the nature and extent of the national and international linkages and how these enhance teaching and learning in the programme.

## 4.2. Service and Development

- 4.2.1. Comment on the medical school's policy on service, development and appraisal of the academic staff.
- 4.2.2. Comment on the opportunities given to the academic staff to focus on their areas of expertise, such as curriculum development, curriculum delivery, supervision of students, research and writing, scholarly and consultancy activities, community engagement, and academically related administrative duties.
- 4.2.3.
  - (a) Comment on the HEP's policies on conflict of interest and professional conduct.
  - (b) Comment on the HEP's procedures for handling disciplinary cases.
- 4.2.4. Evaluate the mechanisms and processes for periodic student evaluation of the academic staff. Assess how this feedback is used to improve quality.
- 4.2.5.
  - (a) Evaluate the extent and effectiveness of the academic staff development scheme.
  - (b) Assess the formative guidance and mentoring provided for new academic staff.
  - (c) Comment on the organised support available to assist academic staff to enhance teaching expertise in line with current trends in pedagogy, curriculum design, instructional materials, and assessment.
- 4.2.6.
  - (a) Evaluate the support provided by the HEP and/or medical school for academic staff to participate in national and international activities.
  - (b) How useful is this participation for enriching the teaching-learning experience?
- 4.2.7. Comment on how the department encourages and facilitates academic staff in community and industry engagement activities.

## AREA 5: EDUCATIONAL RESOURCES

### 5.1. Physical Facilities

#### 5.1.1.

- (a) Evaluate the sufficiency and appropriateness of physical facilities including clinical facilities for the effective delivery of the curriculum, particularly when there is sharing of clinical facilities by more than one institution.
- (b) Evaluate the adequacy and appropriateness of equipment and facilities provided for practical-based programmes and for students with special needs.

5.1.2. Examine evidence of compliance of the physical facilities with relevant laws and regulations, including licensing requirements.

#### 5.1.3.

- (a) Evaluate the adequacy of the library services.
- (b) Evaluate the adequacy and suitability of learning spaces in and around the library.
- (c) Comment on the quality of the library's databases and bibliographic search, computer and audio-visual capabilities in relation to the programme.

#### 5.1.4.

- (a) Evaluate how the HEP maintains, reviews and improves the adequacy, currency and quality of educational resources and assess the role of the department in these processes
- (b) Assess the condition and the provision for the maintenance of the physical learning facilities.

#### 5.1.5.

- (a) Evaluate the effectiveness of the policy on the ethical use of information and communication technology, including social media.
- (b) Evaluate the adequacy and accessibility of web-based or other electronic media to students and staff.

### 5.2. Research and Development

#### 5.2.1.

- (a) Appraise the research policy. How does the department policy foster the relationship between research and scholarly activity and education?
- (b) Comment on the research priorities, allocation of budget, and facilities provided.
- (c) Comment on the extent of research activities in the department by looking into the number of academic staff members who are principal investigators, the value of research grants, and the priority areas for research.

5.2.2. Evaluate the interaction between research and learning reflected in the curriculum. How does it influence current teaching, and prepare students for engagement in research, scholarship, and development?

5.2.3. Comment on the effectiveness of the medical school's review of its research resources and facilities. Comment on the steps taken to enhance its research capabilities and environment.

### 5.3. Financial Resources

5.3.1. Comment on the financial viability and sustainability of the HEP to support the programme based on the certified financial statement provided by the institution, or indirect indicators such as staff salary, assets and maintenance of assets

5.3.2.

(a) Evaluate the medical school's procedures to ensure that its financial resources are sufficient and managed efficiently

(b) Are there indications that budgetary constraints are compromising the quality of the programme? If there is a current or potential financial imbalance in this regard, does the HEP have a credible plan to address it?

5.3.3. Comment on the responsibilities and lines of authority of the HEP with respect to budgeting and resource allocation for the department.

### 5.4 Educational Expertise

(a) Evaluate the policy on the use of educational expertise in curriculum development and the development of teaching-learning and assessment methods.

(b) Comment on the use of in-house or external educational expertise in staff development.

## AREA 6: PROGRAMME MANAGEMENT

### 6.1. Programme Management

#### 6.1.1.

- (a) Comment on the management structures and functions of the medical school and how their relationship within the department is defined. How are these communicated to all stakeholders involved, in line with the principles of transparency, accountability, and authority?
- (b) Comment on the structure and composition of the committees in the department.
- (c) What effect do these relationships have on the programme?

6.1.2. Comment on the policies and procedures to ensure accurate, relevant, timely, and easily accessible and publicly accessible information about the programme, especially to prospective students.

#### 6.1.3.

- (a) Comment on the policies, procedures and mechanisms for regular review and updating of the department's structures, functions, strategies, and core activities.
- (b) Comment on the continuous quality improvement resulting from these policies, procedures, and mechanisms.

6.1.4. Comment on the academic board of the department as an effective decision-making body and its degree of autonomy.

6.1.5. Comment on the arrangement between the main campus and the branch campuses or partner institutions. Evaluate the mechanisms that ensure functional integration and the comparability of educational quality.

6.1.6. Comment on the evidence of internal and external consultations, and graduate employability analyses. For a new programme, comment on the market needs analysis.

### 6.2. Programme Leadership

6.2.1. Comment on the criteria for the appointment and the responsibilities of the programme leader.

#### 6.2.2.

- (a) Comment on the appropriateness and suitability of the programme leader.

(b) Evaluate the effectiveness of the programme leader's relationship with the academic staff and students.

6.2.3. Comment on the mechanisms and processes of communication between the programme leader, department, and HEP on matters such as staff recruitment and training, student admission, allocation of resources, and decision-making processes.

### 6.3. **Administrative Staff**

6.3.1. Comment on the appropriateness and sufficiency of the administrative staff who support the implementation of the programme.

6.3.2. Evaluate how the medical school reviews the performance of the administrative staff of the programme.

6.3.3. Evaluate the effectiveness of the training scheme for the advancement of the administrative staff and how it fulfils the current and future needs of the programme.

### 6.4. **Academic Records**

6.4.1.

(a) Comment on the policies and practices of the nature, content, and security of student, academic staff, and other academic records

(b) Evaluate the policies and practices on retention, preservation and disposal of these records.

6.4.2. Evaluate the maintenance of student records by the medical school relating to their admission, performance, completion, and graduation.

6.4.3. Evaluate the implementation of the policy on privacy and the confidentiality of records.

6.4.4. Comment on the effectiveness of the department's review of its policies on security of records and safety systems.

## AREA 7: PROGRAMME MONITORING, REVIEW AND CONTINUAL QUALITY IMPROVEMENT

### 7.1. Mechanisms for Programme Monitoring, Review and Continual Quality Improvement

7.1.1. Comment on the policies and mechanisms for regular monitoring and review of the programme.

7.1.2. Assess the roles and responsibilities of the Quality Assurance unit responsible for the department's internal quality assurance.

7.1.3.

(a) Comment on the structure and workings of the programme monitoring and review committee.

(b) Evaluate the frequency and effectiveness of the mechanisms for monitoring and reviewing the programme in identifying strengths and weaknesses to ensure the achievement of programme learning outcomes

(c) How are the findings from the review utilised to improve the programme?

(d) How current are the contents and how are these updated to keep abreast with the advances in the discipline and to meet the current needs of society?

7.1.4.

(a) How does the medical school ensure stakeholder involvement in a programme review?

(b) Comment on the nature of their involvement and how their views are taken into consideration.

7.1.5. Evaluate how the programme review report is made accessible to stakeholders and how their views are used for future development of the programme.

7.1.6.

(a) Evaluate how the various aspects of student performance, progression, attrition, graduation and employment are analysed for continual quality improvement.

(b) Comment on the rate of attrition and the reasons for it.

7.1.7. In collaborative arrangements, evaluate the relationship between the parties involved in programme monitoring and review.

7.1.8. Evaluate how the findings of the review are disseminated to the HEP. Comment on the action taken thereon.

7.1.9. Evaluate the integral link between the departmental quality assurance processes and the achievement of the institutional purpose.

**APPENDIX 1**  
**MQF 2ND EDITION**  
**DOMAINS/  
CLUSTERS OF  
LEARNING  
OUTCOMES**

**Appendix 1****A. MQF 2<sup>nd</sup> edition Domains/Clusters of Learning Outcomes**

In MQF 2<sup>nd</sup> edition, the 8 learning domains in MQF first edition have been clustered, re-profiled and retained. The listed outcomes resonate and mostly align with the aspirations of the National Education Philosophy (1961), the Malaysia Education Blueprint 2013-2025 as well as the Malaysia Education Blueprint 2015-2025 (Higher Education). The MQF 2<sup>nd</sup> edition is linked to, and a continuum of, the educational outcomes from basic education to higher education as set in the national blueprints.

These learning outcomes clarify the demands and complexities of learning by each level. It is within the context of study and/or work/practice situations, where for example, knowledge and understanding is required concurrently as these traits are dominant and important in pursuing higher education and advanced skills training. The five clusters of learning outcomes are:

1. Knowledge and understanding
2. Cognitive skills
3. Functional work skills with focus on:
  - a. Practical skills
  - b. Interpersonal skills
  - c. Communication skills
  - d. Digital skills
  - e. Numeracy skills
  - f. Leadership, autonomy and responsibility
4. Personal and entrepreneurial skills
5. Ethics and professionalism.

**B. Description on Learning Outcomes Clusters and Application Context****1. Knowledge and Understanding**

Knowledge and understanding refers to a systematic understanding of facts, ideas, information, principles, concepts, theories, technical knowledge, regulations, numeracy, practical skills, tools to use, processes and systems.

It may relate to a subject, a field of study or discipline as well as to technical and occupational or workplace aspects of knowledge and understanding. It starts with basic general knowledge and progress to varied, broader, specialised and advanced knowledge including those relating to sustainable practices, rules and regulations, health and safety, especially relevant to TVET type and even professional programmes.

The scope of knowledge should include the common everyday knowledge within the learners' environment. This may also be acquired through formal, informal, and non-formal learning circumstances-experiences. Developing personal values and ethics may derive from knowledge and experiences.

Knowledge and understanding enables the learners to relate to their prior knowledge in the course of learning or work as well as to expand to related fields. Knowledge provides the basis for applications of all other learning outcomes.

## **2. Cognitive Skills**

This relates to thinking or intellectual capabilities and the ability to apply knowledge and skills. The capacity to develop levels of intellectual skills progressively begins from understanding, critical/creative thinking, assessment, and applying, analysing, problem solving as well as synthesizing to create new ideas, solutions, strategies or new practices. Such intellectual skills enable the learner to search and comprehend new information from different fields of knowledge and practices.

## **3. Functional Work Skills**

### **a. Practical work skills**

These are generally work skills and operational skills applicable in common employment environment such as planning; organisational skills; selection of tools, material, technology methods and procedures, while in study context, it may include study skills and preparations, undertaking procedures, scientific skills, designs, research and so forth. It also includes specialised skills which are set by specific subject, discipline, technical or occupation-related work skills and professional practice which enhance professional competence. It should include safe and sustainable practices.

**b. Interpersonal skills**

Interpersonal skills refer to a range of skills which, amongst others, include interactive communications; relationships and collaborative skills in managing relationships in teams and within the organisations; networking with people of different cultures; as well as social skills/etiquette.

**c. Communication skills**

Communication skills refer generally to the ability to communicate/convey information/ideas/reports cogently and professionally in appropriate language. The communication must be effective and in appropriate forms, in various medium, to a range of audience and different situations. The ability to communicate in more than one language is encouraged.

**d. Digital skills**

Digital skills generally refer to the ability to use information/digital technologies to support work and studies. The skills include sourcing and storing information, processing data, using applications for problem solving and communication, as well as ethics in applying digital skills.

**e. Numeracy skills**

These are the quantitative skills that require learners to acquire increasingly higher levels of numerical abilities. It is acknowledged as an important living skill relevant in study, work and daily life. Within the MQF levels, this learning outcome may not be specifically mentioned for every level but it is expected that numerical skills are required as an outcome ought to be indicated for every specific programme. It may include understanding of basic mathematics, symbols relating to statistical techniques and etc.

**f. Leadership, autonomy and responsibility**

This cluster of skills refers to an individual's ability to build relationships and work with teams made up of peers or in managerial capacities with varying degrees of autonomy to make decisions or setting goals at organisational/unit/team levels; to take responsibilities and provide accountability; to be confident, knowledgeable, articulate, honest, professional, concerned, resilient, a risk taker and possess other intrapersonal skills including working in, and leading teams.

#### **4. Personal and Entrepreneurial Skills**

Personal skills are life skills that learners are expected to use daily. They are normally portrayed through enthusiasm for independent learning, intellectual and self-development; by demonstrating confidence, self-control; social skills and proper etiquette; and commitment to professionalism in the work place. It also includes capability to plan for career development or further education. Aspects of character such as honesty, punctuality, time management, keeping to and maintaining deadlines that are important in a work environment are also important personal skills.

Entrepreneurial skills require relevant knowledge, skills and expertise in key areas of an enterprise. Important personal qualities will include creativity, grit and drive. The learning outcomes describe incremental development of these skills. The drive to be an entrepreneur is set as personal skills but also requires the requisite of relevant knowledge, cognitive and functional skills.

#### **5. Ethics and Professionalism**

Ethics and values are important at personal, organisational, societal/community and global settings as they guide personal actions, interactions, at work and within the community at large. Awareness/understanding and respect of ethical, social and cultural differences and issues are important in the exercise of professional skills and responsibilities: integrity, professional conduct (professionalism), and standards of conduct such as upholding regulations, laws and codes of good practices or code of professional conduct. A sensitive approach in dealings with other cultures adds value to this learning domain.

**APPENDIX 2**  
**MQF 2ND EDITION –**  
**DESCRIPTORS FOR**  
**LEVEL 6**

## Malaysian Qualifications Framework edition 2.0: Level 6 Descriptors

MQF LEVEL	Summary of Learners' Profile	CLUSTER 1: Knowledge and Understanding	CLUSTER 2: Cognitive skills	CLUSTER 3: FUNCTIONAL WORK SKILLS				CLUSTER 4: Personal and entrepreneurial skills	CLUSTER 5: Ethics and Professionalism
				Practical skills	Interpersonal and Communication Skills	Digital and Numeracy Skills	Leadership, Autonomy and Responsibility		
Level 6 BACHELOR GRADUATE CERTIFICATE/ DIPLOMA	<p>Learners will demonstrate a thorough comprehension of broad based and coherent body of knowledge and skills for para and full professional work embedding research, innovation and creativity in specialized areas.</p> <p>Demonstrate professionalism, resilience commitment to an ethical work culture, sustainability issues and an awareness of global citizenship in alignment with national aspirations.</p>	Describe advanced and comprehensive, theoretical and technical knowledge and demonstrate relevant skills in a specialized field, or of a multidisciplinary nature related to the field of study, work and/or practice	<p>Demonstrate intellectual independence in the application of knowledge within specific field(s) by applying critical, analytical and evaluation skills in the field of study/work/practice.</p> <p>Manage, resolve complex applications and handle unpredictable issues with creative and innovative solution(s).</p> <p>Apply skill/ knowledge to a range of approaches in the field of study/work/practice.</p>	<p>Apply a range of essential methods and procedures to solving a broad range of complex problems.</p> <p>Review, make adjustments and supervise related practices and processes concerning field of specialization.</p>	<p>Convey ideas both in written or oral forms using appropriate and different forms of presentation, confidently, accurately and coherently in appropriate context in a well-structured manner to a diversity of audiences.</p> <p>Work together with different people in diverse learning and working communities as well as other groups locally and internationally.</p>	<p>Use a broad range of information, media and technology applications to support study and/or work.</p> <p>Use and combine numerical and graphical/visual data for study/work.</p>	<p>Work autonomously, and show leadership and professionalism in managing responsibilities within broad organizational parameters.</p> <p>Undertake significant levels of work related responsibilities of others as well as self.</p> <p>Demonstrate decision making capacities professionalism by working towards pre-determined goals and outcomes</p> <p>Demonstrate accountabilities, especially in professional fields.</p>	<p>Engage effectively in self-directed lifelong learning and professional pathways.</p> <p>Demonstrate entrepreneurial competency with selected project(s).</p> <p>Demonstrate an appreciation of broader socio- political economic and cultural issues at local/national and regional level.</p>	<p>Demonstrate adherence, and ability to identify ethical issues, make decision ethically, and act professionally within the varied social and professional environment and practice.</p> <p>Demonstrate a deep familiarity and knowledge of local and global issues relating to science, technology, business, social and environmental issues.</p>

**APPENDIX 3  
GUIDELINE ON  
CREDIT VALUE AND  
STUDENT  
LEARNING  
TIME (SLT)**

## Appendix 3

**Guideline on Credit Value and Student Learning Time (SLT)**

A credit is a quantitative measurement for all learning activities required to achieve the learning outcomes.

**Notional Learning Time**

1 Credit = 40 notional hours

**Recommended Student Learning Time (SLT)**

Elective: 80 notional hours = 1 credit

[Please tick (✓) industrial training/clinical placement in item 10 of Table 4]

20-22 credits per semester

Minimum 200\* credits in 5 years

Note: \* Total credit value inclusive of MPU and other university subjects

Maximum duration of one academic session should not exceed 46 weeks (including the revision and examination)

**Proposed Student Independent Learning Time****A. General Teaching –learning activities**

	Teaching – learning activities/ method (TLA/TLM)	Face to face (F2F)		NF2F Independent Learning (Asynchronous)	Total SLT
		Physical	Online/ technology-mediated (Synchronous)		
1	Lecture	1	-	1-2	2-3
	Lecture		1	1-2	2-3
2	Tutorial	1	-	1-2	2-3

	Tutorial		1	1-2	2-3
3	Laboratory/Practical	2	-	1-2	3-4
4	Presentation-presenter (e.g. seminar)	1	-	4	5
5	Presentation-attendee (e.g. seminar)	1	-		1
6	*Self-learning packages (SLP) / Directed self learning	-	-	2	2
7	*Self-directed learning (SDL)	-	-	2	2
8	Field work	1-2	-	0	1-2
9	Problem-based Learning (PBL)	4 (2 sessions)	-	8	12
10	Case-based Learning (CBL)	1	-	1	2
11	Project-based Learning	2	-	2-3	4-5
12	Team-based learning (TBL)	2	-	4	6
13	Flip classroom	1	-	2	3
14	E-learning / Gamification	1	-	1	2
15	Visit	4	-		4
16	Small group discussion	1		1	2

	Small group discussion		1	1	
--	------------------------	--	---	---	--

\* it should be stated in the time table

### B. Clinical learning

Teaching –learning activities/ method (TLA/TLM)	Face to face	NF2F Independent Learning	Total SLT
Ward work	-	1	0.5 - 1 (*ELT)
Ward round (attende	1	-	1
Ward round (presenter)	0.5	4 - 6	4.5 - 6.5
Bedside teaching (attende	1	0 - 2	1 - 3
Bedside teaching (presenter)	1	3	4
Workshop	2	-	2
CPC	1	-	1
Simulation based learning (With supervision)	2	-	2
Simulation based learning (without supervision)	-	2	2
On call	1	-	0.5 (*ELT)
Clinic attachment	1	-	0.5 - 1 (*ELT)
OT attachment	1	-	0.5 - 1 (*ELT)

### C. Assessment (general)

Assessment	Percentage (%)	Face 2 Face		NF2F Independent Learning (Asynchronous)	Total SLT (in hours)
		Physical	Online/ technology-		

			<b>mediated (Synchronous / direct observation )</b>		
Continuous assessment (CA)/ Formative assessment (FA) *		1	-	3	4
Continuous assessment (CA)/ Formative assessment (FA) *			1	3	4
Final Examination		3	-	10	13

**Note:** \* Assessments that are not embedded in teaching-learning

#### D. Assessment (Clinical)

<b>Assessment method</b>	<b>Face 2 Face</b>	<b>NF2F Independent Learning</b>	<b>Total SLT</b>
Assignment/ Case write-up/ Case report 1000- 2000 words	-	10 - 20	10 - 20
Mini-CEX/CBD/DOPS	1	3	4
*Supervisor report	-	-	-
*Log book	-	-	-
*Presentation (e.g: seminar/PBL assessment)	-	-	-
Portfolio	-	-	-

\* already calculated in A or B

{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}

**APPENDIX 4  
EXAMPLE  
FRAMEWORK OF  
UNDERGRADUATE  
MEDICAL  
CURRICULUM**

## Appendix 4

**Example Framework of Undergraduate Medical Curriculum****1.1 Curriculum Structure**

Medical school curriculum should be able to give medical students:

- a. early contact with patients that increases in duration and responsibility as students' progress through the programme.
- b. experience in a range of specialties (including general practice, medicine, obstetrics and gynaecology, paediatrics, psychiatry and surgery), in a variety of settings, with the diversity of patient groups that they would see when working as a doctor.
- c. experience of following patients through their care pathway.
- d. the opportunity to gain knowledge and understanding of the needs of patients from diverse social, cultural and ethnic backgrounds and with a range of disabilities, illnesses or conditions.
- e. learning opportunities that integrate basic and clinical science, enabling them to link theory and practice.
- f. the opportunity to develop their clinical and practical skills through technology enhanced learning opportunities, with the support of teachers, before using skills in a clinical situation.

**1.2 Curriculum Content**

The core curricular content that will provide a comprehensive coverage are:

- i. Biomedical scientific principles relating to anatomy, biochemistry, cell biology, genetics, immunology, microbiology, molecular biology, nutrition, pathology, pharmacology and physiology
- ii. Behavioural, population and clinical sciences relevant to the healthcare and health maintenance of adults and children
- iii. Clinical skills, such as taking a detailed medical history, physical and mental state examination, formulating a diagnosis and management plan
- iv. Acute care (medical and surgical emergency) skills and procedures relevant to practice at the level of a houseman
- v. General Medicine
- vi. General Surgery
- vii. Family Medicine
- viii. Geriatric Medicine and Palliative Medicine
- ix. Psychiatry
- x. Obstetrics and Gynaecology
- xi. Paediatrics
- xii. Orthopaedics
- xiii. Otorhinolaryngology (ORL)
- xiv. Ophthalmology
- xv. Forensic medicine
- xvi. Anaesthesiology

- xvii. Health systems
- xviii. Communication skills
- xix. Ethics and professionalism
- xx. Leaderships, teamwork, managerial and entrepreneurial skills
- xxi. Interprofessional education and interprofessional collaborative practice
- xxii. Research (scientific method, critical appraisal and evidence-based medicine)

The medical school curriculum should be structured using a wide range of curriculum models, such as system-based, case-based and discipline-based learning, to provide balanced and varied learning opportunities. The curriculum should include both horizontal (concurrent) and vertical (sequential) integration of curricular components that would link biomedical, clinical and behavioural/social sciences, hence enabling students to link theory with practice.

The examples of specific recommendations, are outlined below:

### **General Medicine and General Surgery**

- i. The exposure to General Medicine and General Surgery respectively offers a unifying clinical perspective that integrates all the patients' evaluations, treatments as well as his/her overall wishes and values (patient autonomy).
- ii. General Medicine or General Surgical Training should not be considered as a mere summation of subspecialty training.
- iii. The medical schools should liaise with hospitals in posting students to General Medical units and General Surgical units wherever possible, in preference to subspecialty units – so that the students will have opportunities to see patients presenting with an 'undifferentiated' diagnosis or multiple clinical diagnoses. Where they are posted to subspecialty wards, it is preferable to ensure that they are taught general principles on Surgery and Medicine in general.

### **Family Medicine**

- i. There must be early and adequate student exposure to Family Practice.
- ii. May include continuous healing relationships, whole person orientation, family and community context and comprehensive care.
- iii. May include engagement of private General Practitioners.

### **Communication skills**

- i. In the medical school curriculum blueprint, core skills in communication skills should include:
  - a. Effective doctor-patient relationship
  - b. Communication about the patient
  - c. Communication about medicine and science
- ii. There should be early, horizontal integration of such communication skills into the curriculum.

- iii. The curriculum should provide opportunities for students to practise their presentation skills and be observed while doing it, so that it is not just assumed that what is taught has been assimilated.

### **Ethics and Professionalism**

- i. Individual medical schools should run concurrent teaching activities within and outside of the students' clinical attachments to reinforce theoretical principles of medical ethics and professionalism.
- ii. It is recommended that those involved in teaching ethics in medical schools are conversant in the subject.

### **Interprofessional education (IPE) and Interprofessional collaborative practice (IPP)**

- i. The occurrence of two or more health or social professions learning interactively about, from and with each other, all with the common goal of enabling effective collaboration and improving patient health outcomes.
- ii. Interprofessional practice in health-care occurs when multiple health workers from different professional backgrounds provide comprehensive services by working with patients, their families, caregivers and communities to deliver the highest quality of care across settings.

### **Research**

- i. The curriculum must clearly define core as well as elective competencies in the areas of research.
- ii. Research core skills may include understanding various types of clinical studies, literature research, critical appraisal of scientific journals and translational research.
- iii. Research elective skills may include: research methodology and design, biostatistics, qualitative research methods, writing a research proposal, scientific paper writing skills and conducting and reporting on a research project.

### **The Malaysian Qualifications Framework (MQF) Requirement (2024)**

The Malaysian Qualifications Framework (MQF), which was mandated under the Malaysian Qualifications Agency (MQA) Act 2007, has a key role to “ensure a holistic graduate development through the Five Clusters of Learning Outcomes, with emphasis on Values-Based Education (VBE). In addition, sustainability key competencies advocated in Education for Sustainable Development (ESD) should also be related to and integrated into the Five Clusters of Learning Outcomes.” Item 2 page 3. Furthermore, as stated in the legislation, “No programme will be accredited unless it is in compliance with the Framework.” Item 4 page 4.

MQA, in its circular 5/2024 dated 1 August 2024, had notified all Malaysian higher education providers of the changes in the Malaysian Qualifications Framework Second

Edition 2024. The HEPs are given two years of transitional period (until end of July 2026) to integrate the revised framework into their educational programmes.

- a. Value-Based Education (VBE) and Education for Sustainable Development (ESD)
  - i. The HEP is required to integrate and evaluate VBE and ESD in their undergraduate medical education programme. The implementation of integration is according to the HEP's own practice. Evidence of integration and evaluation must be made available during accreditation.
- b. Flexible Learning Pathways (FLP)
  - i. The HEP is allowed to implement FLP as long as it did not breach the minimum entry requirements set by MMC and the guidelines for credit transfer.
- c. Global Sustainability Agenda (GSA)
  - i. The HEP is required to integrate GSA in their undergraduate medical education programme. The integration can be done into the core curriculum, co-curriculum or as a separate student activity.

*{Approved by the Malaysian Medical Council: (MPM 459, 28 Oktober 2025)}*

**APPENDIX 5  
MINIMUM  
QUALIFICATIONS  
FOR ENTRY INTO  
MEDICAL  
PROGRAMME  
EDITION 1/2024  
(ENFORCED 29  
OCTOBER 2024)**

## Appendix 5

## AMENDMENT

An Amendment to the Minimum Qualifications for Entry into Medical Programme requirement to item C (5) (b) **effective from 29 October 2024** are as below (Refer to page 4).

	ORIGINAL	AMENDMENT
<b>No.</b>	Minimum Qualifications for Entry into Medical Programme ( <b>Effective 1 January 2024</b> )	Minimum Qualifications for Entry into Medical Programme ( <b>Effective 29 October 2024</b> )
<b>1.</b>	<p>C (5). All applicants shall have passed and attained a minimum of the following at:</p> <p>(b) Matriculation, foundation or pre-medical programme or its equivalent (All applicants must fulfill the requirement at SPM/ O-level or its equivalent.</p> <p>For international qualification, if the institution is able to provide evidence that the matriculation, foundation or pre-medical programme is equivalent to Cambridge A-Level and eligible to pursue medical degree at home country, please refer to 5 (a).</p> <p>Documentation of the equivalency by the relevant authorities of the country of origin must be kept by the institution and made available during the accreditation/monitoring exercise:</p>	<p>C (5). All applicants shall have passed and attained a minimum of the following at:</p> <p>(b) Matriculation, foundation or pre-medical programme or its equivalent (All applicants must fulfill the requirement at SPM/ O-level or its equivalent.</p> <p>For international qualification (<b><i>in the absence of SPM/O-Level qualification</i></b>), if the institution is able to provide evidence that the matriculation, foundation or pre-medical programme is equivalent to General Certificate of Education Advanced (“A”) levels, please refer to 5 (a).</p> <p>The application for <b><i>qualification equivalency</i></b> can be made to ENIC NARIC or Scholaro.</p> <p>Documentation of the equivalency must be kept by the institution and made available during the accreditation/monitoring exercise.</p>

Note : Approved by MoHE as stated in the letter dated 29 October 2024, reference no JPT(A)1000/016/018/01 JLD.32(55).

**MINIMUM QUALIFICATIONS FOR ENTRY INTO A MEDICAL PROGRAMME****A. The selection for admission to a medical programme implies selection for the medical profession.**

A person who is qualified in Medicine from a medical programme recognized by the Malaysian Medical Council (“Council”) is entitled to be provisionally registered by the Council (Section 12 Medical Act). The fitness to practise Medicine of the intended applicant shall have to be considered in the selection for entry into any medical programme.

**B. The practice of Medicine requires the highest standards of professional and personal conduct as well as professional competence.**

1. Although some students have attained the academic standards required, they will not be suitable to a career in Medicine. It is in the interest of the public and such students that they should not gain admission, rather than to have to leave the course or the profession subsequently.
2. It is the responsibility of the medical school to ensure that there are no particular circumstances that will impact upon an applicant’s fitness to practice upon graduation.
3. All applicants shall declare if they have:
  - been found guilty of any criminal offence(s);
  - serious physical or mental illness; and/or
  - serious communicable disease(s)which may impact upon their future practice.
4. A person with any of the following shall be disqualified from entry into a medical programme:
  - found guilty of offence(s) affecting the human body; and/or
  - recent or serious dishonesty e.g. cheating at examinations, falsification of documents, plagiarism; and/or
  - serious physical or mental illness; and/or
  - serious communicable disease(s).
5. Any failure to declare information that has a material influence on a student’s fitness to practise may lead to the termination of their medical course, as honesty, integrity and good health are essential attributes of a doctor and by extension, the medical student.
6. In the event of any doubt, the medical school shall seek clarification from the Council.
7. All decision makers of medical schools and aspiring applicants are advised to study the Council’s document “The duties of a doctor” and other Council guidelines available at [www.mmc.gov.my](http://www.mmc.gov.my).

**C. A high level of academic attainment is expected.**

1. An understanding of science, in particular chemistry and biology, is central to the understanding of Medicine. However, the Council recognizes the diversity of subjects taken by applicants and the contributions of those who entered medical schools with other qualifications.
2. All applicants shall have attained a level of competence in English to enable them to complete the course successfully.
3. All applicants entering the medical programme via matriculation, foundation or pre-medical programme, except those with a degree qualification, STPM or A level shall have passed and attained a minimum of the following at School Certificate level or its equivalent:

Examinations	Requirements
<b><i>Sijil Pelajaran Malaysia (SPM)</i></b>	5 Bs each in <ul style="list-style-type: none"> <li>• Biology and</li> <li>• Chemistry and</li> <li>• Physics and</li> <li>• Mathematics or Additional Mathematics and</li> <li>• another subject</li> </ul>
<b><i>General Certificate of Education Ordinary (“O”) levels</i></b>	5 Bs each in <ul style="list-style-type: none"> <li>• Biology and</li> <li>• Chemistry and</li> <li>• Physics and</li> <li>• Mathematics or Additional Mathematics and</li> <li>• another subject</li> </ul>

**Note:**

- i. Any applicants with School Certificates that is not mentioned in this guideline must refer to ‘The List of Entry Qualifications for International Students’ by Malaysian Qualifications Agency (MQA) for the purpose of qualification equivalency;
- ii. Combination of SPM and O-Level results is allowed to fulfill the entry requirement as stated in *Keputusan Mesyuarat Jawatankuasa Induk MQA-SPIPTS Bil.1/2009* dated 11 May 2009 and *Keputusan Mesyuarat MQA Bil.4/2009* dated 27 May 2009 (*Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi (2009 – 2020: Edisi Ketiga) (Pindaan 2)*).

4. All applicants with a Unified Examination Certificate (UEC) who enter a matriculation/ foundation/ pre-medical programme or medical programme, shall have passed and attained a minimum of:

Programme	Requirements
Entry to matriculation, foundation or pre-medical programme	B4 each in 3 subjects i.e. <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics / Advanced Mathematic I or Advanced Mathematics / Advanced Mathematic II</li> </ul>
Entry to medical programme	B4 each in 5 subjects i.e. <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics; and</li> <li>• Advanced Mathematics I / Mathematics; and</li> <li>• Advanced Mathematics II / Advanced Mathematics</li> </ul>

Note: UEC eligibility is only for admission to higher education programs in Private Higher Education Institutions (IPTS) as stated in:

*Surat Pekeliling Ketua Pendaftar Institusi Pengajian Tinggi Swasta, Kementerian Pendidikan Malaysia Bil. 2/2004 – Kelayakan dan Kedudukan 'Unified Examination Certificate' (UEC) dated 19 March 2004 No. Ruj: KP(JPS)5181/01/02/Jld.3(6)*

5. All applicants shall have passed and attained a minimum of the following at:
- a. Higher School Certificate level or its equivalent (STPM and A-Level):

Examinations	Requirements
<b><i>Sijil Tinggi Persekolahan Malaysia (STPM)</i></b>	Grades BBB, ABC or AAC or CGPA 3.0 (out of 4.0) in 3 subjects i.e. <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul>
<b><i>General Certificate of Education Advanced ("A") levels</i></b>	Grades BBB, ABC or AAC in 3 subjects i.e.

	<ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul>
--	--

Note: Combination of A-Level or STAM and STPM is allowed to fulfil the entry requirement as stated in *Keputusan Mesyuarat Jawatankuasa Induk MQA-SPIPTS Bil.1/2009* dated 11 May 2009 and *Keputusan Mesyuarat MQA Bil.4/2009* dated 27 May 2009 (*Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi (2009 – 2020: Edisi Ketiga)*)

Or

- b. Matriculation, foundation or pre-medical programme or its equivalent (All applicants must fulfill the requirement at SPM/ O-level or its equivalent.

For international qualification (in the absence of SPM/O-Level qualification), if the institution is able to provide evidence that the matriculation, foundation or pre-medical programme is equivalent to General Certificate of Education Advanced (“A”) levels, please refer to 5 (a).

The application for qualification equivalency can be made to ENIC NARIC or Scholaro.

Documentation of the equivalency must be kept by the institution and made available during the accreditation/monitoring exercise.

Examinations	Requirements
<b>Matriculation</b> <b>or</b> <b>Foundation in Science</b> <b>or</b> <b>Pre- Medical programme</b>	CGPA 3.0 (out of 4.0) in 3 subjects i.e. <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul> Minimum grade for each subject is C (GP 2.0)  <b>and</b>  Provided the programme is not less than 1 year and completed in the same institution
<b>Monash University Foundation Pre-University Program (MUFY)</b> <b>or</b>	Aggregate or the equivalent of B in 3 subjects i.e. <ul style="list-style-type: none"> <li>• Biology; and</li> </ul>

<p><b>University of New South Wales (UNSW) Foundation</b> or <b>Western Australia Curriculum Council</b> or <b>HSC Sydney Australia</b> or <b>Trinity College Foundation Studies</b> or <b>Australian Universities Foundation Programmes</b> or <b>South Australian Matriculation (SAM)</b> or <b>Victorian Certificate of Education, Australia Year 12</b> or <b>Australian Matriculation (Ausmat)</b></p>	<ul style="list-style-type: none"> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul> <p>or</p> <p>80% ATAR provided the subjects include</p> <ul style="list-style-type: none"> <li>• Biology</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul>
<p><b>National Certificate of Educational Achievement (NCEA) Level 3</b> or <b>New Zealand Bursary</b></p>	<p>Average of 80% in 3 subjects i.e.</p> <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul>
<p><b>Canadian Pre-University (CPU)</b> or <b>Canadian International Matriculation Program (CIMP / Canadian Grade 12/13)</b> or <b>Ontario Secondary School Diploma Grade 12</b></p>	<p>Average of 80% in 3 subjects i.e.</p> <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul>
<p><b>Indian Pre-university</b></p>	<p>Pass the NEET* Exam; and</p> <p>Average of 70% in 3 subjects i.e.</p> <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Physics or Mathematics</li> </ul> <p>*NEET – National Eligibility cum Entrance Test</p> <p>***The NEET is required for those who wish to work in India as medical practitioner.</p>

	<p>*** For those who do not intend to work as a medical practitioner in India must provide a signed letter of undertaking witnessed by a Lawyer or Commissioner of Oath. This letter of undertaking must clearly state that they will not seek registration with the National Medical Commission of India.</p>
--	--

Or

c. Diploma level

Examinations	Requirements
<p><b><i>Diploma in Health Sciences or equivalent</i></b></p>	<p>CGPA 3.5 (out of 4.0)  <b>and</b>            Provided the programme is not less than 5 semesters or 2 1/2 years and completed in the same institution  <b>and</b>            At SPM/ O-Level or its equivalent:              Minimum 2 Bs in any 2 subjects           <ul style="list-style-type: none"> <li>• Biology; and/or</li> <li>• Chemistry; and/or</li> <li>• Physics</li> </ul> <b>and</b>            Credits in 3 subjects           <ul style="list-style-type: none"> <li>• English; and</li> <li>• Mathematics or Additional Mathematics; and</li> <li>• another subject</li> </ul> </p>
<p><b><i>Diploma International Baccalaureate (IB) Programme (DP)</i></b></p>	<p>Minimum overall score 33 points, 2 science subjects (Biology and Chemistry) at Higher Level (HL) and Mathematics at HL  <b>and</b>            attained a minimum score of 5 each in           <ul style="list-style-type: none"> <li>• Biology; and</li> <li>• Chemistry; and</li> <li>• Mathematics</li> </ul>             *This requirement is effective starting from <b>1 January 2024.</b></p>

--	--

Or

d. Bachelor's degree level

Examinations	Requirements
<i>Degree in Health or Pure or Applied Sciences</i>	CGPA 3.0 (out of 4.0) for entry to 5-year medical programme
<i>Degree in Health or Pure or Applied Sciences</i>	CGPA 3.3 (out of 4.0) for entry to 4-year medical programme
<i>Degree in the Arts or Humanities</i>	CGPA 3.5 (out of 4.0) for entry to 5-year medical programme
<i>Degree in the Arts or Humanities</i>	CGPA 3.75 (out of 4.0) for entry to 4-year medical programme

6. Applicants shall be required to undergo an aptitude test and/or an interview and/or a university entrance examination.
7. **There shall be no exemption from any year of a 4-year medical programme.**
8. **Clarifications shall be sought from the Council in situations for which there are no provisions in this guideline.**
9. Graduates from a medical programme who seek employment in the public sector must fulfil the criteria set by the Public Services Commission of Malaysia (SPA).

Revision adopted from *Mesyuarat Penambahbaikan Syarat-Syarat Kriteria Minima Kemasukan ke Program Perubatan* with Undergraduate Education Subcommittee, Malaysian Qualifications Agency (MQA) and Ministry of Higher Education (MoHE) on 24 June 2021

Revision adopted by the Council on 17 August 2021

Revision approved by MoHE and MQA in *Mesyuarat Kajian Semula Dasar & Jaminan Kualiti Bil.1/2022* on 27 April 2022

Revision approved by MoHE on 29 October 2024

**APPENDIX 6**  
**TRANSFER**  
**STUDENT**

## Appendix 6

### Transfer Students

The diversity of undergraduate medical school curricula and the integration of the curriculum at individual schools require that application for transfer between medical schools, and to other courses, be considered on an individual basis, so that both the student and the school will be assured that courses taken previously are compatible with the programme to be entered; otherwise, there should be **evidence of supplementation** of a student's programme after transfer.

Credit transfer is only allowed under the following circumstances:

- a) if the student is still enrolled in current university\*; and
- b) only between recognized universities listed in the Second Schedule of the Medical Act 1971; and
- c) students from provisionally accredited Malaysian Medical schools can apply for credit transfer to fully accredited Malaysian Medical schools. Provisional Accredited Malaysian Medical schools are not allowed to accept student for credit transfer\*; and
- d) must fulfill the minimum criteria and qualifications for entry into a medical programme\*; and
- e) if the curricular content between the receiving and the original institutions is MORE THAN 80% similar, exemption is allowed to a MAXIMUM of 40% from overall duration of study\*; OR
- f) if the curricular content between the receiving and the original institutions is 100% similar, lateral transfer is allowed provided candidate to spend at least 2 years at the graduating institution\*.

**Note:** \* Refer to the latest edition of Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi for reference – in relation to Credit Transfer

**FOR EACH**  
**DISCIPLINE**

## Appendix 7

**Minimum number of academic staff for each discipline**

For a school that is starting a new programme, there should be sufficient academic staff to support the first 2 (TWO) years of the programme. There must be a minimum of **One** (1) lecturer for each major discipline/module.

For the implementation of clinical phase, the minimum number of lecturers are as below:

**Single intake per year**

- *Major Discipline (Internal Medicine, Surgery, Orthopaedics, O&G and Paediatrics)* – 2 Lecturers for each discipline
- *Minor Discipline* – 1 Lecturers for each discipline

**Two intake per year**

- *Major Discipline (Internal Medicine, Surgery, Orthopaedics, O&G and Paediatrics)* – 4 Lecturers for each discipline
- *Minor Discipline* – 2 Lecturers for each discipline

{Approved by the Malaysian Medical Council: (22<sup>nd</sup> June 2021 and MPM 456, 22 July 2025)}

**APPENDIX 8**  
**GUIDE TO**  
**TEACHING-**  
**LEARNING**  
**ACTIVITIES**

## Appendix 8

**GUIDE TO TEACHING-LEARNING ACTIVITIES****1. Teacher-students ratio**

Teacher-students ratio in teaching and learning activities for undergraduate medical programme

- a) Tutorials: 1: 16
- b) Problem-based learning: 1: 12
- c) Bedside clinical teaching: 1: 8
- d) Lecture, team-based learning, flipped classroom, laboratory practical, skills laboratory – flexible

The academic staff: student ratio for the programme should be 1:8

The minimum number of clinical academic staff in each discipline must also follow Appendix 7.

**2. Clinical training**

There must be adequate resources to provide clinical exposure through the full spectrum of primary, secondary and tertiary care.

The teaching hospitals must have:

- adequate resources in terms of patients, diagnostic capabilities and equipment to meet the requirements of student training and to demonstrate exemplary care. Wherever necessary there should also be student amenities.
- appropriate case-mix within the teaching facilities to ensure relevance of training experience.
- adequate for other indicators such as bed occupancy rate, average length of stay, number of annual admissions, number of outpatient visits, emergency admissions and autopsy rates to ensure adequate students' exposure and experience.
- basic disciplines, i.e., medicine, paediatrics, surgery, obstetrics and gynaecology, orthopaedics, radiology and pathology. However, disciplines such as otorhinolaryngology, ophthalmology and psychiatry could be shared with other faculties if these facilities are not available within the main teaching facilities.
- Adequate indicators to be used in making this judgement if the school also conduct a postgraduate programmes simultaneously include: bed occupancy rate, average length of stay, number of annual admissions, number of outpatient visits, number of emergency admissions, annual autopsy rate, etc.

The teaching hospitals may have:

- a library to be used by the students, faculty and clinical staff. There must be ready access to areas for individual study, lectures and conferences as well as

computer terminals for educational use, call rooms, shower/changing area and food service.

- primary care clinics for ambulatory care, family and community practice, maternal and child health, accidents and emergency.

If the hospital or clinical facility is an affiliate:

- there must have a written agreement which defines clearly the responsibilities of each party.
- The medical school's department heads and senior clinical faculty members must have authority consistent with their responsibility for the instruction of the students in such facilities.
- it is imperative that the academic programme remains the control of the faculty in all medical schools with affiliate relationships.
- MQA should be advised of anticipated changes in affiliation status of a programme's teaching hospitals or any other clinical facilities.
- it is recommended that university units be established in main hospitals or the faculty to be part of the clinical departments.
- Must have an appropriate communication linkages (through internet, e-conferencing) if geographically separated from the medical schools.

Schools are encouraged to provide experiences in institutions providing special care such as homes and shelter for children, the elderly, the handicapped and challenged, abused women, as well as drug rehabilitation centres, hospices and prisons.

*{ Approved by the Malaysian Medical Council (MPM 459, 28 October 2025) and revised at (MPM 465, 21 April 2026) }*

**APPENDIX 9  
GUIDELINE TO  
CALCULATE FULL  
TIME EQUIVALENT  
(FTE)**

## Appendix 9

**Guideline to Calculate Full-time Equivalent (FTE)****Full-time staff workload**

Normal Working hours 40 hrs/week (8hrs x 5 days)

**Part-Time staff****Preparation time**

1 hour Bedside teaching: add 1 hour preparation time

1 hour Lecture: add 2 hours preparation time

Example 1: One part-time lecturer teaching 5 hours bedside/week

5 hours bedside teaching + 5 hrs preparation = 10 hrs/week

FTE =  $10/40 = 0.25$

Example 2: One part-time lecturer teaching 4 hours bedside/week and 1 hour Lecture/week

4 hours BST + 1 hour lecture:  $(4+4) + (1+2) = 11\text{hrs/week}$

FTE =  $11/40 = 0.275$

[Approved by Council on 25<sup>th</sup> May 2021]

**APPENDIX 10**  
**Table 4**  
**EVALUATION FORM**

**Table 4 Evaluation Form (For POA only) to be submitted with full report**

<b>Name of Program &amp; Program Code:</b>	
<b>Faculty/School:</b>	
<b>Name of Panel Assessor:</b>	

**Guideline for POA:**

1. Arrangement of courses must tally with Table 3
2. **Synopsis:** Brief summary of the course, teaching-learning approaches and assessment.
3. **Course Learning Outcomes (CLO)** are statements on what a student should know, understand and can do upon the completion of the course. The action verbs should match the learning domain (C 1-6, P1-7 or A1-5) and at the appropriate level.
4. **Mapping** of Course Learning Outcomes (CLO) to relevant Programme Learning Outcomes (PLO) and students should have the opportunity to learned and being assessed.
5. **Student Learning Time (SLT)** is the amount of time that a student is expected to spend on the teaching-learning activities, including assessment to achieve the CLO. The estimation of SLT should consider the difficulty level, time required by students to perform self-study and practice. Use SLT estimation guideline in Appendix 3

No	Item 1: Name of the Course and course code <sup>1</sup>	Item 2: Synopsis <sup>2</sup>	Item 4: Year and Semester match with Table 3	Item 7: CLO <sup>3</sup>	Item 8: Mapping <sup>4</sup> <i>(i)CLO to PLO, TL &amp; Assessment</i> <i>(ii)CLO to MQF Cluster of LO</i>	Item 10: Course Content Outline & Subtopics	Item 10: Teaching-learning activities, assessment and SLT <sup>5</sup>	Item 11 & 12: Special requirements & References	Others: e.g.-pre-requisite <i>(Please specify)</i>	Remarks

1.1.5	Considering the stated learning outcomes, the programme must prepare and ensure that the graduates are ready for housemanship and subsequent postgraduate medical education.	a) How are the programme learning outcomes related to students' preparedness for housemanship and future career options in medicine upon completion of the programme?  b) Do the learning outcomes relate to the existing and emergent needs of the healthcare industry and the community? How was this established?												
<b>1.2. Programme Development: Process, Content, Structure and Teaching Learning Methods</b>														
1.2.1	The medical school must have adequate <b>institutional autonomy</b> to formulate and implement policies for which its faculty/academic staff and administration are responsible, especially regarding the design of the curriculum and the use of the allocated resources necessary for implementation of the curriculum.	Describe the provisions and practices that indicate the autonomy of the medical school in the design of the curriculum, and its utilisation of the allocated resources.												
1.2.2	The medical school must have an appropriate process to develop the curriculum leading to the approval by the highest academic authority in the HEP and the relevant regulatory bodies.	Describe the processes to develop and approve the curriculum by the highest academic authority of the HEP and the relevant regulatory bodies.												
1.2.3	The medical school must consult the stakeholders in the development of the curriculum including educational experts as appropriate.	a) Who and how are the stakeholders consulted in the development of the curriculum?  b) Explain the involvement of education experts in this curriculum development. Involvement of a medical educationist is highly recommended.												
1.2.4	The curriculum must: <ul style="list-style-type: none"> <li>▪ apply the principles of scientific method, including analytical and critical thinking, medical research methods and evidence-based medicine.</li> <li>▪ identify and incorporate aspects of the basic biomedical sciences to create an understanding of scientific knowledge and concepts fundamental to acquiring and applying the clinical sciences.</li> <li>▪ identify and incorporate aspects of the behavioural sciences, social sciences, medical ethics and medical laws that are relevant to the practice of medicine.</li> </ul>	a) Describe how the curriculum fulfils the requirements the programme standards and best practices in the medical education. b) Provide the necessary information, where applicable, in Table 2:  <b>Table 2:</b> Components of the programme and its credit value  Minimum Graduating Credit: 200

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation		SECTION 3 (MQA 02) Data submission for Programme Accreditation										
		11. Identify special requirement or resources to deliver the course (e.g., software, nursery, computer lab, simulation room):										
		12. References (include required and further readings, and should be the most current):										
		13. Other additional information:										
1.2.5	The medical school must: <ul style="list-style-type: none"> <li>have the appropriate learning and teaching methods relevant to the programme educational objectives and programme learning outcomes.</li> <li>ensure that the content, extent and sequencing of courses and other curricular elements are relevant.</li> </ul>	Explain the appropriateness of teaching and learning methods applied to achieve the programme educational objectives and programme learning outcomes of the programme. (This is to be read together with information in 1.1.3.)										
1.2.6	There must be co-curricular activities to enrich student experience, and to foster personal development and social responsibility.	What co-curricular activities will be available to the students of this programme? How do these activities enrich student learning experience, and foster personal development and responsibility?										
<b>1.3 Programme Delivery</b>												
1.3.1	The medical school must: <ul style="list-style-type: none"> <li>have a curriculum committee that has the responsibility and authority for planning, implementing and reviewing the curriculum.</li> <li>ensure representation of staff, students, and where possible, other relevant stakeholders in the curriculum committee.</li> </ul>	Provide evidence on how the curriculum committee has responsibility and authority for planning, implementing and reviewing the curriculum with representation of relevant stakeholders.										
1.3.2	Students must be provided with, and briefed on, current information about (among others) the objectives, structure, outline, schedule, credit value, learning outcomes, and methods of assessment of the programme at the commencement of their studies.	Show evidence (including those available in the learning management system) that the students will be provided with, and briefed on, the current information about the programme, for example, Student Study Guide, Student Handbook and Student Project Handbook.										
1.3.3	The medical school must have an appropriate programme leader such as the Dean, Head of School or any other suitable designation and a team of academic staff with adequate qualifications and <b>authority</b> for the effective delivery of the programme.	a) Provide details of the leadership and the management structure of the programme, including members of the team responsible for the programme (example Dean, head of the departments, coordinators etc). State the manner in which the academic team will manage the programme. What are their qualifications, authority and responsibility? b) Does the programme team have access to adequate resources? Provide evidence.										
1.3.4	The medical school must design the curriculum in accordance with recent advances in medical education and the availability of educational resources.  <i>Annotation: For new medical programme, the medical student intake should not exceed 50 students per year. Subsequently, the school can apply to the Ministry of Higher Education for an increase in the student intake.</i>	Describe how the medical school ensure that their curriculum is designed based on recent advances in medical education and the availability of their educational resources.										
1.3.5	The medical school must encourage innovations in teaching, learning and assessment.	Describe the medical school's initiatives to encourage innovations in teaching, learning and assessment.										
1.3.6	The medical school must obtain regular feedback from stakeholders to improve the delivery of the programme outcomes.	State how the medical school will obtain feedback and uses it to improve the delivery of the programme outcomes.										
<b>AREA 2</b>												
<b>ASSESSMENT OF STUDENT LEARNING</b>												
<b>2.1 Relationship between Assessment and Learning Outcomes</b>												
2.1.1	The medical school must define the assessment principles, methods and practices use for assessment of its students and it must be aligned to the learning outcomes of the programme.	Explain how assessment principles, methods and practices are aligned to the attainment of learning outcomes of the programme consistent with MQF level 6. Add Table as below:										
		<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">PLO</th> <th style="width: 33%;">Teaching Learning Method</th> <th style="width: 33%;">Assessment Method</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>		PLO	Teaching Learning Method	Assessment Method						
PLO	Teaching Learning Method	Assessment Method										

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation		SECTION 3 (MQA 02) Data submission for Programme Accreditation			
2.1.2	The alignment between assessment and the learning outcomes in the programme must be systematically and regularly reviewed to ensure its effectiveness.	Describe how the alignment between assessment and learning outcomes will be regularly reviewed to ensure its effectiveness (please provide policy on the review, if any). Provide evidence of the review.			
<b>2.2 Assessment Methods</b>					
2.2.1	<p>The medical school must ensure:</p> <ul style="list-style-type: none"> <li>▪ that there are a variety of methods and tools that are appropriate for the assessment of learning outcomes and competencies.</li> <li>▪ it assesses medical students against the learning outcomes at appropriate points, and make sure they achieve all outcomes upon graduation.</li> <li>▪ that students who graduate have demonstrated that they are competent in all the outcomes.</li> <li>▪ that the assessments are open to scrutiny by external expertise using a structured format.</li> </ul> <p><i>Annotation: A variety of methods and tools: Medical school must use a valid and reliable assessment tool to assess different learning domains. It is best shown by assessment blueprint. Refer to Section 4 for Core Competencies when developing the clinical blueprint.</i></p> <p><i>Annotation: External expertise: Content expert in a particular field who are external to HEP.</i></p>	<p>a) Describe how a variety of assessment methods are valid to measure the learning outcomes and competencies.</p> <p>b) Provide the proposed assessment blueprint.</p> <p>c) Describe the utilisation of both summative and formative assessment methods within the programme. (The information given for this standard must be consistent with that of 1.2.4 in Area 1.)</p>			
2.2.2	There must be mechanisms to ensure, and to periodically review the assessment system, and establish the validity, reliability, integrity, and fairness of the assessment methods and tools.	<p>a) Explain how the medical school ensures the validity, reliability, integrity, currency and fairness of student assessment over time and across sites (if applicable).</p> <p>b) Indicate the authority and processes for verification and moderation of summative assessments.</p> <p>c) What guidelines and mechanisms are in place to address assessment misconduct among students (plagiarism, cheating etc)?</p>			
2.2.3	The medical school must document and communicate to students the frequency, methods, and criteria of student assessment - including the grading system, the criteria for setting pass marks, grade boundaries, progression criteria, and number of allowed retakes.	<p>a) Describe the student assessment methods in terms of its duration, diversity, weightage, progression criteria and coverage. Describe the grading system used. How will these be communicated to the students?</p> <p>b) Explain how the department will provide feedback to the students on their academic performance to ensure that they have sufficient time to undertake remedial measures.</p> <p>c) How will the results be made available to the students for purposes of feedback on performance, review and corrective measures?</p> <p>d) Describe the progression criteria.</p>			
2.2.4	Changes to student assessment methods must follow established procedures and regulations and be communicated to students prior to their implementation.	Explain the processes in making changes to the assessment method. How will the changes be made known to the students?			
<b>2.3 Management of Student Assessment</b>					
2.3.1	The medical school and its academic staff must have adequate level of <b>autonomy</b> in the management of student assessment.	Explain the roles, rights and autonomy of the medical school and the academic staff in the management of student assessment.			
2.3.2	There must be mechanisms to ensure the security of assessment documents and records.	Describe the procedures to guarantee the security and confidentiality of student assessment and academic records.			
2.3.3	The assessment results must be communicated to students before the commencement of a new academic session.	Explain how and when continuous and final assessment results will be made available to students.			
2.3.4	The HEP must have a policy or guidelines for students to appeal their results.	Provide information on the appeal procedure. What are the policy or guidelines on students' appeal against assessment results?			
2.3.5	The medical school must periodically review its student assessment system, act on the findings of the review and incorporate new assessment methods where appropriate.	Explain how the medical school will periodically review the management of student assessment and measures it take to address the issues highlighted by the review.			

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation		SECTION 3 (MQA 02) Data submission for Programme Accreditation
<b>AREA 3</b>		
<b>STUDENT SELECTION AND SUPPORT SERVICES</b>		
<b>3.1 Student Selection</b>		
3.1.1	<p>The programme must have clear criteria and processes for student selection (including that of transfer students) and these must adhere to prevailing guidelines on minimum entry requirements issued by the relevant regulatory bodies.</p> <p><i>Appendix 5: Minimum qualifications for entry into a medical programme as approved by MoHE.</i></p> <p>The programme must have clear criteria and processes for student selection (including that of transfer students) that is fair and equitable. These must adhere to prevailing guidelines on minimum qualifications for entry issued by the relevant regulatory bodies.</p> <p><i>Appendix 5: Minimum qualifications for entry into a medical programme as approved by MoHE.</i></p>	<p>a) State the criteria and the mechanisms for student selection including that of transfer students and any other additional requirements;</p> <p>b) Describe the admission mechanisms and criteria for students with other equivalent qualifications (where applicable). Provide entry criteria approved by regulatory bodies.</p>
3.1.2	<p>The criteria and processes of student selection must be transparent, objective and comply with regulatory requirements.</p>	<p>a) Explain how the selection criteria are accessible to the public.</p> <p>b) If other additional selection criteria are utilised, describe them.</p> <p>c) Show evidence that the admission policy and mechanisms are free from unfair discrimination and bias.</p>
3.1.3	<p>Student enrolment must comply with the requirements of the relevant regulatory bodies and within the capacity of the medical school to effectively deliver the programme.</p> <p><i>Annotation: Requirement from Malaysian Medical Council: Pursuant to the Age of Majority Act 1971 (Act 21) and taking into cognisance of intimate issues and procedures, student should be at least 18 years old during admission (MPM 398 meeting dated 22 September 2020), no serious physical or mental illness ; and/or serious communicable disease which may impact upon their future practice.</i></p>	<p>a) Describe how the size of student intake is determined in relation to the capacity of the medical school and explain the mechanisms for adjustments, taking into account the admission of visiting, elective, exchange and transfer students.</p> <p>b) Describe how the medical school will conduct medical checkup to screen for serious physical or mental illness; and/or serious communicable disease which may impact upon the students' future practice.</p>
3.1.4	<p>The medical school must:</p> <ul style="list-style-type: none"> <li>▪ state the relationship between selection of students and the mission of the school, the educational programme and desired qualities of graduates.</li> <li>▪ periodically review the admission policy.</li> <li>▪ have a system for appeal of admission decisions.</li> </ul>	<p>a) Describe how the selection of students will align with the mission of the school, the educational programme and the desired qualities of graduates.</p> <p>b) Describe the policies, mechanisms and practices for appeal on student selection, if applicable.</p>
3.1.5	<p>The medical school must offer support to assist students in need, including incoming transfer students.</p>	<p>State the support available for students in need, including incoming transfer students.</p>
<b>3.2 Articulation and Transfer</b>		
3.2.1	<p>The medical school must have well-defined policies and mechanisms to facilitate student mobility, which may include student transfer within and between institutions as well as cross-border.</p> <p><i>Annotation: Students transfer involving credit transfer either vertical or horizontal must adhere to Dasar Pindah Kredit as stated in Kompilasi Dasar Jaminan Kualiti Pendidikan Tinggi 2009-2020 (Item 146 to 157) and Appendix 6 of Standards For Undergraduate Medical Education.</i></p> <p><i>Appendix 6: Transfer students</i></p>	<p>Describe how the medical school will facilitate student mobility, exchange and transfer, nationally and/or internationally.</p>

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

<b>SECTION 2 (Program standard)</b> <b>Criteria and Standard for Programme Accreditation</b>		<b>SECTION 3 (MQA 02)</b> <b>Data submission for Programme Accreditation</b>
3.2.2	The medical school must ensure that the incoming transfer students have the capacity to successfully follow the programme and comply with all relevant regulations.	Describe how the medical school will ensure that students accepted for transfer, will be able to demonstrate comparable achievements in their previous programme of study (Evidence can be in the form of mapping of learning outcomes and assessment of competencies of the transferring medical school).
<b>3.3 Student Support Services</b>		
3.3.1	Students must have access to appropriate and adequate support services, such as physical, social, religious, financial, recreational and online facilities, academic and non-academic counselling and health services.	Describe the support services that will be available to students.
3.3.2	There must be a designated administrative unit, with a distinct organisational structure in the HEP, responsible for planning and implementing student support services and adequately staffed by individuals who have the appropriate experience.	a) Describe the qualifications and experience, roles and responsibilities of staff in-charge of student support services. b) Describe the organisation and management of the student support services
3.3.3	An effective induction / orientation to the programme and HEP support services must be made available to new students, with appropriate support given to international students, student with special needs, and students requiring help.	Describe how the medical school will conduct the induction process, focusing on orientation programmes for international students, student with special needs, and students requiring help.
3.3.4	Academic, non-academic, and career counselling must be provided by adequate and qualified staff.	a) Describe the provision of the academic, non-academic, and career counselling services to students. b) Describe how the effectiveness of the academic, non-academic and career counselling services will be measured, and the progress of those who seek its services monitored? What plans are there to improve the services, including that of enhancing the skills and professionalism of the counsellors?
3.3.5	There must be mechanisms that actively identify and assist students who are in need of academic and non-academic supports.	Describe the mechanisms to identify and assist students who are in need of academic and non-academic support.
3.3.6	The medical school must have clearly defined and documented processes and procedures in handling student disciplinary cases in academic and non-academic settings.	Describe the processes and procedures to handle student's disciplinary cases in academic and non-academic settings.
3.3.7	The medical school must: <ul style="list-style-type: none"> <li>▪ have an effective mechanism for students to voice their grievances and seek counselling and resolution on academic and non-academic matters.</li> <li>▪ ensure confidentiality in relation to counselling and support.</li> </ul>	Describe the mechanism for students to complain, voice grievances, seek counselling and resolution on academic and non-academic matters in a confidential manner.
3.3.8	Student support services must be evaluated regularly to ensure their adequacy, effectiveness and safety.	Describe the process to evaluate student support services to ensure their adequacy, effectiveness and safety.
<b>3.4 Student Representation and Participation</b>		
3.4.1	There must be well-disseminated policy/ guideline and processes for active student engagement especially in areas that affect their interest and welfare.	Describe the policy/ guideline and processes for active student engagement in areas that affect their interest and welfare.
3.4.2	There must be student representation and organisation at the institutional and medical school levels.	Explain how the student will be represented at the institutional and medical school levels.
3.4.3	Students must be facilitated to develop linkages with external stakeholders and to participate in activities to gain managerial, entrepreneurial and leadership skills in preparation for medical practice.	a) Describe the medical school facilitation for students to develop linkages with external stakeholders. b) Explain how the medical school will facilitate students to gain managerial, entrepreneurial and leadership skills in preparation for the workplace.
3.4.4	Student activities and organisations must be facilitated to expose students to global sustainability agenda, encourage character building, inculcate a sense of belonging and social responsibility, become a change advocate and promote active citizenship.	Explain how the medical school will facilitate student activities and organisations that encourage character building, inculcate a sense of belonging and social responsibility, as a change advocate and promote active citizenship.
<b>3.5 Alumni</b>		
3.5.1	The HEP / medical school must foster active linkages with alumni to develop, review and continuously improve the programme.	a) Describe how the HEP / Medical School will develop linkages with the alumni.

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
 {Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation	SECTION 3 (MQA 02) Data submission for Programme Accreditation																																																																	
<b>AREA 4</b>																																																																		
<b>ACADEMIC STAFF</b>																																																																		
<b>4.1 Recruitment and Management</b>																																																																		
4.1.1 The medical school must have a clearly defined plan for its academic manpower needs consistent with institutional policies and programme requirements: <ul style="list-style-type: none"> <li>▪ which outline the type, responsibilities and a balance of the academic staff/faculty numbers between the basic biomedical sciences and the clinical sciences to ensure effective delivery of the programme. There must be a balance between medical and non-medical academic staff especially in the basic sciences.</li> <li>▪ that address criteria for scientific, educational and clinical merit, including the balance between teaching, research and service functions.</li> <li>▪ which specify and monitor the responsibilities of its academic staff/faculty of the basic biomedical sciences and the clinical sciences.</li> <li>▪ Local (Malaysian) faculty should be AT LEAST 50% of the total number of staff</li> </ul> <p><i>Annotation: Appropriate balance between medical and non-medical staff with non-medical staff not exceeding 30%.</i></p>	a) Describe how the medical school academic manpower planning is consistent with HEP's policies and programme requirements. b) Explain how the medical school will ensure a balance between the basic biomedical sciences, and the clinical sciences in terms of teaching, research and service functions.																																																																	
4.1.2 The medical school must have a clear and documented academic staff selection and recruitment policy where the criteria for selection are based primarily on academic merit and/or relevant experience and bona fide qualification.	a) State the policy, criteria, procedures, terms and conditions of service for the recruitment of academic staff b) Explain the due diligence exercised by the medical school in ensuring that the qualifications of academic staff are from <i>bona fide</i> institutions.																																																																	
4.1.3 The staff-student ratio for the programme must be appropriate to the teaching-learning methods and relevant to the various curricular components.  <p><i>Annotation: For the academic staff workload, the average teaching hours for each staff should not exceed 18 hours/week.</i></p> <p><i>The appropriate Teacher-students ratio in teaching-learning activities is as illustrated in Appendix 8 of Standards For Undergraduate Medical Education.</i></p>	Describe how the medical school will ensure that the staff–student ratio is appropriate to the teaching-learning methods and consistent with programme requirements.																																																																	
4.1.4 The medical school must have adequate and qualified academic staff responsible for implementing the programme.  <p><i>Annotation: Adequate - In computing the ratio, the medical school must convert the part time to full time equivalents (FTEs) using the normal full-time workload. The part-time academic staff should not be more than 40%.</i></p> <p><i>Refer to Appendix 9: Guideline to calculate FTE and Appendix 7: Number of lecturers per discipline of Standards for Undergraduate Medical Education.</i></p> <p><i>Annotation: Qualified academic staff - The qualification must match the subject taught. A medical practitioner teaching in hospitals/clinics must have a valid annual practicing certificate issued by the Malaysian Medical Council. Refer to Guideline for Requirement of Annual Practicing Certificate endorsed in MMC meeting dated 23<sup>rd</sup> July 2024.</i></p>	a) Provide summary information on every academic staff involved in conducting the programme in Table 5.  <p><b>Table 5:</b> Summary information on academic staff involved in the programme</p> <table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <thead> <tr> <th rowspan="2">No.</th> <th rowspan="2">Name and designation of academic staff</th> <th rowspan="2">Appointment status (full-time, part-time, contract, etc.)</th> <th rowspan="2">Nationality</th> <th rowspan="2">Courses taught in this programme</th> <th rowspan="2">Courses taught in other programmes</th> <th colspan="2">Academic qualifications</th> <th rowspan="2">Research focus areas (Bachelor and above)</th> <th colspan="3">Past work experience</th> </tr> <tr> <th>Qualifications, Field of Specialisation, Year of Award</th> <th>Name of Awarding Institution and country</th> <th>Positions held</th> <th>Employer</th> <th>Years of Service (Start and End)</th> </tr> </thead> <tbody> <tr> <td>1</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>2</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>3</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>4</td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table> <p>b) Provide Curriculum Vitae of each academic staff teaching in this programme containing the following:</p> <ol style="list-style-type: none"> <li>i. Name</li> <li>ii. Academic Qualifications</li> </ol>	No.	Name and designation of academic staff	Appointment status (full-time, part-time, contract, etc.)	Nationality	Courses taught in this programme	Courses taught in other programmes	Academic qualifications		Research focus areas (Bachelor and above)	Past work experience			Qualifications, Field of Specialisation, Year of Award	Name of Awarding Institution and country	Positions held	Employer	Years of Service (Start and End)	1												2												3												4

*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation		SECTION 3 (MQA 02) Data submission for Programme Accreditation
		<ul style="list-style-type: none"> <li>iii. Full Registration number and APC,</li> <li>iv. Registration with National Specialist Registry : Yes / No (if yes, provide NSR No.)</li> <li>v. Current Professional Membership</li> <li>vi. Current Teaching and Administrative responsibilities</li> <li>vii. Previous Employment</li> <li>viii. Conferences and Training</li> <li>ix. Research and Publications</li> <li>x. Consultancy</li> <li>xi. Community Service</li> <li>xii. Other Relevant Information</li> </ul>
4.1.5	The medical school must have a policy or document that reflects an equitable distribution of responsibilities and workload among the academic staff in terms of teaching, research, service and management roles.	Describe how the medical school will ensure an equitable distribution of duties and responsibilities among the academic staff.
4.1.6	The recruitment policy or document for the medical programme must seek diversity among the academic staff in terms of qualification, experience and background.	Describe how the recruitment policy or document for the medical programme seeks diversity among the academic staff.
4.1.7	The medical school must have a clear and transparent policy for the recognition of staff performance through promotion, salary increment or other incentives. These <del>And</del> procedures and criteria are based on merit which must be <del>and</del> communicated to the staff.	<ul style="list-style-type: none"> <li>a) Explain the policies, procedures and criteria (including involvement in professional, academic and other relevant activities, at national and international levels) for appraisal, recognition, promotion, salary increment or other remuneration for academic staff.</li> <li>b) How will the above information be made known to the academic staff.</li> </ul>
4.1.8	The medical school must have national and international linkages for exchange of ideas, experience and best practices to enhance teaching and learning in the programme.	Describe the nature and extent of national and international linkages that the medical school will develop to enhance teaching and learning in the programme.
<b>4.2 Service and Development</b>		
4.2.1	The medical school must have policies or documents addressing matters related to professional development of the academic staff which allow a balance of capacity between teaching, research and service functions.	Provide information on the medical school policy on service (if applicable), staff development, teaching, research and appraisal of the academic staff.
4.2.2	The medical school must provide opportunities for academic staff to focus on their respective areas of expertise.	How will the medical school ensure that the academic staff are given opportunities to focus on their respective areas of expertise such as curriculum development, curriculum delivery, academic supervision of students, research and writing, scholarly and consultancy activities, community engagement and academically-related administrative duties?
4.2.3	The medical school must have clear policies on conflict of interest and professional conduct, including procedures for handling disciplinary cases among academic staff. For registered medical practitioners, the Code of Professional Conduct of the Malaysian Medical Council shall apply accordingly.	<ul style="list-style-type: none"> <li>a) State the HEP policies on conflict of interest and professional conduct of academic staff.</li> <li>b) State the HEP procedures for handling disciplinary cases including non-compliance to Code of Professional Conduct.</li> </ul>
4.2.4	The medical school must have mechanisms and processes for regular student evaluation of the academic staff for quality improvement.	Describe the mechanisms and processes for periodic student evaluation of the academic staff. Indicate the frequency of this evaluation exercise. Describe how this evaluation will be taken into account for quality improvement.
4.2.5	The medical school must have a continuous professional development programme for its staff including new academic staff.	<ul style="list-style-type: none"> <li>a) State the policies or document for training, professional development and career advancement (e.g., study leave, sabbatical, advanced training, specialised courses, re-tooling, etc.) of the academic staff.</li> <li>b) Describe the mentoring system or formative guidance for new academic staff.</li> </ul>
4.2.6	The medical school must provide opportunities for academic staff to participate in professional, academic and other relevant activities, at national and international levels to obtain professional qualifications to enhance teaching-learning experience.	Describe the opportunities available to academic staff to obtain professional qualifications and to participate in professional, academic and other relevant activities at national and international levels. How does this participation enhance the teaching-learning experience?

		Radiology												
		Forensic medicine												
		Public health & community medicine												
		Family medicine												
		<b>Total No. of Beds Available</b>												
		<b>No. of Students Enrolment Each Year</b>												
		<b>*Please add rows as necessary</b>												
		Annotation: 1. The number of students who can be enrolled will be based on the number of beds available for teaching purposes, at a ratio of 1 student to 5 beds. Hence for a faculty that admits 150 students in one year, the total number of beds available for teaching must be at least 750. 2. If there are 3 universities using the same facility that have 750 beds, then the student intake is 150 subdivided by 3, equals to 50 students per university. 3. If there are more than 1 university are using the same clinical facility, the number of beds is subdivided by the number of universities to ensure adequate hands-on, quality & skill of student as well as not to disrupt patient care services at hospital facilities which are already congested with patients, plus with too many students. Universities are encouraged to get other additional hospital facilities which are NOT being used / not being heavily used by other universities. Proof of MoA / MoU or at least an official holding reply letter from relevant hospital facilities is to be provided.  e) How are these physical facilities user friendly to those with special needs? Provide a copy of any technical standards that have been deployed for students with special needs.												
5.1.2	The physical facilities must comply with the relevant laws and regulations and ensure a teaching-learning environment which is safe for staff, students, patients and their relatives.	Show that the physical facilities comply with the relevant laws and regulations including issues of licensing.												
5.1.3	The library or resource centre must have adequate and up-to-date reference materials and qualified staff that meet the needs of the programme and research amongst academic staff and students.	a) Explain the database system used in the library and resource centre. b) State the number of staff in the library and resource centre and their qualifications. c) Describe resource sharing and access mechanisms that are available to extend the library's capabilities. Comment on the extent of use of these facilities by academic staff and students. Comment on the adequacy of the library to support the programme. d) State the number of reference materials related to the programme in Table 7.  <b>Table 7: Reference materials supporting the programme</b>

		Books:	e.g: ClinicalKey Amboss, Lecturio		e.g: WoS, Scopus, MyCite etc	
5.1.4	The educational resources, services and facilities must be maintained and periodically reviewed to improve its quality and appropriateness.	a) Describe how the HEP will maintain, review and improve the adequacy, currency and quality of its educational resources and the role of the medical school in these processes.				
5.1.5	The medical school must: <ul style="list-style-type: none"> <li>▪ have a clear policy or document on ethical use of information and communication technology.</li> <li>▪ ensure adequate access to web-based or other electronic media.</li> </ul>	a) Describe the policy or document on ethical use of information and communication technology including social media. b) Provide information on the availability and accessibility of web-based or other electronic media to students and staff.				
<b>5.2 Research and Development</b>						
5.2.1	The medical school must have a research policy or document with adequate facilities and resources to sustain them.	a) Describe the policies or documents, facilities and budget allocation available to support research.				
5.2.2	The interaction between research and learning must be reflected in the curriculum, influence current teaching, and encourage and prepare students for engagement in research and scholarly activities.	a) Describe how the HEP will encourage interaction between research and learning. Show the link between the HEP's policy on research and the teaching-learning activities in the Medical School. b) Describe how the Medical School will encourage students' engagement in research.				
5.2.3	The medical school must periodically review its research resources and facilities, take appropriate action to enhance its research capabilities and promote a conducive research environment.	Describe the processes by which the Medical School will review its research resources and facilities and the steps taken to enhance its research capabilities and environment.				
<b>5.3 Financial Resources</b>						
5.3.1	The HEP must demonstrate financial viability and sustainability for the programme.	Describe the financial viability and sustainability of the medical school. Provide evidence.				
5.3.2	The <b>HEP</b> must have a clear line of responsibility and authority for budgeting and resource allocation that takes into account the specific needs of the Medical School.	a) Indicate the responsibilities and lines of authority in terms of budgeting and resource allocation in the HEP with respect to the specific needs of the medical school. b) Describe the HEP's financial planning for the programme (strategic planning for the medical school)				
5.3.3	The <b>medical school</b> must have clear procedures to ensure that its financial resources are sufficient and managed efficiently.	Demonstrate that the medical school has clear procedures to ensure that its financial resources are sufficient and managed efficiently.

*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

SECTION 2 (Program standard) Criteria and Standard for Programme Accreditation		SECTION 3 (MQA 02) Data submission for Programme Accreditation
<b>5.4 Educational Expertise</b>		
5.4.1	<p>The medical school must:</p> <ul style="list-style-type: none"> <li>▪ have access to educational expertise.</li> <li>▪ have a clear policy or document on the use of educational expertise in curriculum review, curriculum development and the development of methods in teaching-learning and assessment.</li> <li>▪ demonstrate evidence of the use of in-house or external educational expertise in faculty development initiatives.</li> </ul> <p>Have a designated person to overlook the medical education matters</p>	a) Describe the policy or document on the use of educational expertise in curriculum development and development of teaching-learning and assessment methods.
<b>AREA 6</b>		
<b>PROGRAMME MANAGEMENT</b>		
<b>6.1 Programme Management</b>		
6.1.1	The medical school must clarify its management <b>structure and function</b> , including their relationship within the HEP and ensure the transparency of its governance.	a) Describe the management structure and functions, and the main decision-making components of the Medical school as well as the relationships between them. b) How are these relationships made known to all parties involved? c) Indicate the major committees, TOR and frequency of meetings.
6.1.2	The medical school must provide accurate, relevant and timely information about the programme, which is easily and publicly accessible, especially to prospective students.	Describe the policies and procedures that ensure accurate, relevant and timely information about the programme which are easily and publicly accessible, especially to prospective students.
6.1.3	The medical school must have policies, procedures and mechanisms for regular review and updating of its management structures, functions, strategies and core activities to ensure continuous quality improvement.	a) Describe the policies, procedures and mechanisms for regular review and updating of the department's structures, functions, strategies and core activities to ensure continuous quality improvement. b) Identify person(s) responsible for continuous quality improvement within the medical school.
6.1.4	The medical school must have an effective decision-making committee / board with an adequate degree of autonomy in implementing the curriculum.	Describe how (such as terms of reference, minutes of meeting) the academic board of the Medical School functions an effective decision-making body with adequate autonomy in implementing the curriculum.
6.1.5	For programmes conducted in different campuses or with partner institutions, mechanisms must be established to ensure functional integration and comparability of the educational quality. *If Applicable	Describe the arrangements agreed upon by the HEP and its different campuses or partner institutions - to assure functional integration and comparability of educational quality.
6.1.6	<p>The medical school must:</p> <ul style="list-style-type: none"> <li>▪ have constructive interaction with the health and health related sectors of society and government.</li> <li>▪ conduct internal and external consultations, market needs (for new programme) and graduate employability analysis</li> </ul>	a) Describe how the medical school interacts with the health and health related sectors of the society and government. b) Show evidence of internal and external consultations for the curriculum. c) For a new programme, show evidence of market needs.
<b>6.2 Programme Leadership</b>		
6.2.1	The medical school/HEP must clearly state the process for the appointment and the responsibilities of the programme leader.	Explain the process for the appointment and job description of the programme leader.
6.2.2	<p>The programme leader, must be a medical practitioner, qualified by education and experiences to provide leadership in medical education, in scholarly activity and in research and development.</p> <p><i>Annotation: The programme leader is the chief official of the medical school, must have ready access to the Vice Chancellor or President or other official in charge with final responsibility for the school, and to other university officials as are necessary to fulfil the responsibilities of the programme leader. The programme leader usually holds the position of the Dean or Head of School.</i></p>	Describe the qualifications, experiences, tenure and responsibilities of the programme leader.
6.2.3	There must be mechanisms and processes for communication between the programme leader, medical school and HEP on matters such as staff recruitment and training, student admission, allocation of resources and decision-making processes.	Describe the relationship between the programme leader, medical school and HEP on matters such as staff recruitment and training, student admission, allocation of resources and decision-making processes.

<b>6.3. Administrative Staff</b>																			
6.3.1	The medical school must have sufficient number of qualified staff* to support the implementation of the programme and related activities and to ensure good management and resource deployment.  *Staff: nonacademic	a) Describe the structure of the staff which supports the programme. b) Describe the recruitment processes and procedures. c) State (in Table 8) the numbers that are available, job category and minimum qualification for administrative staff of the programme. <b>Table 8: Administrative staff for the programme</b>																	
		<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 10%;">No.</th> <th style="width: 30%;">Job Category</th> <th style="width: 20%;">Minimum qualification</th> <th style="width: 40%;">Current number</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> <tr> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>		No.	Job Category	Minimum qualification	Current number												
No.	Job Category	Minimum qualification	Current number																
6.3.2	The HEP/ medical school must conduct regular performance review of the administrative staff of the programme.	State the mechanisms and procedures for monitoring and appraising the performance of the administrative staff of the programme.																	
6.3.3	The HEP/ medical school must have an appropriate training scheme for the advancement of the staff as well as to fulfil the specific needs of the programme.	Describe the training scheme for the advancement of the administrative staff and show how this scheme fulfils the current and future needs of the programme.																	
<b>AREA 7</b>																			
<b>PROGRAMME MONITORING, REVIEW AND CONTINUAL QUALITY IMPROVEMENT</b>																			
<b>7.1 Mechanisms for Programme Monitoring, Review and Continual Quality Improvement</b>																			
7.1.1	The HEP/medical school must have clear policies and appropriate mechanisms for regular programme monitoring and review.	Describe the policies and mechanisms for regular monitoring and review of the programme.																	
7.1.2	The medical school must have a Quality Assurance (QA) unit for internal quality assurance of the medical school to work hand-in-hand with the QA unit of the HEP.	Describe the roles and the responsibilities of the Quality Assurance unit responsible for internal quality assurance of the medical school.																	
7.1.3	The medical school must: <ul style="list-style-type: none"> <li>▪ have a designated head responsible for continual review of the programme to ensure it remains current and relevant.</li> <li>▪ have procedures for regularly reviewing and updating the process, structure, content, outcomes/competencies, assessment and learning environment of the programme.</li> </ul>	a) Describe the structure and the procedures of the internal programme monitoring and review committee. b) Describe the frequency and mechanisms for monitoring and reviewing the programme. c) Describe how the medical school will utilise the feedback from a programme monitoring and review exercise to further improve the programme. d) Explain how the monitoring and review processes will ensure that the programme keeps abreast with scientific, technological and knowledge development of the discipline, and with the needs of society.																	
7.1.4	The medical school's review system must systematically seek, analyse and respond to teacher, student, alumni and other stakeholder's feedback in relation to the mission and intended educational outcomes, curriculum and provision of resources.	Which stakeholders will be involved in a programme review? Describe their involvement and show how their views will be taken into consideration.																	

**PROVISIONAL ACCREDITATION (PA) REPORT FOR UNDERGRADUATE PROGRAMME**  
*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

<b>SECTION 2 (Program standard)</b> <b>Criteria and Standard for Programme Accreditation</b>		<b>SECTION 3 (MQA 02)</b> <b>Data submission for Programme Accreditation</b>
7.1.5	The medical school must communicate the programme review report to relevant stakeholders.	Explain how the medical school will inform the stakeholders the result of a programme assessment and how their feedbacks on the report will be taken into consideration for future development of the programme.
7.1.6	The medical school must: <ul style="list-style-type: none"> <li>▪ Implement the continual quality improvement based on the analysis of various aspects of student performance, progression, attrition, graduation and employment.</li> <li>▪ adapt the student admissions policy, selection methods and student intake to changing expectations and circumstances, institutional resources, and the requirements of the educational programme.</li> </ul>	Explain how student performance, progression, attrition, graduation and employment will be analysed for the purpose of continual quality improvement.
7.1.7	In collaborative arrangements, the partners involved must share the responsibilities of programme monitoring and review.	Describe the responsibilities of the partners involved in collaborative arrangements in programme monitoring and review (to append relevant Memorandum of Agreement).
7.1.8	The findings of a programme review must be presented to the HEP for its attention and further action.	Describe how the findings of the review will be presented to the HEP and its further action.
7.1.9	There must be an integral link between the medical school quality assurance processes and the achievement of the institutional purpose.	Explain the integral link between the medical school quality assurance processes and the achievement of the institutional purpose.

CURRICULUM  
REVIEW REPORT**

# CURRICULUM REVIEW REPORT

*{Approved by the Malaysian Medical Council: (MPM 456, 22 July 2025)}*

The panel of MQA assessor are:

Panel 1 (Chair) :  
Panel 2 :

## CHRONOLOGY (to be filled up by MQA officer)

Name of the Higher Education Provider (HEP) :  
 Name of the programme (as in the scroll to be awarded) :  
 Start of current FA :  
 Duration of FA approval :  
 Received a document from MQA : date/month/year  
 Coordination meeting :  
 Date of visit :  
 Current approval number of students :  
 Number of additional students requested :

## SUMMARY OF CHANGES (Taken from Table for Criteria for Major and Minor Curriculum Review given by HEP)

Item	Minor	Major
<b>Change in Visions, Missions and Objectives</b>		
Change in Higher Education Provider's Visions, Missions and Objectives		
<b>Change in PEOs, PLOs and CLOs</b>		
Editorial change in Programme Educational Objectives (PEO)		
Change in number or learning domains of Programme Educational Objectives (PEO)		
Editorial change in Programme Learning Outcomes (PLO)		
Change in number or learning domains of Programme Learning Outcomes (PLO)		
Editorial change in Course Learning Outcomes (CLO) (core subjects)		
Change in number or learning domains of Course Learning Outcomes (CLO) for core subjects more than 30% from total CLO		
<b>Change in Curriculum Structure</b>		
Change in curriculum structure (e.g from traditional curriculum to integrated curriculum, PBL based etc)		
Change in number of years of study (e.g from 6 to 5 years)		
Change in total number of graduating credit involving program courses		

Change in total number of graduating credit involving University compulsory courses		
Change in sequence of core subjects offered without any change in credit hour e.g. changing the course offered in Year 1 to Year 2		
Change of programme content (core subject) >30%		
<b>Change in Teaching and Learning Activity</b>		
Changing from face-to-face to online delivery (theory component) limited to not more than 50%.		
Changing from face-to-face to online delivery (clinical component)		
<b>Change in Assessment Strategy</b>		
Change in preclinical assessment method without any change of credit hours (core subjects)		
Change in clinical assessment without any change of credit hours (core subjects) (e.g. from long case and short case to OSCE) **Must adhere strictly to the current guidelines issued by Malaysian Medical Council		
Adding or Removing the number of major examinations <i>Major examination is examination that determine student's progression to the next year of study.</i>		

## FINDINGS

Criteria and Standard for Programme Accreditation	Comments from the panel	
<b>AREA 1 : PROGRAMME DEVELOPMENT AND DELIVERY</b>		
<b>1.1 Statement of Educational Objectives of Academic Programme and Learning Outcomes</b>		
1.1.1 The medical school must: <ul style="list-style-type: none"> <li>▪ have its programme to be consistent with, and supportive of, the vision, mission and goals of the HEP.</li> <li>▪ in its mission, outline the aims and the educational strategy resulting in a competent medical doctor.</li> <li>▪ have a mission that encompasses the health needs of the community, the needs of the health care delivery system and other aspects of social accountability.</li> </ul>	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	
1.1.2 A new medical programme shall be considered only after a needs assessment has indicated that there is a need for the programme to be offered.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<p>1.1.3 The medical school must:</p> <ul style="list-style-type: none"> <li>▪ state its programme educational objectives, programme learning outcomes, teaching and learning strategies, and assessment, and ensure constructive alignment among them.</li> <li>▪ define the programme learning outcomes that students should exhibit upon graduation in relation to their achievements regarding knowledge, skills, and attitudes; the appropriate foundation for a future career in any branch of medicine; their future roles in the health sector; their commitment to life-long learning; the health needs of the community and the needs of the health care delivery system.</li> </ul>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	
<p>1.1.4 The programme learning outcomes must correspond to the Malaysian Qualifications Framework (MQF) level descriptors at Level 6 and the five clusters of MQF learning outcomes:</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>

Criteria and Standard for Programme Accreditation	Comments from the panel	
<ol style="list-style-type: none"> <li>1. Knowledge and understanding</li> <li>2. Cognitive skills</li> <li>3. Functional work skills with focus on:               <ol style="list-style-type: none"> <li>a. Practical Skills</li> <li>b. Interpersonal skills</li> <li>c. Communication skills</li> <li>d. Digital skills</li> <li>e. Numeracy skills</li> <li>f. Leadership, autonomy and responsibility</li> </ol> </li> <li>4. Personal and entrepreneurial skills.</li> <li>5. Ethics and professionalism.</li> </ol> <p><i>Annotation 1: The 2<sup>nd</sup> Malaysian Qualifications Framework (MQF) was published in April 2018 (Pekeliling MQA.100-1/7/1 Jilid (4)). Appendix 1: Detailed explanation of MQF learning clusters and the descriptions. Appendix 2: MQF Level Descriptors (Level 6).</i></p>	<b>Area of concern (AOC)</b>	
<p>1.1.5 Considering the stated learning outcomes, the programme must prepare and ensure that the graduates are ready for housemanship and subsequent postgraduate medical education.</p>	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>

Criteria and Standard for Programme Accreditation	Comments from the panel	
	<p style="text-align: center;"><b>Area of concern (AOC)</b></p>	
<b>1.2. Programme Development: Process, Content, Structure and Teaching Learning Methods</b>		
<p>1.2.1 The medical school must have adequate <b>institutional autonomy</b> to formulate and implement policies for which its faculty/academic staff and administration are responsible, especially regarding the design of the curriculum and the use of the allocated resources necessary for implementation of the curriculum.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p style="text-align: center;"><b>Area of concern (AOC)</b></p>	
<p>1.2.2 The medical school must have an appropriate process to develop the curriculum leading to the approval by the highest academic authority in the HEP and the relevant regulatory bodies.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>

Criteria and Standard for Programme Accreditation	Comments from the panel	
	<p style="text-align: center;"><b>Area of concern (AOC)</b></p>	
<p>1.2.3 The medical school must consult the stakeholders in the development of the curriculum including educational experts as appropriate.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
<p>1.2.4The curriculum must:</p> <ul style="list-style-type: none"> <li>▪ apply the principles of scientific method, including analytical and critical thinking, medical research methods and evidence-based medicine.</li> <li>▪ identify and incorporate aspects of the basic biomedical sciences to create an understanding of</li> </ul>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p style="text-align: center;"><b>Area of concern (AOC)</b></p>	

Criteria and Standard for Programme Accreditation	Comments from the panel
<p>scientific knowledge and concepts fundamental to acquiring and applying the clinical sciences.</p> <ul style="list-style-type: none"> <li>▪ identify and incorporate aspects of the behavioural sciences, social sciences, medical ethics and medical laws that are relevant to the practice of medicine.</li> <li>▪ embed values-based education (MQF 2024) that focuses on aspects of the <b>humanistic, societal, communal, professional skills and attitudes</b> to ensure that students: <ul style="list-style-type: none"> <li>○ acquire sufficient clinical competency to function effectively as medical house officers after graduation.</li> <li>○ spend a reasonable part of the programme in planned contact with patients in relevant clinical settings.</li> <li>○ participate in health promotion and preventive medicine activities.</li> </ul> </li> <li>▪ specify the amount of time spent in training of major clinical disciplines.</li> </ul>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<ul style="list-style-type: none"> <li>▪ emphasise healthcare economics in the context of Malaysia and include funding frameworks, cost of care and clinical decisions.</li> </ul> <p><i>Annotation: Refer to Section 4 for Core Competencies and provide detail course information in Table 4. Please use appendix 3 as guide to calculate students learning time and credit value. For credit value, the total credit shall not be less than 200 for the whole programme.</i></p> <p><i>Appendix 3: Guideline on Credit Value and Student learning time</i></p> <p><i>Appendix 4: Framework of the medical curriculum and core contents</i></p>		
<p>1.2.5 There must be co-curricular activities to enrich student experience, and to foster personal development and social responsibility.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<b>1.3 Programme Delivery</b>		
<p>1.3.1 The medical school must:</p> <ul style="list-style-type: none"> <li>▪ have a curriculum committee that has the responsibility and authority for planning, implementing and reviewing the curriculum.</li> <li>▪ ensure representation of staff, students, and where possible, other relevant stakeholders in the curriculum committee.</li> </ul>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	
<p>1.3.2 Students must be provided with, and briefed on, current information about (among others) the objectives, structure, outline, schedule, credit value, learning outcomes, and methods of assessment of the programme at the commencement of their studies.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<p>1.3.3 The medical school must have an appropriate programme leader such as the Dean, Head of School or any other suitable designation and a team of academic staff with adequate qualifications and <b>authority</b> for the effective delivery of the programme.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	
<p>1.3.4 The medical school must provide students with conducive learning environment which:</p> <ul style="list-style-type: none"> <li>▪ have adequate facilities for students to ensure that the curriculum can be delivered adequately.</li> <li>▪ match the facilities to the developments in medical education.</li> </ul> <p><i>Annotation: For new medical programme, the medical student intake should not exceed 50 students per year. Subsequently, the school can apply to the Ministry of Higher Education for an increase in the student intake.</i></p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
1.3.5 The medical school must encourage innovations in teaching, learning and assessment.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	
1.3.6 The medical school must obtain regular feedback from stakeholders to improve the delivery of the programme outcomes.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>

Criteria and Standard for Programme Accreditation	Comments from the panel	
	Area of concern (AOC)	
<b>AREA 2 : ASSESSMENT OF STUDENT LEARNING</b>		
<b>2.1 Relationship between Assessment and Learning Outcomes</b>		
2.1.1 The medical school must define the assessment principles, methods and practices use for assessment of its students and it must be aligned to the learning outcomes of the programme.	Commendation:	Opportunity for improvement (OFI)
	Area of concern (AOC)	
2.1.2 The alignment between assessment and the learning outcomes in the programme must be systematically and	Commendation:	Opportunity for improvement (OFI)

Criteria and Standard for Programme Accreditation	Comments from the panel	
regularly reviewed to ensure its effectiveness.		
	<b>Area of concern (AOC)</b>	
<b>2.2 Assessment Methods</b>		
2.2.1 The medical school must ensure: <ul style="list-style-type: none"> <li>▪ that there are a variety of methods and tools that are appropriate for the assessment of learning outcomes and competencies.</li> <li>▪ it assesses medical students against the learning outcomes at appropriate points, and make sure they achieve all outcomes upon graduation.</li> <li>▪ that students who graduate will demonstrate that they are competent in all the outcomes.</li> <li>▪ that the assessments are open to scrutiny by external expertise using a structured format.</li> </ul>	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<p><i>Annotation: A variety of methods and tools: Medical school must use a valid and reliable assessment tool to assess different learning domains. It is best shown by assessment blueprint. Refer to Section 4 for Core Competencies when developing the clinical blueprint.</i></p> <p><i>Annotation: External expertise: Content expert in a particular field who are external to HEP.</i></p>		
<p>2.2.2 There must be mechanisms to ensure the validity, reliability, integrity, and fairness of the assessment methods and tools.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	

<b>Criteria and Standard for Programme Accreditation</b>	<b>Comments from the panel</b>	
<p>2.2.3 The medical school must document and communicate to students the frequency, methods, and criteria of student assessment - including the grading system, the criteria for setting pass marks, grade boundaries, progression criteria, and number of allowed retakes.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	
<p>2.2.4 Changes to student assessment methods must follow established procedures and regulations and be communicated to students prior to their implementation.</p>	<p><b>Commendation:</b></p>	<p><b>Opportunity for improvement (OFI)</b></p>
	<p><b>Area of concern (AOC)</b></p>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
<b>2.3 Management of Student Assessment</b>		
2.3.1 The medical school and its academic staff must have adequate level of <b>autonomy</b> in the management of student assessment.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	
2.3.2 There must be mechanisms to ensure the security of assessment documents and records.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
2.3.3 The assessment results must be communicated to students before the commencement of a new academic session.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	
2.3.4 The HEP must have a policy, standard operating procedure and guidelines for students to appeal their results.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	

Criteria and Standard for Programme Accreditation	Comments from the panel	
2.3.5 The medical school must periodically review its student assessment system, act on the findings of the review and incorporate new assessment methods where appropriate.	<b>Commendation:</b>	<b>Opportunity for improvement (OFI)</b>
	<b>Area of concern (AOC)</b>	

## RECOMMENDATIONS BY THE PANEL OF ASSESSOR

	<b>APPROVED to be implemented for the coming new intake</b>
	<b><sup>1</sup>APPROVED to be implemented for the coming new intake with condition the amendment (OFI) and will be evaluated by MQA panel during the next accreditation visit.</b>
	<b><sup>2</sup>NOT APPROVED, the AOC must be amended, and the document must be resubmitted and reassessed by the respective panel</b>

**\*HEP must be given opportunity to do amendment after coordination meeting**

**<sup>1</sup>The list of suggestion for improvement below should be amended and will be evaluated by MQA panel during the next accreditation visit.**

<b>Criteria</b>		<b>Please tick</b>	<b>Remarks</b>
i.	CLO-PLO mapping in item 7 & Table 3 should be revised and standardized		
ii.	SLT calculation (item 10) does not follow the MMC standard guideline without affecting the total graduation of credit		
iii.	Some items in table 4 should be reviewed to improve standardization (other than item 10)		
iv.	Information Table 3 is inconsistent with table 4		
v.	Other suggestion for improvement (OFI) in area 1 and area 2 not related to above		

<sup>2</sup>The list of suggestion for improvement below should be amended, the document must be resubmitted and reassessed by the respective panel.

Criteria		Please tick	Remarks
i.	No stakeholders' report		
ii.	Poor construction of PLO statement		
iii.	Poor constructive alignment		
iv.	SLT calculation does not follow the MMC standard with affecting the total graduation of credit		
v.	Poor reliability and validity of the assessment (End of semester/ Professional examination)		
vi.	Other Area of Concern (AOC) in area 1 and area 2 not related to above		

\*please read suggestion for improvement for details comment

**\*HEP must be given opportunity to do amendment after coordination meeting**

MONITORING VISIT  
REPORT**

## MONITORING VISIT REPORT

*{Approved by the Malaysian Medical Council: (MPM 454, 20 Mei 2025)}*

### THE MONITORING VISIT OF THE MQA/MMC FOR THE <NAME OF THE PROGRAMME> PROGRAMME OF <NAME OF INSTITUTION>

DATE: <DD MONTH YEAR>

#### COMPOSITION OF THE EVALUATION TEAM

A monitoring visit to the <Name of The Institution> was conducted on <Date of the visit> was conducted by the Technical Team appointed by the Malaysian Qualifications Agency (MQA)/ Malaysian Medical Council (MMC).

The team wishes to express its gratitude to the <Position (Vice Chancellor/Dean)>, <Name> and the faculty for their cooperation, hospitality and smooth coordination of the visit.
